

Report to the Executive Appropriations Committee

Intergovernmental Transfers in the Medicaid Program

October 2019

Statutory Requirement

As required by House Bill 194 (2017), the Utah Department of Health (Department) submits this response to comply with the following statutory requirement in UCA 26-18-21(2)(b):

(b) On or before October 15, 2017, and on or before October 15 each subsequent year, the department shall prepare a report for the Executive Appropriations Committee that includes:

(i) the amount of each intergovernmental transfer under Subsection (2)(a);

(ii) a summary of changes to the Centers for Medicare and Medicaid Services regulations and practices that are known by the department regarding federal funds related to an intergovernmental transfer program; and

(iii) other information the department gathers about the intergovernmental transfer under Subsection (2)(a).

Definitions

Seed – The amount of non-federal share paid to the Department through an intergovernmental transfer.

3-2-1 Administrative Indirect Match – The amount collected by the Department from the seeding entity to cover the administrative costs incurred by the Department.

Amount of Intergovernmental Transfers

The following table details the program, entity, and amount of intergovernmental transfer that was received by the Department on a cash basis. During any given state fiscal year, there are adjustments to seed and 3-2-1 administrative indirect match based on transactions that occurred in the previous fiscal year. As a result, the seed and/or 3-2-1 amounts are sometimes negative.

Per UCA 26-18-21(1)(a), the tables above do not contain information on the following intergovernmental transfers:

- (ii) *"Intergovernmental transfer" does not include:*
 - (A) *the transfer of public funds from one state agency to another state agency; or*
 - (B) *a transfer of funds from the University of Utah Hospitals and Clinics.*

Summary of Changes to Federal Regulations and Practices

There have been no changes to 42 CFR 433.51 or §1903(w)(6) of the Social Security Act since the last report was issued to the legislature on October 2018.

The Department continues to seek legal advice from Medicaid experts and the Centers for Medicare and Medicaid Services (CMS) to ensure that seed funding, as currently in practice, complies with CMS requirements. The Department reviews technical assistance provided by CMS on this issue with contracted Medicaid experts to validate CMS's interpretation of statute and regulation.

Other Information

The Department closely monitors these programs. Per UCA 26-18-21(2)(a), the Department collected reports from each entity and reviewed the information provided about each entity's ability to pay back a potential disallowance. The Department flagged one response for additional review and followed up with the entity to obtain additional information. The entity provided sufficient follow up information to assure the Department that federal funds were not being used as seed.

If the Department were to find something that indicated potential problems in an entity's ability to pay back a potential disallowance, the Department would look to strengthen its oversight of this entity's activities and determine if changes to the contract were necessary or if the arrangement needed to be terminated.
