1 GENERAL POLICY

1 - 1 Authority

Rehabilitative mental health and substance use disorder (SUD) services are provided under the authority of §1905(a)(13) of the Social Security Act and 42 CFR §440.130, Diagnostic, Screening, Preventive, and Rehabilitative Services. In accordance with §1905(a)(13) of the Social Security Act, outpatient rehabilitative mental health and SUD services may be provided in settings other than the provider’s office, as appropriate.

In this manual, the term ‘behavioral health’ will include both mental health disorders and SUDs unless otherwise specified. When mental health disorders or SUDs are referred to separately, the term ‘mental health’ or ‘SUD’ will be used.

Rehabilitative mental health and SUD services are designed to promote the Medicaid member’s behavioral health and to restore the individual to the highest possible level of functioning. Services must be provided to or directed exclusively toward the treatment of the Medicaid member.

Rehabilitative behavioral health services may be provided to Medicaid members with a dual diagnosis of a mental health disorder and/or SUD and an intellectual disability, developmental disorder or related condition when the services are directed to the treatment of the mental health disorder or SUD.

1 - 2 Definitions

**Accountable Care Organization (ACO)** means a Utah managed care organization that contracts with Division of Medicaid and Health Financing to provide medical services to Medicaid members.

**Adult Expansion Medicaid Members** mean parents and adults without dependent children earning up to 138% of the federal poverty level.

**Behavioral health disorders** mean mental health disorders and substance use disorders (SUDs).

**Behavioral health services** mean the rehabilitative services directed to the treatment of the mental health disorders and/or SUDs.

**Centers for Medicare and Medicaid Services (CMS)** means the federal agency within the Department of Health and Human Services that administers the Medicare and Medicaid programs, and works with states to administer the Medicaid program.

**Children in Foster Care** means children and youth under the statutory responsibility of the Utah Department of Human Services identified as su99211ch in the Medicaid eligibility (eREP) system.

**Division of Medicaid and Health Financing (DMHF)** means the organizational division in the Utah Department of Health that administers the Medicaid program in Utah (hereinafter referred to as Medicaid).
Division of Occupational and Professional Licensing (DOPL) means the division within the Utah State Department of Commerce responsible for occupational and professional licensing.

Early Periodic Screening Diagnostic and Treatment (EPSDT) means the federally mandated program that provides comprehensive and preventive health care services for children under age 21. For more information on EPSDT, refer to the Utah Medicaid Provider Manual for EPSDT Services.

Enrollee means any Medicaid member enrolled in the Prepaid Mental Health Plan (PMHP), UMIC Plan or HOME.

Fee-for-Service (FFS) means Medicaid-covered services that are reported directly to and paid directly by Medicaid based on an established fee schedule.

Habilitation Services typically means interventions for the purpose of helping individuals acquire new functional abilities whereas rehabilitative services are for the purpose of restoring functional losses. (See Rehabilitative Services definition below.)

Healthy Outcomes Medical Excellence Program (HOME), operated by the University of Utah, means a voluntary managed care program for Medicaid members who have a developmental disability and mental health or behavioral challenges. HOME is a coordinated care program that provides to its enrollees medical services, behavioral health services, and targeted case management services.

Institution of Mental Diseases (IMD) means pursuant to 42 CFR §435.1010, a hospital, nursing facility, or other institution of more than 16 beds that is primarily engaged in providing diagnosis, treatment or care of persons with mental diseases, including medical attention, nursing care and related services. Whether an institution is an institution for mental diseases is determined by its overall character as that of a facility established and maintained primarily for the care and treatment of individuals with mental diseases, whether or not it is licensed as such. An institution for individuals with intellectual disabilities is not an institution for mental diseases.

Medically Necessary Services means any rehabilitative service that is necessary to diagnose, correct, or ameliorate a behavioral health disorder or prevent deterioration or development of additional behavioral-health problems, and there is no other equally effective course of treatment available or suitable that is more conservative or substantially less costly.

Prepaid Mental Health Plan (PMHP) means the Medicaid mental health and substance use disorder managed care plan that covers inpatient and outpatient mental health services and outpatient SUD services for PMHP-enrolled Medicaid members (enrollees).

Presumptive Eligibility means temporary Medicaid coverage for qualified low-income individuals prior to establishing eligibility for ongoing Medicaid.

Rehabilitative Services means any medical or remedial services recommended by a physician or other licensed practitioner of the healing arts (i.e. licensed mental health therapist) for maximum reduction of an individual’s behavioral health disorder and restoration of the individual to his/her best possible functional level.

Targeted Adult Members means adults age 19-64 without dependent children whose income is zero percent of the Federal Poverty Level and who meet the criteria for one of the following groups: (1)
chronically homeless individuals, (2) individuals involved in the justice system and in need of SUD or mental health treatment, or (3) individuals in need of SUD or mental health treatment.

**Treatment Goals** means measures of progress decided jointly with the patient whenever possible and may also be referred to as measurable goals or measurable objectives. For purposes of this provider manual, the term ‘treatment goals’ will be used to specify the measures contained in treatment plans.

**Utah Medicaid Integrated Care (UMIC) Plans** mean managed care plans responsible to provide both physical health services and behavioral health services (i.e., mental health and substance use disorder services) to their enrollees. HOME is not a UMIC plan.

1 - 3 Medicaid Behavioral Health Service Delivery System

Utah operates a behavioral health managed care plan under a federal freedom-of-choice waiver. This managed care plan is called the Prepaid Mental Health Plan (PMHP).

Under the PMHP, DMHF contracts with local county mental health and substance abuse authorities or their designated entities to provide inpatient hospital psychiatric services, and outpatient mental health and outpatient substance use disorder services to Medicaid members.

The PMHP covers most counties of the state. Medicaid members are automatically enrolled with the PMHP contractor serving their county of residence, and must receive inpatient and outpatient mental health services and outpatient substance use disorder services through that PMHP contractor. See Table 1 of this Chapter for PMHP coverage. Under Utah’s 1115 Demonstration Waiver, Adult Expansion Medicaid members in certain counties of the state are enrolled in UMIC Plans, and must receive behavioral health services through their UMIC Plans. See Table 2 of this Chapter for UMIC Plan coverage.

Prior to delivering services, providers must verify eligibility and determine if a member is enrolled in the PMHP or a UMIC Plan. For tools to verify eligibility, refer to Chapter 6, ‘Member Eligibility’, of **Utah Medicaid Provider Manual, Section I: General Information**. If a Medicaid member is enrolled in the PMHP or a UMIC Plan, and the provider is not on the member’s PMHP or UMIC Plan panel, the provider must refer the member to the PMHP or UMIC Plan, or contact the PMHP or UMIC Plan prior to delivering services to seek prior authorization.

The tables below show by county whether mental health and substance use disorder services are paid FFS, or whether they are covered under the PMHP or UMIC Plans.

In Table 1, when services are paid Fee-for-Service, ‘FFS’ is specified. When services are covered under the PMHP, the name of the PMHP contractor is specified.

**Adult Expansion Medicaid Members**

Adult Expansion Medicaid members living in Davis, Salt Lake, Utah, Washington, and Weber counties are not enrolled in the PMHP. These Medicaid members are enrolled in UMIC Plans that cover both physical health and behavioral health (i.e., mental health and substance use disorder) services.
Table 2 below shows by county, the UMIC Plans Adult Expansion Medicaid members can select for enrollment.

For UMIC Plan contact information, please refer to the Medicaid Managed Care website at: [https://medicaid.utah.gov/managed-care](https://medicaid.utah.gov/managed-care)

Adult Expansion Medicaid members living in other counties are enrolled in the PMHP serving their county of residence according to Table 1 above.

Behavioral health services provided by an Indian health care provider operated by Indian Health Services, an Indian Tribe, Tribal Organization, or an Urban Indian Organization to Medicaid members enrolled in UMIC Plans are billed directly to Medicaid. Authorization from the member’s UMIC Plan is not required. Medicaid reimburses the providers directly.

**Additional Provider Options for Prepaid Mental Health Plan Enrollees**

All Medicaid members enrolled in the PMHP may also get behavioral health services directly from a federally qualified health center (FQHC). Authorization from the member’s PMHP is not required. Medicaid reimburses FQHCs directly.

Behavioral health services provided by an Indian health care provider operated by Indian Health Services, an Indian Tribe, Tribal Organization, or an Urban Indian Organization are billed directly to Medicaid. Authorization from the member’s PMHP is not required. Medicaid reimburses the providers directly.

Medicaid members enrolled in the PMHP who are also Medicare beneficiaries may obtain behavioral health services directly from providers who accept Medicare. Authorization from the member’s PMHP is not required. For providers also enrolled as Medicaid providers, crossover claims will be processed.
through FFS Medicaid, and will be subject to crossover adjudication logic for payment of co-insurance and deductible, if applicable.

**Exceptions to Prepaid Mental Health Plan Enrollment**

**Children in Foster Care**

Children in Foster Care are enrolled in the PMHP only for inpatient hospital psychiatric services. They are not enrolled in the PMHP for outpatient behavioral health services. They may obtain outpatient services from any qualified Medicaid provider. Providers may report services to Medicaid on a FFS basis.

**Children with State Adoption Subsidy**

Children with state adoption subsidy are enrolled in the PMHP. However, an exemption from PMHP enrollment for outpatient behavioral health services may be granted on a case-by-case basis. Once disenrolled, these children remain enrolled in the PMHP only for inpatient hospital psychiatric services. They may obtain outpatient services from any qualified Medicaid provider. Providers may report services to Medicaid on a FFS basis.

**Exceptions to Prepaid Mental Health Plan and UMIC Plan Enrollment**

**Medicaid Members Enrolled in HOME**

Medicaid members enrolling in HOME are disenrolled from their PMHP or UMIC Plan. HOME enrollees must receive all behavioral health services through HOME (see Chapter 1-2, Definitions). Providers must follow HOME’s network and prior authorization requirements and obtain reimbursement directly from HOME.

**Presumptive Eligibility**

Medicaid members with presumptive eligibility are not enrolled in the PMHP or UMIC Plans. Providers may report services to Medicaid on a FFS basis.

**Targeted Adult Members**

Targeted Adult Members are not enrolled in the PMHP or UMIC Plans. Providers may report services to DMHF on a FFS basis.

**Exceptions to Prepaid Mental Health Plan and UMIC Plan Coverage**

**Evaluations**

When mental health evaluations and psychological testing are performed for physical health purposes, including prior to medical procedures, or for the purpose of diagnosing intellectual or developmental disabilities, or organic disorders, they are carved out services from the PMHPs, UMIC Plans and the ACOs.

When these services are performed for the purposes stated above, providers must report the services through FFS with the UC modifier on the procedure code. If the UC modifier is not included with the procedure code, then the line will be denied.
For information on mental health evaluations and psychological testing for physical health purposes, also refer to the Utah Administrative Rule R414-10, Physician Services, and the Utah Medicaid Provider Manual for Physician Services.

Note: Additional provider requirements apply when evaluations may be used to qualify a Medicaid member to receive Medicaid-covered autism spectrum disorder (ASD)-related services. For information on these requirements and on ASD-related services, refer to the Utah Medicaid Provider Manual for Autism Spectrum Disorder Related Services for EPSDT Eligible Individuals.

This carve-out policy does not apply to: (1) developmental screenings performed as part of a preventive EPSDT service (see the Utah Medicaid Provider Manual for EPSDT Services); and (2) psychiatric consultations performed during a physical health inpatient hospitalization. The ACOs remain responsible for these services.

This carve-out policy does not apply to mental health evaluations and psychological testing for the primary purpose of diagnosing or treating behavioral health disorders. The PMHPs and UMIC Plans remain responsible for these services.

This carve-out policy does not apply to HOME enrollees. If the Medicaid member is enrolled in HOME, refer to the section above on HOME enrollment.

Methadone Administration Services

Methadone administration services are not covered under the PMHP or UMIC Plans. Medicaid members may obtain methadone administration services from Medicaid-enrolled Opioid Treatment Programs (OTPs). OTPs may bill DMHF on a FFS basis. However, related outpatient behavioral health services that Medicaid members require are covered under the PMHP and UMIC Plans.

1 - 4 Scope of Services

Behavioral health services are limited to medically necessary services directed to the treatment of behavioral health disorders (see Chapter 1-2 for definition of behavioral health disorders). Services must be provided to the Medicaid member or directed exclusively toward the treatment of the Medicaid member.

