PO Box 143106, Salt Lake City, UT 84114

15-01 New Electronic Funds Transfer (EFT) Enrollment via Web

Utah Medicaid is now offering a new Electronic Funds Transfer (EFT) web enrollment as an alternative to the submission of the current paper forms. This may be used for new EFT enrollments, as well as changes to existing EFT enrollments. The new EFT enrollment forms meet the requirements set forth by CAQH CORE 380 EFT Data Rule.

The EFT enrollment forms, along with the instruction and guidance for completion of the web entry forms, are located on the Utah Medicaid website at <https://eftprov.health.utah.gov/EftProvider>.

Please contact Provider Enrollment at (801) 538-6155, or toll free 1-800-662-9651, menu option 3, and then option 4, with any questions regarding the new web entry forms.

15-02 New Electronic Remittance Advice (ERA) Enrollment via Web

A new Electronic Remittance Advice (ERA) web enrollment form is now available for new ERA enrollment, or to change current ERA enrollment. The new ERA enrollment form meets the requirements set forth by CAQH CORE 382 ERA Data Rule.

The ERA enrollment form, along with the instruction and guidance for completion of the web entry form, are located online at <https://mmcslive.health.utah.gov/hcferoll2/>. EDI companion guides are located at <http://health.utah.gov/hipaa/guides.htm>.

Please contact the EDI Department at (801) 538-6155, or toll free 1-800-662-9651, menu option 3, and then option 5, with any questions regarding the new ERA web entry form.

15-03 1915(C) HCBS Waiver Renewals

The following Home and Community-Based Services waiver programs have a current expiration date of June 30, 2015:

Aging Waiver
Community Supports Waiver
New Choices Waiver

Unless otherwise noted, all changes take effect on January 1, 2015

In order to renew the waivers, the State must submit the applications to CMS by March 31, 2015. Draft copies of the applications have been posted on the State's website at <http://health.utah.gov/ltc>. Public comments will be accepted through February 28, 2015. Comments may be made online or through one of the below methods:

Mail: Utah Department of Health
Division of Medicaid and Health Financing
Bureau of Authorization and Community-Based Services
PO Box 143112
Salt Lake City, Utah 84114-3112

Fax: (801) 536-0153

15-04 HCBS Provider Manuals Updated

The following Home and Community-Based Waiver Services provider manuals have been updated:

Acquired Brain Injury Waiver
Aging Waiver
Community Supports Waiver
Medicaid Autism Waiver
New Choices Waiver
Physical Disabilities Waiver
Technology Dependent Waiver

The updates include clarification on expectations for service utilization over the service plan period, data security expectations for providers, and adjustments to the disenrollment process.

15-05 New HCPCS Modifiers to Define Subsets of Modifier 59

The Centers for Medicare and Medicaid Services (CMS) is establishing four new HCPCS modifiers to define subsets of the 59 modifier, Distinct Procedural Service. These modifiers are:

XE Separate encounter: A service that is distinct because it occurred during a separate encounter
XP Separate practitioner: A service that is distinct because it was performed by a different practitioner
XS Separate structure: A service that is distinct because it was performed on a separate organ/structure
XU Unusual non-overlapping service: The use of a service that is distinct because it does not overlap usual components of the main service

These modifiers are collectively referred to as -X {EPSU} modifiers. Modifier 59 should not be used when a more descriptive modifier is available. The -X {EPSU} modifiers are more descriptive versions of the 59 modifier, so it would be incorrect to include both modifiers on the same line.

The -X {EPSU} modifiers require manual review and modifier 59 continues to require manual review. To review the complete CMS transmittal, Specific Modifiers for Distinct Procedural Services, go to: <http://www.cms.gov/Regulations-and-Guidance/Guidance/Transmittals/Downloads/R1422OTN.pdf>.

15-06 Telemedicine

Effective January 1, 2015, Medicaid providers may be reimbursed for physician and nurse practitioner services delivered via telemedicine to Medicaid members. Note the following policy:

Telemedicine is two-way, real-time interactive communication between the patient and the provider at the distant site. This electronic communication means the use of interactive telecommunications equipment that includes, at a minimum, audio and video equipment*.

