09- 88 Quarterly MIB Will No Longer Be Mailed

The Division of Medicaid and Health Financing, formerly called the Division of Health Care Financing, is looking for ways to cut costs due to budget pressures that exist in the current economy.

The Division has determined that the quarterly Traditional Medicaid Information Bulletin (MIB), including all interim publications and special program MIBs (Non-Traditional Medicaid and Primary Care Network), will no longer be mailed to providers and interested parties. Rather, the MIBs will be published at least quarterly on the Utah Medicaid Website at <http://health.utah.gov/medicaid>.

Please see the official January 2010 Medicaid Information Bulletins for the Traditional Medicaid, Non-Traditional Medicaid, and Primary Care Network programs online at the above web address.

The Division apologizes for any inconvenience this decision may cause. If you would like to request an electronic copy of the MIB or MIBs, please send an e-mail to medicaidops@utah.gov.