Telemedicine:

Services may be provided via telemedicine when clinically appropriate. Services must be provided in accordance with telemedicine policy contained in the Utah Medicaid Provider Manual, Section I: General Information. For dates of service prior to April 1, 2022, when services are provided by telemedicine, providers must specify place of service ‘02’ in the place of service field on the claim. For dates of service on or after April 1, 2022, providers must specify the place of service as follows:
‘02’ (Telehealth Provided Other than in Patient’s Home)
‘10’ (Telehealth Provided in Patient’s Home)
The scope of rehabilitative behavioral health services includes the following:

- Psychiatric Diagnostic Evaluation
- Mental Health Assessment by a Non-Mental Health Therapist
- Psychological Testing
- Psychotherapy with Patient
- Family psychotherapy with Patient Present and Family Psychotherapy without Patient Present
- Group Psychotherapy and Multiple Family Group Psychotherapy
- Psychotherapy for Crisis
- Psychotherapy with Evaluation and Management (E/M) Services
- Evaluation and Management (E/M) Services (Pharmacologic Management)
- Therapeutic Behavioral Services
- Psychosocial Rehabilitative Services
- Peer Support Services
- SUD Services in Licensed SUD Residential Treatment Programs
- Assertive Community Treatment (ACT) and Assertive Community Outreach Treatment (ACOT)
- Mobile Crisis Outreach Teams (MCOT)
- Clinically Managed Residential Withdrawal Management
- Mental Health Services in Licensed Mental Health Residential Treatment Programs
- Behavioral Health Receiving Centers

See Chapter 2, Scope of Services, for service definitions and limitations.

1 - 5 Provider Qualifications

When applicable to a provider in A. or B. below, providers are responsible to ensure supervision is provided in accordance with requirements set forth in Title 58 of the Utah Code, and the applicable profession’s practice act rule as set forth by the Utah Department of Commerce and found at the Department of Administrative Services, Division of Administrative Rules, at: https://rules.utah.gov/publications/utah-adm-code
A. Providers Qualified to Prescribe Behavioral Health Services

Rehabilitative services must be prescribed by an individual defined below:

1. Licensed mental health therapist practicing within the scope of practice defined in the individual’s respective licensing act and licensed under Title 58-60, Mental Health Professional Practice Act, as:
   a. physician and surgeon or osteopathic physician engaged in the practice of mental health therapy;
   b. advanced practice registered nurse (APRN) specializing in psychiatric mental health nursing;
   c. APRN intern specializing in psychiatric mental health nursing;
   d. psychologist qualified to engage in the practice of mental health therapy;
   e. certified psychology resident qualifying to engage in the practice of mental health therapy;
   f. physician assistant specializing in mental health care in accordance with Section 58-70a-501 of the Utah Code;
   g. clinical social worker;
   h. certified social worker or certified social worker intern;
   i. marriage and family therapist;
   j. associate marriage and family therapist;
   k. clinical mental health counselor; or
   l. associate clinical mental health counselor.

2. An individual exempted from licensure as a mental health therapist:
   a. in accordance with Section 58-1-307 of the Utah Code, a student engaged in activities constituting the practice of a regulated occupation or profession while in training in a recognized school approved by DOPL to the extent the activities are supervised by qualified faculty, staff, or designee and the activities are a defined part of the training program; or
   b. in accordance with Subsection 58-61-307(2)(h) of the Utah Code, an individual who was employed as a psychologist by a state, county or municipal agency or other political subdivision of the state prior to July 1, 1981, and who subsequently has maintained employment as a psychologist in the same state, county, or municipal agency or other political subdivision while engaged in the performance of his official duties for that agency or political subdivision.
B. Providers Qualified to Render Services

In accordance with the limitations set forth in Chapter 2, Scope of Services, rehabilitative services may be provided by:

1. an individual identified in A. of this chapter;

2. an individual working within the scope of their license in accordance with Title 58 of the Utah Code:
   a. licensed physician and surgeon or osteopathic physician regardless of specialty;
   b. licensed APRN regardless of specialty working within the scope of the Nurse Practice Act and competency;
   c. licensed APRN intern regardless of specialty working within the scope of the Nurse Practice Act and competency;
   d. other medical practitioner licensed under state law, most commonly licensed physician assistants regardless of specialty when practicing within the physician assistant’s skills and scope of competence;
   e. substance use disorder counselor licensed as an advanced substance use disorder counselor (ASUDC), certified advanced substance use disorder counselor (CASUDC), certified advanced substance use disorder counselor intern (CASUDC-I), substance use disorder counselor (SUDC), certified substance use disorder counselor (CSUDC), or certified substance use disorder counselor intern (CSUDC-I);
   f. licensed social service worker;
   g. licensed registered nurse; or
   h. licensed practical nurse;

3. an individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law;

4. registered nursing student, who is exempted from licensure in accordance with Section 58-1-307 of the Utah Code, engaged in activities constituting the practice of a regulated occupation or profession while in training in a recognized school approved by DOPL to the extent the activities are supervised by qualified faculty, staff, or designee and the activities are a defined part of the training program;

5. an individual enrolled in a qualified substance use disorder education program, who is exempted from licensure in accordance with Section 58-1-307 of the Utah Code, engaged in activities constituting the practice of a regulated occupation or profession while in training in a recognized school approved by DOPL to the extent the activities are supervised by qualified faculty, staff, or designee and the activities are a defined part of the training program;

6. other trained individual; or
7. peer support specialist who has been certified as a peer support specialist under rules promulgated by the Utah Department of Human Services.

C. Training Requirements for Other Trained Individuals

Other trained individuals may provide psychosocial rehabilitative services (see Chapter 2-11) and for Prepaid Mental Health Plans and UMIC Plans, the services included in Chapter 3.

These individuals must receive training in order to be a qualified provider. The hiring body must ensure the following minimum training requirements are met:

1. Individuals shall receive training on all administrative policies and procedures of the agency, and the program as applicable, including:
   - Fraud, waste or abuse detection and reporting;
   - HIPAA and confidentiality/privacy policy and procedures;
   - Emergency/crisis procedures; and
   - Other relevant administrative-level subjects.

2. Individuals shall also receive information and training in areas including:
   - Philosophy, objectives, and purpose of the service(s) the individual will be delivering;
   - Medicaid definition of the service(s) the individual will be delivering;
   - Specific job duties;
   - Treatment plans and development of treatment goals;
   - Role and use of clinical supervision of the other trained individual;
   - Population(s) served and the functional impacts of diagnoses that result in the need for the service;
   - Healthy interactions with patients to help them obtain goals;
   - Management of difficult behaviors;
   - Medications and their role in treatment;
   - Any formal programming materials used in the delivery of the service (the individual shall understand their use and receive training on them as required); and
   - Other relevant subjects as determined by the agency.

3. The hiring body shall maintain documentation of training including dates of training, agendas and training/educational materials used.
4. The supervising provider must ensure individuals complete all training within 60 calendar days of the hiring date, or for existing providers within 60 calendar days from the date of enrollment as a Medicaid provider.

1 - 6 Evaluation

In accordance with state law, individuals identified in Chapter 1–5, A. are qualified to conduct an evaluation (psychiatric diagnostic evaluation). Evaluations are performed for the purpose of assessing and determining diagnoses, and as applicable, identifying the need for behavioral health services. (See Chapter 2-2, Psychiatric Diagnostic Evaluation.)

When evaluations performed in accordance with Chapter 2-2, Psychiatric Diagnostic Evaluation, may be used to qualify an individual to receive Medicaid-covered autism spectrum disorder (ASD)-related services, additional provider requirements apply. For information on these requirements and on ASD-related services, refer to the Utah Medicaid Provider Manual for Autism Spectrum Disorder Related Services for EPSDT Eligible Individuals.

For information and requirements regarding evaluations for individuals with a condition requiring chronic pain management services, refer to the Utah Medicaid Provider Manual for Physician Services, Chapter 2, Covered Services. For evaluations required prior to certain surgical procedures, refer to Chapter 1-3, Medicaid Behavioral Health Service Delivery System, Evaluations Not Covered by the PMHP, in this manual, and to the Utah Medicaid Provider Manual for Physician Services, Chapter 2, Covered Services.

1 - 7 Treatment Plan

A. If based on an evaluation it is determined that behavioral health services are medically necessary, an individual identified in Chapter, A. is responsible for the development of a treatment plan.

B. The treatment plan is a written, individualized patient-centered plan that contains measurable treatment goals related to problems identified in the psychiatric diagnostic evaluation. The development of the treatment plan should be a collaborative effort with the patient.

C. If the treatment plan includes psychosocial rehabilitative services as a treatment method, there must be measurable goals specific to each issue being addressed with this treatment method.

D. The treatment plan must include the following:

1. measurable treatment goals including the date each treatment goal is added to the treatment plan;
2. the treatment regimen—the specific treatment methods (as contained in Chapter 1-4 and Chapter 2) that will be used to meet the measurable treatment goals;
3. a projected schedule for service delivery, including the expected frequency and duration of each treatment method;
4. the licensure or credentials of the individuals who will furnish the prescribed services; and
5. the signature and licensure or credentials of the individual defined in Chapter 1-5, A., who is responsible for the treatment plan.
E. An individual identified in Chapter 1-5, A. is responsible to conduct reassessments/treatment plan reviews with the patient as clinically indicated to ensure the patient’s treatment plan is current and accurately reflects the patient’s rehabilitative goals and needed behavioral health services.

1 - 8 Documentation

A. The provider must develop and maintain sufficient written documentation for each service or session to support the procedure and the time reported. See Chapter 2, Scope of Services, for documentation requirements specific to each service.

B. As specified in Chapter 2, documentation of the start and stop time of the service is required.

C. To ensure accurate documentation and high quality of care, services should be documented at the time of service.

D. The clinical record must be maintained on file in accordance with any federal or state law or state administrative rule, and made available for state or federal review, upon request.

1 - 9 Collateral Services

For psychotherapy with patient and psychotherapy with evaluation and management (E/M services) the CPT Manual requires that the patient be present for all or a majority of the service. For psychotherapy for crisis, the CPT Manual requires that the patient be present for all or some of the service. See Psychiatry section of the CPT Manual, and the ‘Limits’ sections of Chapters 2-5, 2-6 and 2-7.

Other services can involve the participation of others but are provided for the direct benefit of the patient. The service must actively involve the patient in the sense of being tailored to the patient’s individual needs. There may be times when, based on clinical judgment, the patient is not present during the delivery of the service, but remains the focus of the service.

The progress note must specify that the service was a collateral service and document how the identified patient was the focus of the session. Other documentation requirements under the ‘Record’ section of the applicable service also apply.

1 - 10 Billings

A range of dates should not be reported on a single line of a claim if the dates overlap months e.g., 4/1 through 5/15). Each month’s services should be reported separately to ensure proper adjudication of the claim.

For dates of service prior to April 1, 2022, when services are provided by telemedicine, providers must specify place of service as ‘02’ in the place of service field on the claim. For dates of service on or after April 1, 2022, providers must specify the place of service as follows: ‘02’ (Telehealth Provided Other than in Patient’s Home) ‘10’ (Telehealth Provided in Patient’s Home)

When providers listed in Chapter 1-5 are not qualified to practice independently, third party payers may require that behavioral health services they provide be billed in the name and NPI of their licensed supervisor. This is also an allowed practice when reporting services to Medicaid.
1 - 11 Centers for Medicare and Medicaid Services (CMS) National Correct Coding Initiative (NCCI)

The Centers for Medicare and Medicaid Services has implemented a correct coding initiative that includes two editing modules: the Procedure-to-Procedure (PTP) module and the Medically Unlikely Edits (MUE) module.

**Procedure-to-Procedure (PTP) Editing**

This editing applies when two services are provided by the same servicing provider on the same day. This module contains a list of procedure code combinations where generally the second service is considered incident to the first service in the procedure code combination. Unless otherwise specified, the provider may not receive separate reimbursement for the second service. When the second service in the code combination cannot be reimbursed separately, the two procedure codes are followed by a ‘0’ in the third column.

For some procedure code combinations, NCCI will allow reimbursement of the second procedure in the combination if the two services are actually separate and distinct services. When CMS allows reimbursement for both procedure codes in the combination, the two procedure codes are followed by a ‘1’ in the third column. In these instances, a provider must use a modifier on the claim to indicate the two services provided were separate and distinct.

When NCCI also allows the second procedure in the procedure combination to be reimbursed, providers must include the ‘59’ modifier on the claim in order to obtain reimbursement for the second service. Please refer to CPT manual for information on the 59 modifier.

**Medically Unlikely Edits**

The MUE module contains units-of-service edits. For specified procedure codes, NCCI has set a limit on the number of units of service that Medicaid may reimburse.

**NCCI Editing Updates**

CMS may update these two modules quarterly. To review the PTP and MUE modules, providers may go to the CMS website at: [http://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/Index.html](http://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/Index.html). For information on procedure-to-procedure editing, select the NCCI Coding Edits link, then under Related Links, select the Physician CCI Edits link for the effective quarter. For information on medically unlikely edits, select the Medically Unlikely Edits link, and then under Related Links, select the Practitioner Services MUE Table link for the effective quarter. Follow the prompts to access the files.

