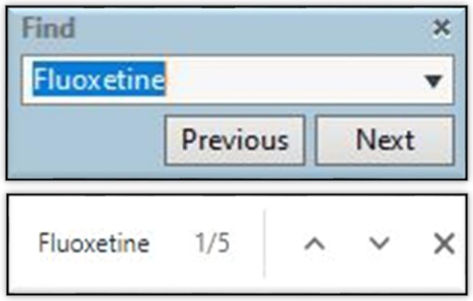
Search Document:

- Open Find Menu, use the keyboard shortcut Ctrl+F (Command+F for Mac).



- Type a word/medication to find in document.

Note: Display format will vary depending upon browser/software used to view document.

- Select "Next" or Arrow Buttons to view multiple results.

Utah Medicaid Preferred Drug List - Effective February 1, 2021

• **Drugs Not Listed on PDL:** Are covered per the Pharmacy Provider Manual. Manuals can be found at https://medicaid.utah.gov/utah-medicaid-official-publications

• **Listed Drug Name:** When only the generic name is listed, this includes all generic strengths, dosage forms, and formulations for that drug and in that class. The same principle applies to brand name drugs. When the strength and/or dosage form is included in a name listing, this narrows the listing to those particular strengths and/or dosage forms. A comma may be used to delineate multiple strengths, dosage forms, or formulations.

• **Non-Preferred Products:** All Non-preferred products require an appropriate trial and failure of a preferred product with similar dosage form and use/indication. If a non-preferred strength/ dosage form is requested, the preferred strength/ dosage form must be tried before the non-preferred strength/ dosage form will be approved. Or the prescriber must demonstrate medical necessity for non-preferred. Additonal criteria found on Drug Class and Disease Specific PA Forms will also apply. Authorization Criteria can be found at https://medicaid.utah.gov/pharmacy/prior-authorization.

• **Non-Preferred Combination Products:** When the separate single ingredient products are preferred, those must be tried before the non-preferred product will be approved.

• **Non-Preferred Psychotropic Products - Dispense as Written (DAW):** Non-preferred psychotropic medication classes listed on the PDL may bypass the non-preferred drug prior authorization if a prescriber writes "dispense as written" on a prescription and the pharmacy submits a Dispense As Written (DAW) Code of "1" on the claim.

Note: In accordance with UCA 58-17b-606 (4) and (5), the DAW Code will not allow claims for the brand-name version of multisource drugs to bypass the prior authorization requirement, even if the brand-name version of the drug is listed as nonpreferred and the prescriber writes "dispense as written" on the prescription. An exception to this is in the case that a brand-name drug is listed on the Brand Over Generic reference; in that case, the DAW Code will only override the brand-name drug.

Note: In order for a prescription to be eligible for the pharmacy to submit the DAW Code of "1" to bypass the edit for a nonpreferred medication the prescriber must write "dispense as written" on the physical prescription. Check boxes or pre-printed forms that include "dispense as written" are not acceptable substitutes for the prescriber writing "dispense as written" on the prescription. Electronic prescriptions must state "dispense as written" as either a note or as part of the prescription drug order to satisfy this requirement. Verbal orders that include "dispense as written" must be reduced to writing on the prescription by the pharmacist accepting the verbal order and documented in the member's medical record.

• **Over-the-Counter (OTC) Products:** PDL listing is for legend drugs and does not include over-the-counter (OTC) products. A complete listing of covered OTC products is located in this document following the PDL.

• **Updates:** PDL changes will be posted monthly, changes effective in the posted month are highlighted in yellow. This may include changes to the status (preferred/non-preferred) or a change to the way the drug is listed. A date older than the release of a new form of a drug does not mean the newer form is excluded from that listing.

