

**Notes:**

The types of CLIA certificate required to cover specific HCPCS procedure codes are listed in the columns below. The last column is a list of codes which do not require CLIA certification.

- Not all of codes listed are covered by Medicaid. Refer to the Coverage & Reimbursement Lookup Tool [<https://medicaid.utah.gov>] or specific policy and limitations. Many codes can only be billed by certain provider types identified by Medicaid.
- In the list of **Codes Excluded from CLIA Requirements**, some codes have been omitted because they will never be approved as Medicaid payable codes.
- Codes without the QW modifier in the **Certificate of Waiver** column are for tests, while the remaining codes are for specific kits approved by the Center for Disease Control.
- Clinical Laboratory Improvement Amendments web site: <http://cms.hhs.gov/clia>.
- Code(s) added to this list are in bold print.