For information on quarterly additions, deletions and revisions to these modules, select the Quarterly NCCI and MUE Version Update Changes link for the effective quarter. For procedure-to-procedure editing updates, under Related Links, select the Quarterly Additions, Deletions, and Modifier Indicator Changes to NCCI Edits for Physicians/Practitioners link for the effective quarter. For medically unlikely editing updates, under Related Links, select the Quarterly Additions, Deletions, and Revisions to Published MUEs for Practitioner Services, for the effective quarter. Since CMS can update the PTP and MUE modules quarterly, providers are responsible to be familiar with the edits in these modules.
2 SCOPE OF SERVICES

Behavioral health services are covered benefits when the services are medically necessary services. Behavioral health services include psychiatric diagnostic evaluation, mental health assessment by a non-mental health therapist, psychological testing, psychotherapy with patient, family psychotherapy with patient present and family psychotherapy without patient present, group psychotherapy, multiple family group psychotherapy, psychotherapy for crisis, psychotherapy with evaluation and management (E/M) services, evaluation and management (E/M) services (i.e., pharmacologic management), therapeutic behavioral services, psychosocial rehabilitative services, peer support services, SUD residential treatment, assertive community treatment (ACT) and assertive community outreach treatment (ACOT), mobile crisis outreach teams (MCOT), clinically managed residential withdrawal management, mental health residential treatment, and behavioral health receiving centers. For treatment of SUDs, these services cover the American Society of Addiction Medicine (ASAM) levels of care 1.0, 2.1, 2.5, 3.1, 3.3, 3.5 and 3.7.

2 - 1 General Limitations

1. Rehabilitative services do not include:

   a. Services provided to inmates of public institutions;

   b. Services provided to residents of IMDs, except as allowed for in Utah’s 1115 Demonstration Waiver which allows payment for SUD residential treatment in licensed SUD residential treatment programs with 17 or more beds and for mental health residential treatment in licensed mental health residential treatment programs with 17 or more beds;

   c. Habilitation Services;

   d. Educational, vocational and job training services;

   e. Recreational and social activities;

   f. Room and board; and

   g. Services where the therapist or others during the session use coercive techniques (e.g., coercive physical restraints, including interference with body functions such as vision, breathing and movement, or noxious stimulation) to evoke an emotional response in the child such as rage or to cause the child to undergo a rebirth experience. Coercive techniques are sometimes also referred to as holding therapy, rage therapy, rage reduction therapy or rebirthing therapy. This also includes services wherein the therapist instructs and directs parents or others in the use of coercive techniques that are to be used with the child in the home or other setting outside the therapy session.

2. Service Coverage and Reimbursement Limitations

   Information on Utah Medicaid service coverage and reimbursement limitations is available in Utah Medicaid’s web-based lookup tool entitled ‘Coverage & Reimbursement Lookup Tool’, located at: http://health.utah.gov/stplan/lookup/CoverageLookup.php. The Coverage & Reimbursement Lookup Tool contains up-to-date information on coverage, limits, prior authorization requirements, etc. The tool also includes a special notes section that includes any additional information regarding the service, including any manual review requirements associated with the service. This tool allows providers to search for coverage and reimbursement information by HCPCS/Current Procedural Terminology.
(CPT) procedure code, date of service and provider type. The ‘Limits’ sections in Chapter 2 in this manual will address other types of limits and clarifications related to the services.

See Chapter 10 of the Utah Medicaid Provider Manual, Section I: General Information for information on prior authorization. Also see the Coverage & Reimbursement Lookup Tool located at: http://health.utah.gov/stplan/lookup/CoverageLookup.php for information on prior authorization for these procedure codes.

2 - 2 Psychiatric Diagnostic Evaluation

Psychiatric diagnostic evaluation means a face-to-face evaluation for the purpose of assessing and determining diagnoses, and as applicable identifying the need for behavioral health services. The evaluation is an integrated biopsychosocial assessment, including history, mental status, and recommendations, with interpretation and report. The evaluation may include communication with family or other sources and review and ordering of diagnostic studies. In certain circumstances one or more other informants (family members, guardians or significant others) may be seen in lieu of the patient.

Psychiatric diagnostic evaluation with medical services also includes medical assessment and other physical examination elements as indicated and may be performed only by qualified medical providers specified in the ‘Who’ section of this chapter below.

In accordance with the CPT manual, codes 90791 (psychiatric diagnostic evaluation) and 90792 (psychiatric diagnostic evaluation with medical services) are used for the diagnostic assessment(s) or reassessment(s), if required.

Because ongoing assessment and adjustment of psychotherapeutic interventions are part of psychotherapy, reassessments including treatment plan reviews occurring in psychotherapy session may be coded as such. (See definition of psychotherapy and the ‘Record’ section of Chapter 2-5, Psychotherapy.

If based on the evaluation it is determined behavioral health services are medically necessary, an individual qualified to perform this service is responsible for the development of an individualized treatment plan. An individual qualified to perform this service also is responsible to conduct reassessments/treatment plan reviews with the patient as clinically indicated to ensure the patient’s treatment plan is current and accurately reflects the patient’s rehabilitative goals and needed behavioral health services. (See Chapter 1-7, Treatment Plans.)

See Chapter 2-6, Psychotherapy for Crisis, for information on reporting urgent assessments of a crisis state as defined under Psychotherapy for Crisis.

Who:

1. Psychiatric diagnostic evaluation may be performed by a licensed mental health therapist or an individual exempted from licensure as a mental health therapist. (See Chapter 1-5, B. 1.)

2. Psychiatric diagnostic evaluation with medical services may be performed only by:
   a. licensed physician and surgeon or osteopathic physician engaged in the practice of mental health therapy;
   b. licensed advanced practice registered nurse (APRN) specializing in psychiatric mental health nursing;
c. licensed APRN intern specializing in psychiatric mental health nursing; or

d. licensed physician assistant specializing in mental health care in accordance with Section 58-70a-501 of the Utah Code.

When this service is performed to determine the need for medication prescription only, it also may be performed by:

e. licensed physician and surgeon or osteopathic physician regardless of specialty;

f. licensed APRN regardless of specialty working within the scope of the Nurse Practice Act and competency;

g. licensed APRN intern regardless of specialty working within the scope of the Nurse Practice Act and competency; or

h. other medical practitioner licensed under state law, most commonly licensed physician assistants regardless of specialty when practicing within the physician assistant’s skills and scope of competence.

Limits:

1. According to the Psychiatry section of the CPT manual, the following limits apply:

   a. Psychiatric diagnostic evaluation with medical services may not be reported on the same day as an E/M service when performed by the same servicing provider; and

   b. Codes 90791, 90792 are used for the diagnostic assessment(s) or reassessment(s), if required, and do not include psychotherapeutic services. Psychotherapy services, including psychotherapy for crisis, may not be reported on the same day (when performed by the same servicing provider). See the CMS NCCI PTP Module for additional information on this limitation.

2. Evaluations requested by a court of the Utah Department of Human Services, Division of Child and Family Services, solely for the purpose of determining if a parent is able to parent and should therefore be granted custody or visitation rights, or whether the child should be in some other custodial arrangement are not reportable to Medicaid under any service/procedure code.

3. Additional provider requirements apply when evaluations may be used to qualify a Medicaid member to receive Medicaid-covered autism spectrum disorder (ASD)-related services. For information on these requirements and on ASD-related services, refer to the Utah Medicaid Provider Manual for Autism Spectrum Disorder Related Services for EPSDT Eligible Individuals.

4. For information and requirements regarding evaluations for Medicaid members with a condition requiring chronic pain management services, and evaluations required prior to certain surgical procedures, see Chapter 1-6, Evaluation.

Procedure Codes and Unit of Service:

90791 - Psychiatric Diagnostic Evaluation - per 15 minutes

90792 - Psychiatric Diagnostic Evaluation with Medical Services, - per 15 minutes

The following time rules apply for converting the duration of the service to the specified number of units:
Less than 8 minutes equals 0 units;
8 minutes through 22 minutes of service equals 1 unit;
23 minutes through 37 minutes of service equals 2 units;
38 minutes through 52 minutes of service equals 3 units;
53 minutes through 67 minutes of service equals 4 units;
68 minutes through 82 minutes of service equals 5 units;
83 minutes through 97 minutes of service equals 6 units;
98 minutes through 112 minutes of service equals 7 units; and
113 minutes through 127 minutes of service equals 8 units, etc.

+90785 – Interactive Complexity Add-on Code - per service

In accordance with the CPT manual, CPT code 90785 is an add-on code for interactive complexity. It may be reported in conjunction with 90791 and 90792. There is no additional reimbursement for this add-on code.

Record:

Documentation must include:

1. date, start and stop time, and duration of the service;
2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);
3. specific service rendered (i.e., psychiatric diagnostic evaluation);
4. report of findings from the biopsychosocial assessment that includes:
   a. history, symptomatology and mental status (mental status report may be based on formal assessment or on observations from the evaluation process); and
   b. disposition, including diagnosis(es) as appropriate, and recommendations. If the Medicaid member does not need behavioral health services, this must be documented in the assessment (along with any other recommended services as appropriate). If behavioral health services are medically necessary, then a provider qualified to perform this service is responsible for the development of a treatment plan and the prescription of the behavioral health services that are medically necessary for the Medicaid member. (See treatment plan requirements in Chapter 1-7); or
5. report of findings from a reassessment that includes:
   a. the applicable components in 4.a. and/or b.; and/or
   b. For reviews of the patient’s treatment plan documentation will include an update of the patient’s progress toward treatment goals contained in the treatment plan, the appropriateness of the services being prescribed, and the medical necessity of continued behavioral health services; and
6. signature and licensure or credentials of the individual who rendered the service.

2 - 3 Mental Health Assessment

Mental Health Assessment means providers listed below, participating as part of a multi-disciplinary team, assisting in the psychiatric diagnostic evaluation process defined in Chapter 2-2, Psychiatric Diagnostic Evaluation. Through face-to-face contacts, the provider assists in the psychiatric diagnostic evaluation process by gathering psychosocial information including information on the individual’s strengths, weaknesses and needs, and historical, social, functional, psychiatric, or other information and assisting the individual to identify treatment goals. The provider assists in the psychiatric diagnostic reassessment/treatment plan review process specified in Chapter 2-2 by gathering updated psychosocial information and updated information on treatment goals and assisting the patient to identify additional treatment goals. Information also may be collected through in-person or telephonic interviews with family/guardians or other sources as necessary. The information obtained is provided to the individual identified in Chapter 2-2 who will perform the assessment, reassessment or treatment plan review.

Who:

The following individuals when under the supervision of a licensed mental health therapist identified in Chapter 1-5, A. 1 qualified to provide supervision in accordance with state law:

1. licensed social service worker;
2. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law;
3. licensed registered nurse;
4. substance use disorder counselor licensed as an ASUDC, CASUDC, CASUDC-I, SUDC, CSUDC, or CSUDC-I;
5. licensed practical nurse;
6. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision.
7. individual enrolled in a qualified substance use disorder education program who is exempted from licensure in accordance with state law, and under DOPL-required supervision.
8. Although these individuals may perform this service and participate as part of a multi-disciplinary team, under state law, qualified providers identified in Chapter 2-2 are the only providers who may diagnose a behavioral health disorder and prescribe behavioral health services determined to be medically necessary to treat the individual’s behavioral health disorder(s).

Limits:

1. This service is meant to accompany the psychiatric diagnostic evaluation (see Chapter 2-2). If a psychiatric diagnostic evaluation (assessment or reassessment) is not conducted after this service is performed, this service may be reported if all of the documentation requirements in the ‘Record’ section are met and the reason for non-completion of the psychiatric diagnostic evaluation is documented.
2. If the provider conducting the psychiatric diagnostic evaluation defined in Chapter 2-2 obtains all of
the psychosocial information directly from the Medicaid member, only that service is reported. The
provider does not also report this service.

Procedure Code and Unit of Service:

H0031 – Mental Health Assessment by a Non-Mental Health Therapist – per 15 minutes

The following time rules apply for converting the duration of the service to the specified number of units:
Less than 8 minutes equals 0 units;
8 minutes through 22 minutes of service equals 1 unit;
23 minutes through 37 minutes of service equals 2 units;
38 minutes through 52 minutes of service equals 3 units;
53 minutes through 67 minutes of service equals 4 units;
68 minutes through 82 minutes of service equals 5 units;
83 minutes through 97 minutes of service equals 6 units;
98 minutes through 112 minutes of service equals 7 units; and
113 minutes through 127 minutes of service equals 8 units, etc.

Record:

Documentation must include:

1. date, start and stop time, and duration of the service;
2. setting in which the service was rendered (when via telehealth, the provider setting and notation that
   the service was provided via telehealth);
3. specific service rendered (i.e., assessment);
4. information gathered; and
5. signature and licensure or credentials of the individual who rendered the service.

2 - 4 Psychological Testing

Psychological testing means evaluation to determine the existence, nature and extent of a mental illness or
other disorder using psychological tests appropriate to the individual’s needs, with interpretation and report.