Analgesics

Non-Steroidal Anti-Inflammatory Drugs (NSAIDs)

Preferred Drugs	Status	Type	Last Update	Limits	Mandatory 3-Month	Brand Required	Additional Note

Short Acting Opioids							
• **Cancer Pain:** The MED limit and quantity limit may be overridden if the prescriber writes Diagnosis Code (G89.3 Neoplasm related pain) for cancer related pain on the face of the prescription.							
• **Children**: 18 years of age and younger, short-acting opioid prescriptions that exceed a 7 day supply require prior authorization.							
• **Initial Fill**: Initial prescriptions that exceed a 7 day supply or 3 day for dental providers require prior authorization. A prescription is considered "initial" if the drug has not been filled for the member in the past 60 days.							
• **MME**: In addition to the drug-specific limits below, a Morphine Equivalents Daily (MED) limit for any combination of opioids is 90 MED.							
• **Pregnancy:** Pregnant women, short-acting opioid prescriptions that exceed a 7 day supply require prior authorization.

Long Acting Opioids							
• **Cancer Pain:** MED & Quantity limits may be overridden if the prescriber writes Diagnosis Code (G89.3 Neoplasm related pain) for cancer related pain on the face of the prescription.							
• **Benzodiazepine and Opioid Combination:** Concurrent prescriptions of long-acting opioids and benzodiazepines (filled within 45 days of each other) require prior authorization.							
• **MME**: In addition to the drug-specific limits below, a Morphine Equivalents Daily (MED) limit for any combination of opioids is 90 MED.							
• **Mutually Exclusive:** Methadone and Fentanyl are exclusive with each other and all other long acting opioids. All other opioids are not mutually exclusive with each other.							
• **Short before Long:** Short acting opioid fill (within 30 days) is required before initiation of long acting opioid therapy.

Drug / Product Name	Status	Type	Updated	Limits	PA Form / 3-Month Req'd	Brand Req'd	Additional Note
Atypical Antipsychotics							
• **Children under 20:** Utah Medicaid restricts the use of multiple antipsychotics in children under 20 years old.							
• **Children under 6:** Prior Authorization is required for all antipsychotics prescribed to children under 6 years old.							
• **DAW:** Non-preferred psychotropic medication classes listed on the PDL may bypass the non-preferred drug prior authorization if a prescriber writes "dispense as written" on a prescription and the pharmacy submits a Dispense As Written (DAW) Code of "1" on the claim. See Pg.3 Explanation for more information.

Xanax	Non Preferred	Brand	01/01/17	Cumulative: 120 units /30 days	Medication Coverage Exception		
Miscellaneous Mood Stabilizers							
• **DAW:** Non-preferred psychotropic medication classes listed on the PDL may bypass the non-preferred drug prior authorization if a prescriber writes "dispense as written" on a prescription and the pharmacy submits a Dispense As Written (DAW) Code of "1" on the claim. See Pg.3 Explanation for more information.

Zytiga	abiraterone	12/01/18			

Utah Medicaid Additional Drugs that Require 3 Month Supply - Effective February 1, 2021

• **Policy:** Utah Medicaid has instituted a mandatory 3 month supply for maintenance medications, following a two-month window for dose titration and stabilization.

• **Copays:** For a 3 month supply, Utah Medicaid fee for service members who are subject to cost-sharing will pay a single copay**.**

• **Day Supply:** 3 Month supply is defined as a 90 day supply. Exceptions to this are hormonal contraceptives. For continuous cycle contraceptives it is defined as 91 days; for all other hormonal contraceptives it is defined as 84 days.

• **Dispensing Fees:** Pharmacies will receive a single dispensing fee on prescriptions filled for a 3 Month supply.

• **Exemptions:** Mandatory three month policy applies to most members. Exemptions from this program as determined based on the member Category of Aid. Note: The mandatory 3 Month policy does not apply to Indian Health Service providers, or Medicaid members receiving long term services and supports in nursing facilities, intermediate care facilities, or home and community based waiver programs. While not mandatory, 3 Month supply fills remains optional for these groups.

• **Exceptions**: Requests for exceptions may be submitted by the prescriber through Prior Authorization.

Drugs	Strength(s)	Status	Type	Last Update
