BIII.1	Data validation entity	State Medicaid agency staff
	Select the state agency/division or contractor tasked with evaluating the validity of encounter data submitted by MCPs. Encounter data validation includes verifying the accuracy, completeness, timeliness, and/or consistency of encounter data records submitted to the state by Medicaid managed care plans. Validation steps may include pre-acceptance edits and post- acceptance analyses. See Glossary in Excel Workbook for more information.

Number	Indicator	Response
BX.1	Payment risks between the state and plans Describe service- specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities.	The Utah Office of Inspector General (UOIG) focused on several activities to identify, address, and prevent fraud, waste, and abuse within Utah's managed care plans (MCPs). Using MCP encounter data to identify areas of concern, the UOIG reviewed inpatient data to determine if a member's hospital admission met billing criteria, outpatient data to determine if evaluation and management codes were billed appropriately, and site visits to review medical records of outlier encounters. The UOIG notified the MCPs' special investigation units to recover funds, as necessary.
BX.2	Contract standard for overpayments Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	State has established a hybrid system
BX.3	Location of contract provision stating overpayment standard Describe where the overpayment standard in the previous indicator is located in plan	Attachment B-Special Provisions, Articles 11.1.6 and 11.1.7.

contracts, as required by 42 CFR 438.608(d)(1)(i).

BX.4	Description of overpayment contract standard Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid	The plans may retain their overpayment recoveries. If the OIG collects the overpayment it retains its recoveries. The OIG is only responsible to make collections after the plans have had 12 months to make collections.

	Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting? The regulations at 438.604(a)(7), 608(a) (2) and 608(a)(3) require plan reporting to the state on various overpayment pieces (whether annually or promptly). This indicator is asking the state how it monitors that	reporting.

Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate Enrollments are determined daily with the receipt of the Eligibility File from DWS. The system automatically evaluates eligibility for new enrollments or changes in enrollment and takes the appropriate action in the system. An Benefit Enrollment and Maintenance (834) file is sent to each plan daily through the clearinghouse (UHIN) based on member enrollment activity. Any deviation in the expected file or file size would prompt an email from either the Plan or UHIN to the state to confirm. The state also monitors for the complete file transmission to UHIN. In addition, an

BX.7a	Changes in provider circumstances: Monitoring plans	Yes
	Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.	
BX.7b	Changes in provider circumstances: Metrics	No
	Does the state use a metric or indicator to assess plan reporting performance? Select one.	
BX.8a	Federal database checks: Excluded person or entities	No
	During the state's federal database checks, did the state find any person or entity excluded? Select one. Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through	

	routine checks of Federal databases.	
BX.9a	Website posting of 5 percent or more ownership control	Yes
	Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).	
BX.9b	Website posting of 5 percent or more ownership control: Link	<u>https://medicaid.utah.gov/Documents/pdfs/Ownership%20MCE.pdf</u>
	What is the link to the website? Refer to 42 CFR 602(g)(3).	
BX.10	Periodic audits	Audits are conducted to determine the accuracy, truthfulness and
	If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, what is the link(s) to the audit results? Refer to 42 CFR 438.602(e).	completeness of the encounter and financial data submitted by the plans. The State performs quarterly encounter data reviews via email exchanges with the plans. Topic V. Availability, Accessibility and Network Adequacy

Network Adequacy

Number	Indicator	Response
C1V.1	Gaps/challenges in network adequacy What are the state's biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting standards.	The biggest challenge for Utah is for members residing in rural and frontier counties. In many cases, there are no providers located in the counties in which the members reside. This is also true for some of the counties that are classified as urban. For example, Utah County is an urban county, yet the outskirts of the county are rural and generally with no providers. These network adequacy issues exist for both fee-for-service Medicaid and managed care plans.
C1V.2	State response to gaps in network adequacy How does the state work with MCPs to address gaps in network adequacy?	The managed care plans address the challenges of network adequacy in rural and frontier areas through use of telemedicine and traveling mobile medical events, and by coordinating with Medicaid's NEMT provider.

Topic V. Availability, Accessibility and Network Adequacy

Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

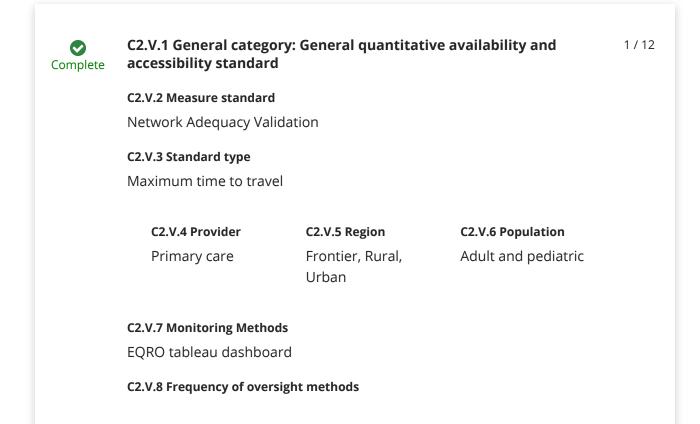

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

Topic IX: Beneficiary Support System (BSS)

Find in the Excel Workbook C1_Program_Set

Number	Indicator	Response
C1IX.1	BSS website List the website(s) and/or email address that beneficiaries use to seek assistance from the BSS through electronic means. Separate entries with commas.	https://medicaid.utah.gov/health-program- representatives/, https://medicaid.utah.gov/mybenefits-login/
C1IX.2	BSS auxiliary aids and services How do BSS entities offer services in a manner that is accessible to all beneficiaries who need their services, including beneficiaries with disabilities, as required by 42 CFR 438.71 (b)(2))? CFR 438.71 requires that the beneficiary support system be accessible in multiple ways including phone, Internet, inperson, and via auxiliary aids and services when requested.	Beneficiaries are able to access support services through a variety of ways. The main access point for beneficiaries is to call our Health Program Representatives (HPRs) Monday - Friday, between 8:00 A.M. and 5:00 P.M. HPRs can receive calls in both English and Spanish. If there are other languages spoken by the beneficiaries, translators can be used in a 3 way call. Relay services can also be used for the hearing impaired. Beneficiaries are able to access their benefit information online by using the MyBenefits portal. In the MyBenefits portal, beneficiaries can see all of their coverage information, including Co-pay information, Medical plan, Dental Plan, Mental Health plan, etc. They can also request a Non-emergency transportation card through the portal. Beneficiaries can also email our HPR team at any time. The email questions and requests are answered daily by the HPR team.
C1IX.3	BSS LTSS program data How do BSS entities assist the state with identifying, remediating, and resolving systemic issues based on a review of LTSS program data such as grievances and appeals or critical incident data? Refer to 42 CFR 438.71(d)(4).	N/A. The managed care plans are not responsible for LTSS under the contract.

C1IX.4 State evaluation of BSS entity performance

What are steps taken by the state to evaluate the quality, effectiveness, and efficiency of the BSS entities' performance? The State maintains goals for the telephone system. The HPR team has a set goal that the average speed of calls answered will be under 1 minute, 30 seconds. The abandonment rate for calls is to be under 6%. Calls are also monitored and reviewed for accuracy by lead workers and Supervisors.

If the managed care plan does not cover LTSS, enter "N/A". Also, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, enter "N/A". The appeal and critical incident do not have to have been "related" to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the appeal need to have been filed in relation to delivery of LTSS — they may have been filed for any reason, related to any service received (or desired) by an LTSS user.