Who:

1. licensed psychologist qualified to engage in the practice of mental health therapy;
2. certified psychology resident qualifying to engage in the practice of mental health therapy under the
   supervision of a licensed psychologist;
3. in accordance with Subsection 58-61-307(2)(a) and (b), licensed physician and surgeon or osteopathic physician, or APRN specializing in psychiatric mental health nursing, exempted from licensure as a psychologist;

4. individual exempted from licensure in accordance with Subsection 58-61-307(2)(h) of the Utah Code who was employed as a psychologist by a state, county or municipal agency or other political subdivision of the state prior to July 1, 1981, and who subsequently has maintained employment as a psychologist in the same state, county, or municipal agency or other political subdivision while engaged in the performance of his official duties for that agency or political subdivision; or

5. student who is a licensed psychologist candidate due to enrollment in a predoctoral education/degree program exempted from licensure in accordance with state law and under DOPL-required supervision; and

6. technician for specific codes.

Limits:

NCCI MUE and PTP limits would apply. See Chapter 1-11, Centers for Medicare and Medicaid Services (CMS) National Correct Coding Initiative (NCCI).

Procedure Codes and Unit of Service:

**Assessment of Aphasia and Cognitive Performance Testing**

96105 - Assessment of Aphasia  includes assessment of expressive and receptive speech and language function, language comprehension, speech production ability, reading spelling, writing, e.g., by Boston Diagnostic Aphasia Examination, with interpretation and report, per hour.

96125 - Standardized Cognitive Performance Testing  (e.g., Ross Information Processing Assessment) per hour of a qualified health care professional’s time, both face-to-face time administering tests to the patient and time interpreting these test results and preparing the report, per hour.

**Developmental/Behavioral Screening and Testing**

96110 - Developmental Screening  – Developmental screening (e.g., developmental milestone survey, speech and language delay screen), with scoring and documentation, per standardized instrument

96112 - Developmental Test Administration  – Developmental test administration (including assessment of fine and/or gross motor, language, cognitive level, social, memory, and/or executive functions by standardized developmental instruments when performed), by physician or other qualified health care professional, with interpretation and report, first hour

+96113 - Each additional 30 minutes (List separately in addition to code for primary procedure, 96112)

**Psychological/Neuropsychological Testing**

**Neurobehavioral Status Examination**

96116 - Neurobehavioral Status Examination  - Clinical assessment of thinking, reasoning and judgement, e.g., acquired knowledge, attention, language, memory, planning and problem solving, and visual spatial abilities), by physician or other qualified health care professional, both face-to-face time with the patient and time interpreting test results and preparing the report, first hour
+96121 - Each additional hour (List separately in addition to code for primary procedure, 96116)

**Testing Evaluation Services**

**Psychological Testing**

96130 - Psychological Testing Evaluation - services by physician or other qualified health care professional, including integration of data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report and interactive feedback to the patient, family member(s) or caregiver(s), when performed, first hour

+96131 - Each Additional Hour (List separately in addition to code for primary procedure, 96130)

**Neuropsychological Testing**

96132 - Neuropsychological testing evaluation - services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report and interactive feedback to the patient, family member(s) or caregiver(s), when performed, first hour

+96133 - Each additional hour (List separately in addition to code for primary procedure, 96132)

**Testing Administration and Scoring**

96136 - Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method, first 30 minutes

+96137 - Each additional 30 minutes (List separately in addition to code for primary procedure, 96136)

96138 - Psychological or neuropsychological test administration and scoring by **technician**, two or more tests, any method; first 30 minutes

+96139 - Each additional 30 minutes (List separately in addition to code for primary procedure, 96138)

**Automated Testing and Result**

96146 - Psychological or neuropsychological test administration, with single automated instrument via electronic platform, with automated result only.

**CPT Time Rules**

The time reported under 96116, 96121, 96130, 96131, 96132, 96133, and 96125 also includes the face-to-face time with the patient.

In order to report the per hour codes (96105, 96125, 96112, 96116, 96121, 96130, 96131, 96132, and 96133), a minimum of 31 minutes of service must be provided.

In order to report the 30-minute codes (96113, 961136, 96137, 96138, and 96139) a minimum of 16 minutes of service must be provided.

Report the total time at the completion of the entire episode of evaluation.

**Record:**
Documentation must include:

1. date(s), start and stop time, and duration of testing;

2. setting in which the testing was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., psychological testing);

4. written report which includes:
   a. tests administered and test scores;
   b. interpretation of test results; or
   c. for the Developmental Screening, scoring and documentation per standardized instrument;
   d. diagnoses; and
   e. as applicable to the procedure performed, brief history, current functioning, prognosis and specific treatment recommendations for behavioral health services or other recommended services; and

5. signature and licensure or credentials of the individual who rendered the service.

2 - 5 Psychotherapy

**Psychotherapy** means the treatment for mental illness and behavioral disturbances in which the clinician through definitive therapeutic communication, attempts to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior, and encourage personality growth and development so that the patient may be restored to his/her best possible functional level. Services are based on measurable treatment goals identified in the treatment plan.

Psychotherapy codes 90832-90838 include ongoing assessment and adjustment of psychotherapeutic interventions, and may include involvement of informants in the treatment process.

Psychotherapy includes psychotherapy with patient, family psychotherapy with patient present, family psychotherapy without patient present, group psychotherapy and multiple-family group psychotherapy.

**Psychotherapy with patient** means in accordance with the definition of psychotherapy face-to-face interventions with the patient.

**Family psychotherapy with patient present** means in accordance with the definition of psychotherapy face-to-face interventions with family members and the identified patient with the goal of treating the patient’s condition and improving the interaction between the patient and family members so that the patient may be restored to their best possible functional level.

**Family psychotherapy without patient present** means in accordance with the definition of psychotherapy face-to-face interventions with family members without the identified patient present with the goal of treating the patient’s condition and improving the interaction between the patient and family members so that the patient may be restored to their best possible functional level.
Group psychotherapy means in accordance with the definition of psychotherapy face-to-face interventions with two or more patients or two or more families in a group setting so that the patients may be restored to their best possible functional level.

Who:

1. All psychotherapy may be performed by a licensed mental health therapist or an individual exempted from licensure as a mental health therapist. (See Chapter 1-5, B. 1.)

2. In accordance with Subsection 58-60-502(10) of the Utah Code, a substance use disorder counselor identified in Chapter 1-5, B. 2.e, or an individual enrolled in a qualified substance use disorder counseling education program exempted from licensure in accordance with state law, may co-facilitate group psychotherapy with a licensed mental health therapist identified in paragraph A.1 or A.2.b of Chapter 1-5.

Psychotherapy with patient

Limits:

In accordance with the CPT manual, the following limits apply:

1. Psychotherapy times are for face-to-face services with the patient and may include informant(s). The patient must be present for all or a majority of the service.

2. If family psychotherapy is prescribed as a service, use the procedure codes for family psychotherapy with patient present or family psychotherapy without patient present. See section below on procedure codes for family psychotherapy.

Procedure Codes and Unit of Service:

- 90832 – Psychotherapy, 30 minutes, with patient - per encounter
- 90834 – Psychotherapy, 45 minutes, with patient - per encounter
- 90837 – Psychotherapy, 60 minutes, with patient - per encounter

The following time rules apply for converting the duration of the service to the appropriate procedure code:

- 90832 - 16 through 37 minutes;
- 90834 - 38 through 52 minutes; and
- 90837 - 53 minutes through 89 minutes.

Prolonged Services Add-on Codes:

In accordance with the CPT manual, for psychotherapy services not performed with an E/M service of 90 minutes or longer face-to-face with the patient, providers may use the appropriate prolonged services add-on code(s) specified below with psychotherapy code 90837 depending on the duration and place of the psychotherapy service.

+99354 – first hour (60 additional minutes with patient); and
+99355 – each additional 30 minutes with patient (beyond the 60 additional minutes that are coded with 99354)

In accordance with the CPT manual coding requirements for prolonged services, if the psychotherapy is provided in a nursing facility or other setting where the Nursing Facility Services range of E/M services codes would be used for E/M services (E/M codes 99304-99310), then prolonged services add-on codes 99356/99357 are used for the additional psychotherapy time. In the event psychotherapy is provided to a patient in an inpatient setting, these prolonged services codes would also be used.

+99356 – first hour (60 additional minutes with the patient); and

+99357 – each additional 30 minutes with patient (beyond the 60 additional minutes that are coded with 99356)

In accordance with CPT requirements, prolonged service of less than 30 minutes total duration on a given date is not separately reported. Prolonged service of less than 15 minutes beyond the first hour or less than 15 minutes beyond the final 30 minutes is not reported separately.

The following time rules apply for converting the duration of the service to the appropriate prolonged services add-on procedure code(s):

Less than 30 minutes equals 0 units;

30 minutes through 74 minutes (30 minutes through 1 hour 14 minutes) equals 1 unit of 99354 or 99356;

75 minutes through 104 minutes (1 hour 15 minutes through 1 hour 44 minutes) equals 1 unit of 99354 or 99356 plus 1 unit of 99355 or 99357; and

105 minutes through 134 minutes (1 hour 45 minutes through 2 hours 14 minutes) equals 1 unit of 99354 or 99356 plus 2 units of 99355 or 99357, etc.

+90785 – Interactive Complexity Add-on Code - per service

In accordance with the CPT manual, CPT code 90785 is an add-on code for interactive complexity. It may be reported in conjunction with 90832, 90834 and 90837. There is no additional reimbursement for this add-on code.

Record:

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., psychotherapy with patient and/or with family member);

4. clinical note that documents:
   a. individual(s) present in the session;
b. in accordance with the definition of psychotherapy, the focus of the psychotherapy session (i.e., alleviation of the emotional disturbances, reversal or change of maladaptive patterns of behavior, encouragement of personality growth and development); and

c. treatment goal(s) addressed in the session and the patient’s progress toward the treatment goal(s), or if there was no reportable progress, documentation of reasons or barriers; or

5. If the focus of a psychotherapy visit with patient and or family member is a crisis or a reassessment or review of the patient’s overall treatment plan, and 4.b. and/or 4.c. are not applicable, then the clinical note must summarize the crisis visit, including findings, mental status and disposition; or must summarize the reassessment findings and/or the review of the treatment plan. Documentation for reviews of the treatment plan will include an update of the patient’s progress toward treatment goals contained in the treatment plan, the appropriateness of the services being prescribed, and the medical necessity of continued behavioral health services; and

6. signature and licensure or credentials of the individual who rendered the service.

**Family psychotherapy with patient present and family psychotherapy without patient present**

**Procedure Codes and Unit of Service:**

**90846 - Family Psychotherapy - without patient present – per 15 minutes**

**90847 - Family Psychotherapy - with patient present – per 15 minutes**

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;

8 minutes through 22 minutes of service equals 1 unit;

23 minutes through 37 minutes of service equals 2 units;

38 minutes through 52 minutes of service equals 3 units;

53 minutes through 67 minutes of service equals 4 units;

68 minutes through 82 minutes of service equals 5 units;

83 minutes through 97 minutes of service equals 6 units;

98 minutes through 112 minutes of service equals 7 units; and

113 minutes through 127 minutes of service equals 8 units, etc.

**Record:**

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);
3. specific service rendered (i.e., family psychotherapy with patient present or family psychotherapy without patient present)

4. clinical note that documents:
   a. family members present in the session;
   b. in accordance with the definition of psychotherapy, the focus of the family psychotherapy session (i.e., alleviation of the emotional disturbances, reversal or change of maladaptive patterns of behavior, encouragement of personality growth and development); and
   c. treatment goal(s) addressed in the session and progress toward the treatment goal(s), or if there was no reportable progress, documentation of reasons or barriers; or

5. If the focus of a family psychotherapy visit is a crisis or a reassessment or review of the overall treatment plan, and 4.b. and/or 4.c. are not applicable, then the clinical note must summarize the crisis visit, including findings, mental status and disposition; or must summarize the reassessment findings and/or the review of the treatment plan. Documentation for reviews of the treatment plan will include an update of the patient’s progress toward treatment goals contained in the treatment plan, the appropriateness of the services being prescribed, and the medical necessity of continued behavioral health services; and

6. signature and licensure or credentials of the individual who rendered the service.

**Group psychotherapy and multiple-family group psychotherapy**

**Limits:**

1. Psychotherapy groups (90853) are limited to twelve patients in attendance unless a co-provider is present; then psychotherapy groups may not exceed 16 patients in attendance.

2. Multiple-family psychotherapy groups (90849) are limited to twelve families in attendance unless there is a co-provider, then groups may have 13 to 16 families in attendance.