Telemedicine encounters must comply with HIPAA privacy and security measures to ensure that all patient communications and records, including recordings of telemedicine encounters, are secure and remain confidential. The provider is responsible for determining if the encounter is HIPAA compliant. Security measures for transmission may include password protection, encryption, and other reliable authentication techniques.

Compliance with the Utah Health Information Network (UHIN) Standards for Telehealth must be maintained. These standards provide a uniform standard of billing for claims and encounters delivered via telehealth.

Distant site is the site at which the provider delivering the service is located at the time the service is provided via a telecommunications system.

Originating site is the location of the Medicaid patient at the time the service being furnished via a telecommunications system occurs.

Providers must use the GT modifier to indicate that telemedicine was used as the delivery mechanism.

The GQ modifier is used for transmission of data. This is not a covered service.

No additional reimbursement will be given to the provider at the originating site for the use of telemedicine.

Providers participating in telemedicine must comply with Utah Medicaid provider requirements as specified in the Utah Medicaid Provider Manual, Section I: General Information, Provider Enrollment and Compliance.

The Utah Medicaid Provider Manuals, Section I: General Information, Physician Services, Home Health Agencies, and Licensed Nurse Practitioner, will be updated to reflect this change effective January 1, 2015. The following updates will be made:

Unless otherwise noted, all changes take effect on January 1, 2015

- This telemedicine policy will be added to Section I: General Information, Covered Services.
- A reference to this telemedicine policy in the Section I: General Information Manual will be added to the Home Health Agencies Manual.
- The Special Health Care Needs Children in Rural Areas policy will be removed from the Physician Services Manual. A reference to this telemedicine policy in the Section I: General Information Manual will be added.
- The Licensed Nurse Practitioner Manual will be updated to reference this telemedicine policy in the Section I: General Information Manual.

To review these changes, refer to the applicable provider manual at the Utah Medicaid website at: <https://medicaid.utah.gov>.

*Centers for Medicare and Medicaid Services, "Telemedicine": <http://www.medicare.gov/medicaid-chip-program-information/by-topics/delivery-systems/telemedicine.html>.

15-07 Clarification of October MIB Article 14-135 and Home Health Agencies Manual Update

The January 1, 2015, Home Health Agencies Provider Manual has been updated to reflect the following change:

Home health agencies (HHA) may adjust or combine private duty nursing (PDN) hours within a 7-day period based on the needs of the family. Combining PDN hours should not be a common practice, and it is not permissible to combine PDN hours because the agency could not staff a shift. If PDN hours are combined, and this results in requiring additional PDN services, another prior authorization (PA) must be submitted requesting approval to exceed the previously approved units or hours.

15-08 Diagnoses Lists Updated

Effective January 1, 2015, the following diagnoses lists have been updated:

- Utah Medicaid Table of Authorized Emergency Inpatient Diagnoses
- Utah Medicaid Table of Authorized Emergency Diagnoses

These lists are available on the Utah Medicaid website at <https://medicaid.utah.gov/utah-medicaid-official-publications?p=Medicaid%20Provider%20Manuals/Hospital/Attachments/>.

Unless otherwise noted, all changes take effect on January 1, 2015

- Primary Care Network (PCN) Authorized Diagnoses for Emergency Department Reimbursement

This list is available on the Utah Medicaid website at <https://medicaid.utah.gov/utah-medicaid-official-publications?p=Medicaid%20Provider%20Manuals/Primary%20Care%20Network%20%28PCN%29/Attachments>.

15-09 CMS Codes for Medical Supplies

The following new HCPCS codes have been opened:

Effective October 1, 2014

K0901 Knee orthosis (KO), single upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated, off-the-shelf. Code requires a prior authorization.

K0902 Knee orthosis (KO), double upright, thigh and calf, with adjustable flexion and extension joint (unicentric or polycentric), medial-lateral and rotation control, with or without varus/valgus adjustment, prefabricated, off-the-shelf. Code requires a prior authorization.

Effective October 7, 2014

E0472 Respiratory assist device...with backup rate feature with invasive interface. Prior authorization removed for rental.

Effective November 3, 2014

E2619 Replacement cover for wheelchair seat/back cushion. Prior authorization removed from code.