3. Co-providers must meet the provider qualifications outlined in the ‘Who’ section above.

**Procedure Codes and Unit of Service:**

**90849 - Multiple-Family Group Psychotherapy - per 15 minutes per Medicaid patient**

**90853 - Group Psychotherapy - per 15 minutes per Medicaid patient**

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;

8 minutes through 22 minutes of service equals 1 unit;

23 minutes through 37 minutes of service equals 2 units;

38 minutes through 52 minutes of service equals 3 units;

53 minutes through 67 minutes of service equals 4 units;

68 minutes through 82 minutes of service equals 5 units;
83 minutes through 97 minutes of service equals 6 units;

98 minutes through 112 minutes of service equals 7 units; and

113 minutes through 127 minutes of service equals 8 units, etc.

**+90785 – Interactive Complexity Add-on Code - per service**

In accordance with the CPT manual, CPT code 90785 is an add-on code for interactive complexity. It may be reported in conjunction with 90853. There is no additional reimbursement for this add-on code.

**Record:**

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., group psychotherapy or multiple-family group psychotherapy);

4. per session clinical note that documents:
   a. the focus of the group psychotherapy session (i.e., alleviation of the emotional disturbances, reversal or change of maladaptive patterns of behavior, encouragement of personality growth and development); and
   b. treatment goal(s) addressed in the session and progress toward the treatment goal(s), or if there was no reportable progress, documentation of reasons or barriers; or

5. If the focus of the group psychotherapy visit is a crisis or a reassessment/review of the patient’s overall treatment plan and 4.b. and/or 4.c. are not applicable, then the clinical note must summarize the crisis visit, including findings, mental status and disposition; or must summarize the reassessment findings and/or the review of the treatment plan. Documentation for reviews of the treatment plan will include an update of the patient’s progress toward treatment goals contained in the treatment plan, the appropriateness of the services being prescribed, and the medical necessity of continued behavioral health services; and

6. signature and licensure or credentials of the individual who rendered the service. If a co-provider is present for the group psychotherapy session, the note must contain the co-provider’s name and licensure or credentials.

**2 - 6 Psychotherapy for Crisis**

**Psychotherapy for crisis** means a face-to-face service with the patient and/or family and includes an urgent assessment and history of a crisis state and disposition. The treatment includes psychotherapy, mobilization of resources to defuse the crisis and restore safety, and implementation of psychotherapeutic interventions to minimize the potential for psychological trauma. The presenting problem is typically life threatening or complex and requires immediate attention to an individual in high distress. Providers may use CPT coding for this service if the crisis and interventions qualify for this coding.
Licensed mental health therapist or an individual exempted from licensure as a mental health therapist. (See Chapter 1-5, B. 1.)

Limits:

In accordance with the CPT manual, the following limits apply:

1. Procedure codes for this service are used to report the total duration of time face-to-face with the patient and/or family spent by the provider, even if the time spent on that date is not continuous.

2. For any given period of time spent providing this service, the provider must devote his or her full attention to the patient and, therefore, cannot provide services to any other individual during the same time period. The patient must be present for all or some of the service.

3. This service cannot be reported in conjunction with procedure code 90791, 90792, psychotherapy codes 90832-90838 or other psychiatric services or 90785-90899. Under CMS’ NCCI, this means this service and these other services cannot both be reimbursed when provided on the same day by the same servicing provider.

4. If psychotherapy for crisis services on a given date total 30 minutes or less, the service is reported with psychotherapy code 90832, 30 minutes, with patient, or with add-on psychotherapy code 90833, 30 minutes, with patient when provided with evaluation and management (E/M) services. See Chapter 2-5 for information on psychotherapy procedure code 90832, and Chapter 2-7 for information on E/M add-on psychotherapy procedure code 90833.

Procedure Codes and Unit of Service:

90832 – Use for psychotherapy for crisis services of 30 minutes or less total duration on a given date even if the time spent on that date is not continuous, or 90833 when provided with E/M services. (See #4 of Limits above.)

90839 – Psychotherapy for crisis, first 60 minutes - per encounter

The following time rules apply for converting the total duration of the service to the appropriate procedure code:

90839 - 31 through 74 minutes total duration on a given date even if the time spent on that date is not continuous

Psychotherapy for Crisis Add-on Code: 90840 –

In accordance with the CPT manual, for psychotherapy for crisis, code 90840 is used to report additional block(s) of time, of up to 30 minutes each beyond the first 74 minutes, which is reported with 90839:

+90840 – each additional 30 minutes – per encounter

The following time rules apply for converting the total duration of the service to the psychotherapy for crisis add-on code:

+90840 –75 minutes through 104 minutes (1 hour 15 minutes through1 hour 44 minutes) equals 1 unit (in addition to the unit of 90839);
105 minutes through 134 minutes (1 hour 45 minutes through 2 hours 14 minutes) equals 2 units (in addition to the unit of 90839); and

135 minutes through 164 minutes (2 hours 15 minutes through 2 hours 44 minutes) equals 3 units (in addition to the unit of 90839), etc.

Record:
Documentation must include:

1. date, start and stop time, and duration of the service;
2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);
3. specific service rendered (i.e., psychotherapy for crisis);
4. clinical note that documents the crisis visit, including findings, mental status and disposition; and
5. signature and licensure or credentials of the individual who rendered the service.

2 - 7 Psychotherapy with Evaluation and Management (E/M) Services

Psychotherapy with E/M services means psychotherapy with the patient when performed with an E/M service on the same day by the same provider. (See Chapter 2-8 for information on E/M services.)

Psychotherapy add-on codes 90833, 90836, and 90838 include ongoing assessment and adjustment of psychotherapeutic interventions, and may include involvement of informants in the treatment process.

Who:

1. licensed physician and surgeon or osteopathic physician engaged in the practice of mental health therapy;
2. licensed APRN specializing in psychiatric mental health nursing;
3. licensed APRN intern specializing in psychiatric mental health nursing; or
4. licensed physician assistant specializing in mental health care in accordance with Section 58-70a-501 of the Utah Code.

Limits:

In accordance with the CPT manual, the two services must be significant and separately identifiable and may be separately identified as follows:

1. The type and level of E/M service is selected first based upon the key components of history, examination, and medical decision-making;

   Time associated with activities used to meet criteria for the E/M service is not included in the time used for reporting the psychotherapy service (i.e., time spent on history, examination and medical decision-making when used for the E/M service is not psychotherapy time). Time may not be used as the basis of E/M code selection and prolonged services may not be reported when psychotherapy with E/M (psychotherapy add-on codes 90833, 90836, 90838) are reported; and
2. A separate diagnosis is not required for the reporting of E/M and psychotherapy on the same date of service.

3. Psychotherapy times are for face-to-face services with the patient and may include informant(s). The patient must be present for all or a majority of the service.

Procedure Codes and Unit of Service:

In accordance with the CPT manual, psychotherapy performed with an E/M service is coded using the applicable psychotherapy add-on code specified below with the applicable E/M code (E/M codes are specified in Chapter 2-8). The psychotherapy add-on code must be on the same claim as the E/M service procedure code.

+90833 – Psychotherapy, 30 minutes, with patient when performed with an E/M service – per encounter

+90836 – Psychotherapy, 45 minutes, with patient when performed with an E/M service - per encounter

+90838 – Psychotherapy, 60 minutes, with patient when performed with an E/M service – per encounter

The following time rules apply for converting the duration of the service to the appropriate procedure code:

+90833 - 16 through 37 minutes;

+90836 - 38 through 52 minutes; and

+90838 - 53 minutes and longer

+90785 – Interactive Complexity Add-on Code- per service

In accordance with the CPT manual, CPT code 90785 is an add-on code for interactive complexity. It may be reported in conjunction with psychotherapy when performed with an E/M service (90833, 90836 and 90838). There is no additional reimbursement for this add-on code.

Record:

For the psychotherapy portion of the service, documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., psychotherapy with patient and/or with family member);

4. clinical note that documents:
   a. individual(s) present in the session;
b. in accordance with the definition of psychotherapy, the focus of the psychotherapy session (i.e., alleviation of the emotional disturbances, reversal or change of maladaptive patterns of behavior, encouragement of personality growth and development); and

c. treatment goal(s) addressed in the session and the patient’s progress toward the treatment goal(s), or if there was no reportable progress, documentation of reasons or barriers; or

5. If the focus of the psychotherapy is a crisis or a reassessment/review of the patient’s overall treatment plan and 4.b. and/or 4.c. are not applicable, then the clinical note must summarize the crisis visit, including findings, mental status and disposition; or must summarize the reassessment findings and/or the review of the treatment plan. Documentation for reviews of the treatment plan will include an update of the patient’s progress toward treatment goals contained in the treatment plan, the appropriateness of the services being prescribed, and the medical necessity of continued behavioral health services; and

6. signature and licensure or credentials of the individual who rendered the service.

Refer to Chapter 2-8 for documentation requirements for the E/M portion of the service.

2 - 8 Pharmacologic Management (Evaluation and Management (E/M) Services)

Pharmacologic management means reviewing and monitoring the patient’s prescribed medication(s) and medication regimen to manage a behavioral health condition. Reviewing and monitoring includes evaluation of dosage, effect the medication(s) is having on the patient’s symptoms, and side effects. Any of the following may also be included in the service: prescription of medications to treat the patient’s behavioral health condition, providing information (including directions for proper and safe usage of medications), and/or administering medications as applicable. The service can also address other health issues as applicable.

Who:

1. licensed physician and surgeon or osteopathic physician regardless of specialty;

2. licensed APRN regardless of specialty working within the scope of the Nurse Practice Act and competency;

3. licensed APRN intern regardless of specialty working within the scope of the Nurse Practice Act and competency;

4. licensed physician assistant specializing in mental health care in accordance with Section 58-70a-501 of the Utah Code; or

5. other medical practitioner licensed under state law, most commonly licensed physician assistants regardless of specialty when practicing within the physician assistant’s skills and scope of competence.

Limits:

1. Prescribers, as specified above, must directly provide all psychiatric pharmacologic management services (including any services that qualify for coding under E/M code 99211).

2. In the CPT manual, refer to the section, ‘Evaluation and Management (E/M) Services Guidelines’, and the ‘Time’ subsection for information on when time may be used to select an E/M code level and the activities that constitute total time.
Procedure Codes and Unit of Service:

This service is provided in accordance with the CPT coding for E/M services. (Please refer to the E/M services section of the CPT manual for complete information on E/M services.)

Use of CG Modifier with E/M Services codes

When reporting this pharmacologic management service, use the CG modifier with the E/M code. The CG modifier signifies that the service was a behavioral health pharmacologic management service as opposed to a medical E/M service.

It is important to use the CG modifier with the E/M code so that the applicable managed care edit (i.e., PMHP, UMIC Plan or HOME) will post to the claim in the event a claim is inadvertently submitted FFS for a member who is enrolled in managed care. If a claim is submitted FFS without the CG modifier, then the applicable managed care edit (i.e., ACO, UMIC Plan or HOME) will post to the claim, as the absence of the CG modifier signifies the E/M service was for medical purposes.

If a Medicaid member is enrolled in an ACO and a PMHP, and the provider is a primary care provider (i.e., not a behavioral health provider), the provider should bill the Medicaid member’s ACO even if the E/M visit addresses a medication prescribed for a behavioral health condition, as it is recognized that primary care providers can prescribe and manage these medications. Providers should consult the ACO(s) regarding prior authorization and billing requirements.

See Chapter 1-3, ‘Medicaid Behavioral Health Delivery System’ for information on managed care coverage.

Office or Other Outpatient Services E/M Codes -

The following codes are used to report E/M services provided in the office or in an outpatient or other ambulatory facility. A patient is considered an outpatient until inpatient admission to a health care facility occurs.

Established Patient Codes

99211 – per encounter - E/M of an established patient; usually the presenting problems are minimal.

99212 - per encounter - E/M of an established patient, which requires a medically appropriate history and/or examination and straightforward medical decision making. When using time for code selection, 10-19 minutes of total time is spent on the date of the encounter.

99213 – per encounter - E/M of an established patient, which requires a medically appropriate history and/or examination and low level of medical decision making. When using time for code selection, 20-29 minutes of total time is spent on the date of the encounter.

99214 – per encounter - E/M of an established patient, which requires a medically appropriate history and/or examination and moderate level of medical decision making. When using time for code selection, 30-39 minutes of total time is spent on the date of the encounter.

99215 – per encounter – E/M of an established patient, which requires a medically appropriate history and/or examination and high level of medical decision making. When using time for code selection, 40-54 minutes of total time is spent on the date of the encounter.
Subsequent Nursing Facility Care E/M Codes

The following codes are used to report E/M services to patients in nursing facilities (formerly called skilled nursing facilities [SNFs], intermediate care facilities [ICFs], or long-term care facilities [LTCFs]).

These codes should also be used to report evaluation and management services provided to a patient in a psychiatric residential center (a facility or a distinct part of a facility for psychiatric care, which provides 24-hour therapeutically planned and professionally staffed group living and learning environment).

Established Patient Codes

99307 – per encounter - Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least 2 of these 3 key components:

- A problem focused interval history;
- A problem focused examination;
- Straightforward medical decision making.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the patient is stable, recovering or improving. Typically, 10 minutes are spent at the bedside and on the patient’s facility floor or unit.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

99308 – per encounter- Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least 2 of these 3 key components:

- An expanded problem focused interval history;
- An expanded problem focused examination;
- Medical decision making of low complexity.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the patient is responding inadequately to therapy or has developed a minor complication. Typically, 15 minutes are spent at the bedside and on the patient’s facility floor or unit.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

99309 – per encounter - Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least 2 of these 3 key components:

- A detailed interval history;
- A detailed examination;
- Medical decision making of moderate complexity.
*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the patient has developed a significant complication or a significant new problem. Typically, 25 minutes are spent at the bedside and on the patient’s facility floor or unit.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

**99310 – per encounter** – Subsequent nursing facility care, per day, for the evaluation and management of a patient, which requires at least 2 of these 3 key components:

- A comprehensive interval history;
- A comprehensive examination;
- Medical decision making of high complexity.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

The patient may be unstable or may have developed a significant new problem requiring immediate physician attention. Typically, 35 minutes are spent at the bedside and on the patient’s facility floor or unit.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

**Home Services E/M Codes**

The following codes are used to report E/M services provided in a private residence.

**Established Patient Codes**

**99347 – per encounter** - E/M of an established patient, which requires at least 2 of these 3 key components:

- A problem focused interval history;
- A problem focused examination;
- Straightforward medical decision making.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the presenting problem(s) are self-limited or minor. Typically, 15 minutes are spent face-to-face with the patient and/or family.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

**99348 – per encounter** - E/M of an established patient, which requires at least 2 of these 3 key components:

- An expanded problem focused interval history;
- An expanded problem focused examination;
- Medical decision making of low complexity.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the presenting problem(s) are of low to moderate severity. Typically, 25 minutes are spent face-to-face with the patient and/or family.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

99349 – per encounter - E/M of an established patient, which requires at least 2 of these 3 key components:
- A detailed interval history;
- A detailed examination;
- Medical decision making of moderate complexity.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the presenting problem(s) are of moderate to high severity. Typically, 40 minutes are spent face-to-face with the patient and/or family.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

99350 – per encounter – E/M of an established patient, which requires at least 2 of these 3 key components:
- A comprehensive interval history;
- A comprehensive examination;
- Medical decision making of moderate to high complexity.

*Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problems and the patient’s and/or family’s needs.

Usually, the presenting problem(s) are of moderate to high severity. The patient may be unstable or may have developed a significant new problem requiring immediate physician attention. Typically, 60 minutes are spent face-to-face with the patient and/or family.

*Please refer to the definition of Counseling in the E/M section of the CPT manual.

**Prolonged Services Add-on Codes 99354-99357 and 99417:**

In accordance with the CPT manual, prolonged services add-on codes 99354-99357 may be reported in addition to the designated E/M codes at any level, except the E/M codes in the Office or Other Outpatient Services range (when prolonged services add-on code 99417 is to be used).
If the duration of the E/M service with the patient and/or family is longer than the typical time associated with an E/M code, then prolonged services add-on coding may apply.

For example, in accordance with rules for prolonged services add-on codes, if the E/M service qualifying for coding as 99350 is 90 minutes or longer, then the E/M code plus the applicable prolonged services add-on code(s) would be reported depending on the duration and the place of service. Refer to the time rules below and to the Prolonged Services section of the CPT manual for additional information.

In accordance with the CPT manual, the following prolonged services codes are used depending on the E/M place of service and duration.

Limits:

In accordance with the CPT manual, the following limits apply:

1. Either prolonged service code 99354 or 99356 should be used only once per date, even if the time spent by the physician or other qualified provider is not continuous on that date.

2. Prolonged service of less than 30 minutes total duration on a given date is not separately reported because the work involved is included in the total work of the E/M codes.

3. Prolonged service of less than 15 minutes beyond the first hour or less than 15 minutes beyond the final 30 minutes is not reported separately.

Procedure Codes and Unit of Service:

In accordance with the CPT manual, the following prolonged services codes are used depending on the E/M place of service and duration:

**Office or Other Outpatient Services E/M codes and Home Services E/M codes:**

+99354- first hour (60 additional minutes with patient); and

+99355- each additional 30 minutes with the patient (beyond the 60 additional minutes that are coded with 99354)

**Prolonged Services Add-on Code 99417**

In accordance with the CPT manual, 99417 is used for reporting prolonged services only with the longest timed E/M codes in the Office or Other Outpatient Services ranges and is only used when the E/M service code is selected based on time alone, and not on medical decision making. In the Established Patient code range, 99417 may be reported with the longest timed E/M code 99215 when the time spent is 55 minutes or longer.

Procedure Codes and Unit of Service:

+99417- per 15 minutes

The following time rules apply for converting the duration of the service to prolonged services add-on code 99417 when coded with 99215:

Less than 55 minutes – not reported;

55-69 minutes equals 99215 and 1 unit of 99417;
70-84 minutes equals 99215 and 2 units of 99417;

85 or more minutes equals 3 or more units of 99417 for each additional 15 minutes.

**Subsequent Nursing Facility Care E/M codes (and any inpatient-based E/M codes in the event the E/M service is provided to a patient in an inpatient setting):**

+99356 – first hour (60 additional minutes with patient); and

+99357- each additional 30 minutes with the patient (beyond the 60 additional minutes that are coded with 99356)

The following time rules apply for converting the total duration of the prolonged service to the appropriate prolonged services add-on procedure code(s):

Less than 30 minutes equals 0 units;

30 minutes through 74 minutes (30 minutes through 1 hour 14 minutes) equals 1 unit of 99354 or 99356;

75 minutes through 104 minutes (1 hour 15 minutes through 1 hour 44 minutes) equals 1 unit of 99354 or 99356 plus 1 unit of 99355 or 99357; and

105 minutes through 134 minutes (1 hour 45 minutes through 2 hours 14 minutes) equals 1 unit of 99354 or 99356 plus 2 units of 99355 or 99357, etc.

**Record:**

2. Documentation must include:
   a. date, start and stop time, and duration of the service;
   b. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth); and
   c. specific service rendered (i.e., E/M services);

3. If not already addressed in E/M-required documentation referenced in #1:
   a. health issues and medications reviewed/monitored, results of the review, and progress toward related treatment goal(s), or if there was no reportable progress, documentation of reasons or barriers;
   b. dosage of medications as applicable;
   c. summary of information provided;
   d. if medications are administered, documentation of the medication(s) (i.e., specify substance or drug) and method and site of administration; and
e. summary of non-face-to-face activities if applicable; and

4. signature and licensure or credentials of the individual who rendered the service.

2 - 9 Nurse Medication Management

**Nurse medication management** means reviewing and monitoring the patient’s prescribed medication(s) and medication regimen to manage a behavioral health condition. Reviewing and monitoring includes evaluation of dosage, effect the medication(s) is having on the patient’s symptoms, and side effects. Any of the following may also be included in the service: providing information (including directions for proper and safe usage of medications), and/or administering medications as applicable. The service can also address other health issues as applicable.

**Who:**

1. licensed registered nurse; or

2. licensed practical nurse under the supervision of a licensed physician and surgeon or osteopathic physician, a licensed APRN, a licensed physician assistant or a licensed registered nurse; or

3. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision.

4. for procedure code 96372, a medical assistant under the supervision of a licensed physician and surgeon or osteopathic physician, a licensed APRN, a licensed physician assistant or a licensed registered nurse, may administer the therapeutic, prophylactic, or diagnostic injection specified below.

**Limits:**

1. Distributing medications (i.e., handling, setting out or handing medications to patients) is not a covered service and may not be reported to Medicaid.

2. Solely administering medications (i.e., giving an injection only) is covered only when using the procedure code specified below (96372).

3. Performance of ordering labs, including urine analyses (UAs), is not a covered service and may not be reported to Medicaid.

**Procedure Codes and Unit of Service:**

**T1001- Nurse Evaluation and Assessment – per encounter**

**96372- Therapeutic, prophylactic, or diagnostic injection (specify substance or drug); subcutaneous or intramuscular**

**Record:**

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);
3. specific service rendered (i.e., medication management or injection);

4. note that documents as applicable:
   a. health issues and medications reviewed/monitored, results of the review and progress toward related treatment goal(s), or if there was no reportable progress, documentation of reasons or barriers;
   b. dosage of medications;
   c. summary of information provided; and
   d. if medications are administered, documentation of the medication(s) (i.e., specify substance or drug) and method and site of administration; and

5. signature and licensure or credentials of the individual who rendered the service.

2 - 10 Therapeutic Behavioral Services

**Therapeutic behavioral services** are provided face-to-face to an individual or group of patients and means services that do not fully meet the definition of psychotherapy. Instead, the provider uses behavioral interventions to assist patients with specific behavior problems.

**Who:**

1. Licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B. 1.), or an individual identified in Chapter 1-5, B. 2.a. – B. 2.d.

2. This service may also be performed by:
   a. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;
   b. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;
   c. licensed registered nurse;
   d. licensed ASUDC or licensed SUDC who are under the general supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;
   e. licensed CASUDC or licensed CASUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC qualified to provide supervision;
   f. licensed CSUDC or licensed CSUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC or a licensed SUDC who are qualified to provide supervision;
   g. registered nursing student who is exempted from licensure in accordance with state law, and under required supervision.
h. individual enrolled in a qualified substance use disorder counselor education program, who is exempted from licensure in accordance with state law, and under DOPL-required supervision.

Limits:

1. Groups are limited to twelve patients in attendance unless a co-provider is present; then groups may not exceed 24 patients in attendance.

2. Multiple family therapeutic behavioral services groups are limited to twelve families in attendance, unless there is a co-provider, then groups may have 13 to 16 families in attendance.

3. Co-providers must meet the provider qualifications outlined in the ‘Who’ section above.

4. Therapeutic behavioral services do not include DUI classes.

Procedure Codes and Unit of Service:

**H2019 - Individual/Family Therapeutic Behavioral Services - per 15 minutes**

**H2019 with HQ modifier - Group Therapeutic Behavioral Services - per 15 minutes per Medicaid patient**

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;

8 minutes through 22 minutes of service equals 1 unit;

23 minutes through 37 minutes of service equals 2 units;

38 minutes through 52 minutes of service equals 3 units;

53 minutes through 67 minutes of service equals 4 units;

68 minutes through 82 minutes of service equals 5 units;

83 minutes through 97 minutes of service equals 6 units;

98 minutes through 112 minutes of service equals 7 units; and

113 minutes through 127 minutes of service equals 8 units, etc.

**Record:**

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., therapeutic behavioral services);

4. clinical note per session that documents:
a. the nature of the interventions used to address the behavior problem; and

b. treatment goal(s) addressed in the session and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and

5. signature and licensure or credentials of the individual who rendered the service. If a co-leader is present for therapeutic behavioral services groups, the note must contain the co-leader’s name and licensure or credentials.

2 - 11 Psychosocial Rehabilitative Services

**Psychosocial rehabilitative services (PRS)** are provided face-to-face to an individual or group of patients and means services that are designed to restore the patient to his or her maximum functional level through the use of face-to-face interventions such as cueing, modeling, and role-modeling of appropriate fundamental daily living and life skills. This service is aimed at maximizing the patient’s basic daily living and life skills, increasing compliance with the medication regimen as applicable, and reducing or eliminating symptomatology that interferes with the patient’s functioning. Intensive psychosocial rehabilitative services may be reported when a ratio of no more than five patients per provider is maintained during a group rehabilitative psychosocial service.

**Who:**

1. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

2. individual who has a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain license as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

3. licensed registered nurse;

4. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5;

5. licensed ASUDC or licensed SUDC who are under the general supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

6. licensed CASUDC or licensed CASUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC qualified to provide supervision;

7. licensed CSUDC or licensed CSUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC or a licensed SUDC who are qualified to provide supervision; or

8. other trained individual (but not including foster parents or other proctor parents) under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2. b. of Chapter 1-5, a licensed social service worker, or a licensed registered nurse; or a licensed ASUDC or a licensed SUDC when the service is provided to individuals with a SUD; or
9. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision; or

10. individual enrolled in a qualified substance use disorder counselor education program, who is exempted from licensure in accordance with state law, and under DOPL-required supervision.

11. The above are the core providers of this service. In addition, a licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B. 2.a. - B. 2.d. may perform this service.

Limits:

1. In group psychosocial rehabilitative services, a ratio of no more than twelve patients per provider up to a maximum of 36 patients must be maintained during the entire service.