15-10 Medical Supplies Provider Manual Updates

The following changes have been made to the Medical Supplies Manual, as well as wording to facilitate understanding of policies.

Prosthetic Device Codes for Lower and Upper Extremities

Prior authorization (PA) is no longer required for specific, fixed-price prosthetic codes. Utilization is now controlled by quantity limits as posted on the Coverage and Reimbursement Code Lookup Tool. If a replacement prosthetic with the same or different code is provided, that would exceed the quantity limits for the current prosthetic and a PA must be obtained.

Miscellaneous codes and manually-priced codes will continue to require the PA unit to determine reimbursement rate. Documentation must be retained by the provider to support and justify the level of prosthetic provided.

Unless otherwise noted, all changes take effect on January 1, 2015

Donor Human Milk

Code T2101; Human breast milk processing, storage and distribution only. Utah Medicaid will allow reimbursement for donor milk from a donated human milk bank enrolled as a Utah Medicaid provider, and is certified by the Human Milk Bank Association of North America, or meets such other standards as may be adopted by the Utah Medicaid program. Prior authorization (PA) is required. Refer to the Medical Supplies provider manual for specific PA criteria requirements.

As part of the PA, a “Donor Human Milk Request Form” is required. After January 1, 2015, the form will be available in the *Forms* section of the Utah Medicaid website at <https://medicaid.utah.gov>.

Disposable Incontinence Product Clarification

The unit limit for disabled members on Traditional Medicaid is 156 per month. The unit limit for members on a Home and Community-Based Services Waiver is 312 per month, and must have the appropriate waiver “U modifier” included with the appropriate HCPCS code. In both cases, the limit applies to any combination of the open incontinent codes for a one-month supply. If need exceeds these limits, a PA must be obtained.

Quantity Limits and Special Instructions

Refer to the Coverage and Reimbursement Code Lookup Tool for quantity limits and special instructions that may apply to a code. Medicaid continues to update and place important information on the Lookup Tool.

15-11 Podiatry Provider Manual Revised

The Utah Medicaid Podiatry Provider Manual has been revised and reformatted. To review the complete manual, refer to the Utah Medicaid website at <https://medicaid.utah.gov>. Previous versions have been archived.

15-12 Correction to July MIB Article 14-95, Physical Therapy and Occupational Therapy Evaluation and Re-evaluation Codes

The CPT codes for PT re-evaluation and OT evaluation were transposed. The correct codes are:

- 97002 Physical therapy re-evaluation
- 97003 Occupational therapy evaluation

15-13 Laboratory Provider Manual Revised

The Utah Medicaid Laboratory Services Provider Manual and associated attachments, Manual Detection of Microorganisms Using Nucleic Acid Probes Guidelines and CLIA Certification for Laboratory Services, have been revised and reformatted. To review the complete revisions, refer to the Utah Medicaid website at <https://medicaid.utah.gov>. Previous versions have been archived.

15-14 Laboratory Service Covered

Code G0434 is open to report drug class testing. Code G0434 includes qualitative drug screen tests waived under CLIA as well as dipsticks, cups, cards, cassettes, etc. that are not CLIA waived. Only one unit of service may be billed per patient encounter, regardless of the number of drug classes tested and irrespective of the use or presence of the QW modifier on the claim line.

15-15 CPT Code Updates

Code Requires Prior Authorization

43775 Laparoscopic longitudinal gastrectomy (e.g. sleeve gastrectomy) covered with prior authorization (PA). The bariatric surgery InterQual criteria include a requirement for a psychiatric evaluation by a clinical psychologist or psychiatrist. The physician manual includes recommendations for a psychiatric/psychological evaluation.