2. In accordance with 42 CFR §440.130, and the definition of rehabilitative services, the following do not constitute medical or remedial services and may not be reported to Medicaid:
   a. Activities in which providers are not present and actively involved helping patients regain functional abilities and skills;
   b. Routine supervision of patients, including routine 24-hour care and supervision of patients (or patients’ children) in residential settings. Routine supervision includes care and supervision-level providers who may have informal, sporadic interactions with a patient that are helpful; however, these types of interactions do not constitute a reportable structured, pre-planned psychosocial rehabilitative individual or group session. Individual and group PRS must be provided in accordance with a formal schedule for the patient and must be documented in accordance with the requirements in the ‘Record’ section below. Otherwise intermittent unplanned communications with the patient are part of the routine supervision and are not reportable;
   c. Activities in which providers perform tasks for the patient, including activities of daily living and personal care tasks (e.g., grooming and personal hygiene tasks, etc.);
   d. Time spent by the patient in the routine completion of activities of daily living, including eating meals, doing chores, etc. (In a residential setting this time is part of the routine 24-hour care and supervision specified in b. above.);
   e. Habilitation Services;
   f. Job training, job coaching and other vocational activities, and educational services and activities such as lectures, presentations, conferences, other mass gatherings, etc.;
   g. Social and recreational activities, including but not limited to routine exercise, farming, gardening & animal care activities, etc. Although these activities may be therapeutic for the patient, and a provider may obtain valuable observations for processing later, they do not constitute reportable activities. However, time spent before and after the activity addressing the patients’ skills and behaviors related to the patient’s rehabilitative goals is allowed);
   h. Routine transportation of the patient or transportation to the site where a psychosocial rehabilitative service will be provided; and
   i. Any type of child care (including therapeutic child care).
3. Intensive PRS groups are limited to five patients per provider, with a maximum of ten patients per intensive PRS group. Intensive PRS groups are planned, structured groups independent from other PRS groups, and are designed to address the clinical needs of patients who, if in regular PRS groups would be distracting to other group members and/or require more individualized attention, including one on one, to maintain their focus on their clinical issues and treatment goals. Intensive PRS cannot be coded based solely on the number of patients in attendance.

The psychiatric diagnostic evaluation or other clinical documentation must document the need for an intensive PRS group, the patient's diagnoses, severity of symptoms and behaviors, and why an intensive PRS group is required. The treatment plan must prescribe intensive PRS and contain goals to ameliorate the symptoms and behaviors that necessitate intensive PRS group.

Procedure Codes and Unit of Service:

**H2014 – Individual Skills Training and Development - per 15 minutes** (This procedure code is used when providing PRS to an individual patient.)

**H2017 - Group Psychosocial Rehabilitative Services - per 15 minutes per Medicaid patient**

**H2017 with U1 modifier - Group Psychosocial Rehabilitative Services – Intensive - per 15 minutes per Medicaid patient** (See #3 of ‘Limits’ section above.)

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;

8 minutes through 22 minutes of service equals 1 unit;

23 minutes through 37 minutes of service equals 2 units;

38 minutes through 52 minutes of service equals 3 units;

53 minutes through 67 minutes of service equals 4 units;

68 minutes through 82 minutes of service equals 5 units;

83 minutes through 97 minutes of service equals 6 units;

98 minutes through 112 minutes of service equals 7 units; and

113 minutes through 127 minutes of service equals 8 units, etc.

*Psychosocial rehabilitative services provided in licensed day treatment or licensed residential treatment programs:

Because patients may leave and return later in the day (e.g., to attend other services, for employment, etc.), if attendance in each group meets the minimum time requirement for reporting (i.e., at least eight minutes), then time spent throughout the day may be totaled to determine units of service provided for reporting purposes. If attendance in some groups does not meet the eight-minute minimum, then those groups may not be included in the daily total for determining the amount of time spent and the number of units to be reported.
A. Group Psychosocial Rehabilitative Services Provided in Licensed Day Treatment Programs, Licensed Residential Treatment Programs, and Licensed or Unlicensed Day Treatment Programs in Schools

1. For each date of participation in the program, documentation must include:
   a. name of each group in which the patient participated (e.g., anger management, interpersonal relations, etc.);
   b. date, start and stop time, and duration of each group; and
   c. setting in which each group was rendered (e.g., day treatment program) (and when via telehealth, the provider setting and notation that the service was provided via telehealth).

2. Because rehabilitation is a process over time requiring frequent repetition and practice to achieve goals, progress is often slow and intermittent. Consequently, there must be sufficient amounts of time for progress to be demonstrated.

   Therefore, at a minimum, one summary note for each unique type of psychosocial rehabilitative group the patient participated in during the immediately preceding two-week period must be prepared at the close of the two-week period. The required summary note may be written by the provider who provided the group, or by a provider who is most familiar with the patient’s involvement and progress across groups.

   The summary note must include:
   a. name of the group;
   b. treatment goal(s) addressed in the group and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and
   c. signature and licensure or credentials of the individual who prepared the documentation. If a co-leader is present for the group, the note must contain the co-leader’s name and licensure or credentials.

   If the provider prefers, the provider may follow the documentation requirements listed under the next section, section B.

B. Psychosocial Rehabilitative Services Provided to a Group of Patients in Other Settings

When psychosocial rehabilitative services are provided to groups of patients outside of an organized day treatment or residential treatment program, for each unique type of psychosocial rehabilitative group and for each group session, documentation must include:

1. date, start and stop time, and duration of the group;
2. setting in which the group was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);
3. specific service rendered (i.e., psychosocial rehabilitative services) and the name of the group (e.g., relationship skills group, etc.);
4. treatment goal(s) addressed in the group and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and

5. signature and licensure or credentials of the individual who rendered the service. If a co-leader is present for group, the note must contain the co-leader’s name and licensure or credentials.

C. Psychosocial Rehabilitative Services Provided to an Individual

When provided to an individual patient, for each service documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., psychosocial rehabilitative services)

4. treatment goal(s);

5. treatment goal(s) addressed in the session and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and

6. signature and licensure or credentials of the individual who rendered the service.

If psychosocial rehabilitative services goals are met as a result of participation in the service, then if applicable, new individualized goals must be added to the treatment plan.

2 - 12 Peer Support Services

Peer support services means face-to-face services for the primary purpose of assisting in the rehabilitation and recovery of patients with behavioral health disorders. For children, peer support services are provided to their parents/legal guardians as appropriate to the child’s age when the services are directed exclusively toward the treatment of the Medicaid-eligible child. Peer support services are provided to an individual or group of patients, or parents/legal guardians.

On occasion, it may be impossible to meet with the peer support specialist in which case a telephone contact with the patient or parent/legal guardian of a child would be allowed.

Peer support services are designed to promote recovery. Peers offer a unique perspective that patients find credible; therefore, peer support specialists are in a position to build alliances and instill hope. Peer support specialists lend their unique insight into mental illness and substance use disorders and what makes recovery possible.

Using their own recovery stories as a recovery tool, peer support specialists assist patients with creation of recovery goals and with goals in areas of employment, education, housing, community living, relationships and personal wellness. Peer support specialists also provide symptom monitoring, assist with symptom management, provide crisis prevention, and assist patients with recognition of health issues impacting them.

Peer support services must be prescribed by a licensed mental health therapist identified in paragraph A of Chapter 1-5. Peer support services are delivered in accordance with a written treatment/recovery plan that is a comprehensive, holistic, individualized plan of care developed through a person-centered planning process. Patients lead and direct the design of their plans by identifying their own preferences and individualized measurable recovery goals.
Who:

Peer support services are provided by certified peer support specialists.

To become a certified peer support specialist, an individual must:

1. be at least age 18 and:
   a. a self-identified individual who is in recovery from a behavioral health disorder; or
   b. parent of a child with a behavioral health disorder; or
   c. other adult who has or has had an ongoing and personal relationship with an individual with a behavioral health disorder; and

2. successfully complete a peer support specialist training curriculum designed to give peer support specialists the competencies necessary to successfully perform peer support services. Curriculums are developed by the State of Utah, Department of Human Services, Division of Substance Abuse and Mental Health (DSAMH), in consultation with national experts in the field of peer support. Training is provided by DSAMH or a qualified individual or organization sanctioned by DSAMH. At the end of the training individuals must successfully pass a written examination. An individual who successfully completes the certification training will receive a written peer support specialist certification from the DSAMH and also will successfully complete any continuing education requirements the DSAMH requires to maintain certification.

Certified peer support specialists are under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2.b. of Chapter 1-5; or a licensed ASUDC or a licensed SUDC when peer support services are provided to patients with a SUD.

Supervisors must provide ongoing weekly individual and/or group supervision to the certified peer support specialists they supervise.

Limits:

1. Peer support groups are limited to a ratio of 1:8.

2. With the exception of older adolescents (adolescents age 16-18) for children, peer support services are provided to their parents/legal guardians and the services are directed exclusively to the treatment of the Medicaid-eligible child (i.e., toward assisting the parents/legal guardians in achieving the rehabilitative treatment goals of their children).

3. In accordance with 42 CFR §440.130, and the definition of rehabilitative services, the following do not constitute medical or remedial services and may not be reported to Medicaid:
   a. Job training, job coaching, and vocational and educational services. These activities are not within the scope of a peer support specialist’s role. However, helping patients with the emotional and social skills necessary to obtain and maintain employment is within the scope of peer support services;
   b. Social and recreational activities (although these activities may be therapeutic for the patient, and the peer support specialist may obtain valuable observations for processing later, they do not constitute reportable services. However, time spent before and after the activity addressing the patients’ behaviors related to the patients’ peer support goals is allowed); and
c. Routine transportation of the patient or transportation to a site where a peer support services will be provided.

Procedure Code and Unit of Service:

**H0038 – Individual Peer Support Services - per 15 minutes**

**H0038 with HQ modifier - Group Peer Support Services - per 15 minutes per Medicaid patient**

The following time rules apply for converting the duration of the service to the specified number of units:

- Less than 8 minutes equals 0 units;
- 8 minutes through 22 minutes of service equals 1 unit;
- 23 minutes through 37 minutes of service equals 2 units;
- 38 minutes through 52 minutes of service equals 3 units;
- 53 minutes through 67 minutes of service equals 4 units;
- 68 minutes through 82 minutes of service equals 5 units;
- 83 minutes through 97 minutes of service equals 6 units;
- 98 minutes through 112 minutes of service equals 7 units; and
- 113 minutes through 127 minutes of service equals 8 units, etc.

**Record:**

Documentation must include:

1. date, start and stop time, and duration of the service;
2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);
3. specific service rendered (i.e., peer support services);
4. treatment goal(s) addressed in the service and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and
5. signature and licensure or credentials of the individual who rendered the service.

If peer support services goals are met as a result of participation in the service, then if applicable, new individualized goals must be added to the treatment plan;

**2 – 13 Substance Use Disorder (SUD) Treatment in Licensed SUD Residential Treatment Programs (ASAM Levels 3.1, 3.3, 3.5, 3.7)**

Medicaid’s 1115 Demonstration Waiver waives federal Institution for Mental Disease (IMD) exclusions for licensed SUD residential treatment programs with 17 or more beds. This means that licensed SUD residential treatment programs with 17 or more beds are eligible for Medicaid reimbursement. This also
means that Medicaid members age 21 through 64 in these larger programs are now eligible for Medicaid reimbursement. Reimbursement is made on a per diem bundled payment basis.

DMHF also reimburses licensed SUD residential treatment programs with 16 or fewer beds on a per diem bundled payment basis.

SUD residential treatment means face-to-face services that are a combination of medically necessary services provided in accordance with Chapters 2-2 through 2-12 of this manual, and in accordance with the *Utah Medicaid Provider Manual for Targeted Case Management Services for Individuals with Serious Mental Illness*. Services must be individualized, and provided according to each patient’s ASAM assessment/reassessment and treatment plan in order to treat the patient’s documented SUD.

These programs are responsible to ensure appropriate transitions to other levels of outpatient SUD services either by directly providing the level of care needed or by coordinating the transition to the needed level of care with another FFS provider. For PMHP, UMIC Plan and HOME enrollees, the program must coordinate transitions to other levels of outpatient SUD services with the enrollee’s PMHP or UMIC Plan, or with HOME.

These programs, regardless of number of beds, must report services using the per diem procedure codes specified in the ‘Procedure Codes and Unit of Service’ below.

Who:

Programs licensed as a substance use disorder residential treatment program in accordance with Section 62A-2-101 of the Utah Code.

The following individuals, in accordance with their licensure or credentials, may perform the services delivered in the licensed SUD residential treatment program:

1. licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B. 2.a. - B. 2.d.;

2. licensed ASUDC or licensed SUDC who are under the general supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 qualified to provide supervision;

3. licensed CASUDC or licensed CASUDC-1 who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC who are qualified to provide supervision;

4. licensed CSUDC or licensed CSUDC-1 who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC, or a licensed SUDC who are qualified to provide supervision;

5. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

6. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;
7. licensed registered nurse;

8. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5;

9. other trained individual under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2.b. of Chapter 1-5, a licensed ASUDC, a licensed SUDC, a licensed social service worker, or a licensed registered nurse;

10. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision;

11. individual enrolled in a qualified substance use disorder counselor education program, who is exempted from licensure in accordance with state law, and under DOPL-required supervision; or

12. certified peer support specialist under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2.b. of Chapter 1-5, a licensed ASUDC, or a licensed SUDC.