Codes No Longer Requiring Prior Authorization (but PET/CT are subject to utilization review)

- 78811 PET limited area
- 78812 PET skull base to mid thigh
- 78813 PET whole body
- 78814 PET/CT limited area
- 78815 PET/CT skull base to mid thigh
- 78816 PET/CT whole body

Codes Open to Ambulatory Surgical Centers

- 29904 Arthroscopy, subtalar joint, surgical; with removal of loose body or foreign body
- 29905 ...with synovectomy
- 29906 ...with debridement
- 29907 ...with subtalar arthrodesis

Genetic Testing Codes Open with Prior Authorization by Physician Review

- 81228 Cytogenomic constitutional microarray analysis; interrogation of genomic regions for copy number variants or oligo-based comparative genomic hybridization

Unless otherwise noted, all changes take effect on January 1, 2015

81229 Cytogenomic constitutional microarray analysis; interrogation of genomic regions for copy number and single nucleotide polymorphism variants for chromosomal abnormalities

Mandatory Secondary Review Required by a Physician

To help determine medical necessity, the documentation listed below should be submitted with all requests for array-based cytogenetic testing for detection of chromosomal abnormalities, in addition to any other supporting documentation:

- Any previous biochemical and metabolic disease testing
- Diagnosis of non-syndromic Development Delay/Intellectual Disability or Autism Spectrum Disorder
- Malformations
- Demonstrates how CMA testing will impact clinical management of the patient
- Attendance of genetic counseling by the patient's parent(s) or legal guardian(s) with a Utah Licensed Genetic Counselor

Code 94640 Requires 25 Modifier

When the service is more than just providing inhalation therapy (code 94640), the provider shall add the 25 modifier to the evaluation and management (E&M) service. With the 25 modifier, the system will pay for the additional treatment. This is in response to recent CCI edits that denied the E&M with inhalation therapy. In many cases, the patient has asthma or a condition that requires more than just the inhalation therapy treatment.

15-16 CHEC Services Provider Manual Updates

Effective January 1, 2015, the Medicaid provider manual, CHEC Services, has been updated as follows:

- Chapter 1-4, Referrals, has been updated to remove the instruction to indicate verbally or by paper that it is a CHEC referral.
- Chapter 2-3 (3) has been updated to remove duplicate text.
- Chapter 2-5 (1) has been updated to correct the reference to the Utah Administrative Code.
- Chapter 3-3 has been updated to correct the reference to the Speech-Language Pathology and Audiology Services Provider Manual.
- Chapter 3-4 has been updated to correct the reference to the Utah Medicaid Provider Manual for Rehabilitative Mental Health and Substance Use Disorder and Utah Medicaid Provider Manual for Psychology Services.
- Chapter 3-5 has been updated to include the correct form to request prior authorization and the number to use when faxing the form for consideration.
- Chapters 2-3 and 3-4 have been updated to remove web links that no longer work.
- Chapter 5, Appendices, has been updated to remove the reference to the Scope of Services for Occupational Therapy which has been discontinued.

Unless otherwise noted, all changes take effect on January 1, 2015

Providers may access the current and revised provider manual at <https://medicaid.utah.gov>. If you do not have Internet access, or have questions about this article, contact Julie Olson at (801) 538-6764, or e-mail at julieolson@utah.gov.

15-17 Rehabilitative Mental Health and Substance Use Disorder Services Provider Manual Updates

- In Chapters 1-5, 2-4, and 2-5, Utah Code references have been clarified.
- In Chapter 2-5, qualifications of psychology students have been clarified.

Providers can access the revised provider manual at <https://medicaid.utah.gov>.

15-18 Psychology Services Provider Manual Update

- In Chapter 1-4, qualifications of psychology students have been clarified.

Providers can access the revised provider manual at <https://medicaid.utah.gov>.

15-19 Targeted Case Management for Individuals with Serious Mental Illness Provider Manual Update

- In Chapter 1-5, Utah Code references have been clarified.

Providers can access the revised provider manual at <https://medicaid.utah.gov>.

15-20 Code Ranking for CPT/HCPCS Codes

Surgical code ranking was reviewed and changed in the reference file for the following CPT/HCPCS codes:

Codes Added to Ranking

- 11056 PARING/CUTTING BENIGN LESIONS (CORN OR CALLUS);2-4
- 11057 PARING/CUTTING BENIGN LESIONS (CORN OR CALLUS);>4
- 11755 BIOPSY OF NAIL UNIT, ANY METHOD (SEPARATE PROCEDURE)

15-21 Publication of 2015 Codes

The 2015 HCPCS and CPT codes will be published in the coming January 2015 Interim MIB. This is due to the delayed release of the codes by the Centers for Medicare and Medicaid Services (CMS).