Limits:

1. For Medicaid members enrolled in the PMHP, UMIC Plans, or HOME, SUD residential treatment must be provided through the member’s plan. DMHF does not reimburse programs on a FFS basis for PMHP, UMIC Plan, or HOME enrollees.

2. For Medicaid members not enrolled in the PMHP, UMIC Plans, or HOME, DMHF reimburses programs on a FFS basis.

3. Residential treatment is limited to Medically Necessary Services for documented SUD diagnoses for Medicaid members age 12 and older.

4. When children accompany their parents who are receiving treatment in the program, the children are not eligible for reimbursement under this service unless they qualify for their own SUD residential treatment under #3 above. Otherwise, programs may report the individual rehabilitative services provided to the children if they have their own diagnoses, and must report the services in accordance with Chapters 2-2 through 2-12 of this manual.

5. Programs are reimbursed on a per diem bundled payment basis using the applicable procedure code specified in the ‘Procedure Codes and Unit of Service’ section below. All services included in Chapters 2-2- through 2-12 of this manual, and case management services covered in the Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness, are included in the per diem bundled payment rate. Programs may not report these services under any other procedure codes.

6. Services not included in the per diem bundled payment rate are drug-administered codes (e.g., J codes).

7. Programs may only report the per diem bundled service codes for dates when at least one service is provided to the Medicaid member, either a rehabilitative service in accordance with Chapters 2-2 through 2-12 of this manual, or a case management service in accordance with the Utah Medicaid
Prior Authorization (PA)

A. FFS Medicaid Members

All licensed SUD residential treatment programs, regardless of the number of beds, must request PA from DMHF’s PA Unit in accordance with PA policy and procedures contained in the Utah Medicaid Provider Manual, Section I: General Information, Chapter 10-1, ‘Request Prior Authorization’, and Chapter 5 of this manual.

B. Prepaid Mental Health Plan (PMHP), Utah Medicaid Integrated Care (UMIC) Plan and HOME Enrollees

PMHPs, UMIC Plans, and HOME may also implement utilization review, including prior authorization of services. For information on PMHPs’, UMIC Plans’, and HOME’s PA and utilization review requirements and processes, programs must contact these plans.

Procedure Codes and Unit of Service:

Programs with 17 or more beds: H0018 – Behavioral health; short-term residential (non-hospital residential treatment program), without room and board – per diem (Alcohol and/or drug services), per Medicaid patient

Programs with 16 or fewer beds: H2036 - Alcohol and/or drug treatment program, per diem, per Medicaid patient

Record:

1. In accordance with Chapters 1-6 and 1-7, an assessment, initial treatment plan, and treatment plan reviews that clearly document the medical necessity for SUD residential treatment according to ASAM diagnostic admission criteria and ASAM dimensional admission criteria;

2. Documentation of the specific services rendered in the program in accordance with the applicable ‘Record’ sections in Chapters 2-2 through 2-12 in this manual, and the ‘Record’ section in the Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness, as applicable;

3. ASAM assessment and reassessment:

a. An initial ASAM assessment that:

i. clearly documents medical necessity for the identified ASAM level of care;

ii. includes ASAM level of care for each dimension and an ASAM risk/severity rating for each dimension;
iii. includes the estimated length of stay (alternatively, this may be documented in the initial treatment plan);

iv. includes post-discharge plans that specify, at a minimum, aftercare treatment (when clinically indicated) and anticipated living arrangements (alternatively, this may be documented in the initial treatment plan); and

v. includes signature, and credentials of the individual who completed the ASAM assessment.

b. An ASAM reassessment that:

i. clearly documents medical necessity for the current ASAM level of care;

ii. includes ASAM level of care for each dimension and an ASAM risk/severity rating for each dimension;

iii. includes the ASAM continued service point(s) for each dimension that indicates the need for continued stay in residential treatment. This may be documented by specifying the letter(s) A, B, C from the ASAM Criteria manual that corresponds to the identified ASAM Continued Service Criteria point(s);

iv. includes estimated length of stay (alternatively, this may be documented in the treatment plan review);

v. includes post-discharge plans that specify, at a minimum, aftercare treatment and anticipated living arrangements (alternatively, post discharge plans may be documented in the treatment plan review);

vi. includes signature and credentials of the individual who completed the reassessment; and

vii. is completed at a minimum every 30 calendar days from the admission date, and may need to be completed more frequently due to PA processes specified in Chapter 5.

4. Treatment plan and treatment plan review:

a. Initial treatment plan that:

i. is based on the most recent ASAM assessment;

ii. includes for each dimension at least one treatment goal and one objective that clearly demonstrates medical necessity for the identified ASAM level of care, including the date each treatment goal and each objective was added to the treatment plan; and

iii. includes signature and credentials of the individual identified in Chapter 1-5, A who completed the treatment plan.

b. Treatment plan review(s) that:

i. is based on the most recent ASAM reassessment and is completed following each ASAM reassessment;

ii. includes modified goal(s) and objective(s) when clinically indicated, informed by the most recent ASAM reassessment, including the dates the goal(s) and objective(s) were added. For each ASAM dimension for which there is an identified need for continued stay,
there must be at least one active treatment goal and one active objective that clearly demonstrates medical necessity for the identified ASAM level of care;

iii. includes documentation of progress toward treatment goal(s) and objective(s), or if there was no reportable progress, documentation of reasons or barriers. When goals and/or objectives are achieved, retain them on the updated treatment plan with the date each goal and/or objective was achieved;

iv. includes signature and credentials of the individual in Chapter 1-5, A. who completed the treatment plan review; and

v. is completed at a minimum every 30 calendar days from the admission date, and may need to be completed more frequently due to PA processes specified in Chapter 5.

2 - 14 Assertive Community Treatment and Assertive Community Outreach Treatment

Assertive Community Treatment (ACT) and Assertive Community Outreach Treatment (ACOT) means an evidence-based psychiatric rehabilitation practice that provides a comprehensive approach to service delivery to patients with serious mental illness. Services are provided by a multidisciplinary team of providers whose backgrounds and training include psychiatry, nursing, social work or other related mental health therapist field, and rehabilitation. The entire team shares responsibility for each patient, with each team member contributing expertise as appropriate. The team approach ensures continuity of care for patients and creates a supportive environment for providers. ACT and ACOT teams are characterized by low patient-to-staff ratios, provide services in community, provider 24/7 staff availability, provider services directly rather than referring patients to other agencies, and provide services on a time unlimited basis.

Who:

The ACT and ACOT teams consist of the following positions: team lead, prescriber, nurse, mental health therapist, SUD counselor, certified peer support specialist, other mental health professionals (e.g., certified targeted case managers), employment specialist, and program assistant.

Limits:

1. The ACT team must meet the Substance Abuse and Mental Health Services Administration (SAMHSA) definition of and guidelines for ACT teams in order to report services under the per month bundled payment procedure code. If SAMHSA’s guidelines are not met, then the individual services must be reported.

2. The ACT team maintains a 10:1 patient-to-staff ratio. The 10:1 patient-to-staff ratio includes all direct service staff except for the prescriber and the program assistant.

3. The ACOT team must meet DSAMH’s Assertive Community Outreach Treatment for Clients with the Most Serious and Persistent Mental Illnesses Program Guidelines as set forth on DSAMH’s website.

4. These services are reimbursed on a per month bundled payment basis; therefore, providers must report only one unit of service.
5. For patients who are on the ACT or ACOT team’s caseload for the entire month, the ACT and ACOT team may report the team’s standard monthly charge if at least one service is provided to the Medicaid member during the month, either a rehabilitative service in accordance with Chapters 2-2 through 2-12 of this manual, or a case management service in accordance with the *Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness*

6. For patients who are not on the ACT or ACOT team’s caseload for the entire month, the ACT and ACOT team must prorate its charge by multiplying a calculated per diem rate by the number of days of service. The per diem rate is determined by taking the monthly rate multiplied by 12 and then divided by 365. For example, if the patient were on the team’s caseload from the 1st through the 16th, then the team would report this range of dates, one unit, and a prorated charge based on 16 days of the calculated per diem.

7. Providers may not report a range of dates of service that span over a month. For example, if a patient is on the ACT caseload from April 2nd through May 13th, the provider must report April 2nd through April 30th separately from the May range of dates.

**Procedure Code and Unit of Service:**

**H0040 – Assertive Community Treatment, per month**

**Record:**

Documentation must include:

1. in accordance with Chapters 1-6 and 1-7, an assessment and treatment plan that clearly document the medical necessity for services;

2. documentation of the specific services rendered in accordance with applicable ‘Record’ sections in Chapters 2-2 through 2-12 in this manual, and ‘the ‘Record’ section in the *Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness*, as applicable; and

3. a general summary note per team shift documenting other activities the team performed (e.g., patient staffing, team meetings, outreach phone calls, etc.)

**2 - 15 Mobile Crisis Outreach Team**

**Mobile Crisis Outreach Team (MCOT)** means a mobile team defined by Administrative Rule R523-18 that consists of at least two members who are deployed to the community to perform behavioral health crisis evaluations. Based on the assessment, the team also coordinates with local law enforcement, emergency medical service personnel, and other appropriate state or local resources.

**Who:**

An MCOT certified through the DSAMH that meets the standards set forth in Administrative Rule, R523-18, and that includes:

1. a licensed mental health therapist identified in Chapter 1-5, A. who is a certified crisis worker and who meets any other requirements specified in Rule R523-18 of the Utah Code Annotated; and
2. a second team member who is also a certified crisis worker.

The MCOT must also have access to a designated examiner and a medical professional for consultation during the MCOT response in accordance with Rule R523-18 of the Utah Code.

**Limits:**

1. This procedure code may be reported only when the two team members specified above are deployed to the community to perform the assessment. If only one team member is deployed, then this code may not be reported. The provider must report the procedure code for the individual service provided as defined in this Chapter 2 (e.g., psychotherapy for crisis, etc.)

2. This service is reimbursed on a per diem bundled payment basis. Therefore, regardless of the number of visits made to a Medicaid member on a given date, only one unit of service may be reported and reimbursed.

**Procedure Code and Unit of Service:**

**H2000 – Comprehensive multidisciplinary evaluation, per diem**

**Record:**

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered (i.e., mobile crisis outreach);

4. clinical note that documents the crisis visit, including findings, mental status and disposition); and

5. signature and licensure or credentials of the individuals who rendered the service.

**2 - 16 Clinically Managed Residential Withdrawal Management (ASAM Level 3.2-WM)**

**Clinically Managed Residential Withdrawal Management**, sometimes referred to as “social detox”, means 24-hour supervision, observation, and support for patients who are intoxicated or experiencing withdrawal and are appropriated to be managed in a social setting. This level of care emphasizes peer and social supports rather than medical and nursing care. Staff trained in withdrawal signs and symptoms of alcohol and other drug intoxication and withdrawal monitor the patients. Programs rely on established clinical protocols to identify patients in need of medical services beyond the capacity of the facility and transfer such patients to a more appropriate level of care. Programs have access to 24-hour medical and nursing supports.

**Who:**

A program that is licensed through the Utah Office of Licensing as a Social Detoxification facility, meets the ASAM Criteria guidelines for level 3.2-WM, and include the following staff under the clinical management of a licensed mental health therapist identified in Chapter 1-5, A. 1:

1. staff trained to monitor intoxication and withdrawal signs and symptoms, and
2. medical and nursing personnel.

**Limits:**

1. Prior to April 1, 2021, this service was limited to Volunteers of America. Effective April 1, 2021, clinically managed residential withdrawal management (social detoxification) may be provided by all Medicaid-enrolled social detoxification providers. For dates of service between April 1, 2021 and June 30, 2021, providers will report services directly to Medicaid FFS.

2. Effective July 1, 2021, for Medicaid members enrolled in PMHPs, UMIC Plans, or HOME, social detoxification is covered under these plans. See Chapter 1-3, ‘Medicaid Behavioral Health Service Delivery System’ for more information. For Medicaid members not enrolled in one of these plans, providers will continue to report services directly to Medicaid FFS.

   PMHPs, UMIC Plans, and HOME may also implement utilization review, including prior authorization of services. For information on PMHP’s, UMIC Plans’, and HOME’s PA and utilization review requirements and processes, programs must contact these plans.

3. Programs may only report the per diem bundled service code for dates when at least one service is provided to the Medicaid member, either a rehabilitative service in accordance with Chapter 2-11 or Chapter 2-12 of this manual, or a case management service in accordance with the *Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness*. This includes hospital admission and discharge dates; however, per diem reimbursement is not available for any other dates of service while the Medicaid member is an inpatient of a hospital.

**Procedure Code and Unit of Service:**

**H0012 – Alcohol and/or drug services; sub-acute detoxification (residential addiction program outpatient)**

**Record:**

Documentation must include:

1. date of the service;
2. setting in which the service was rendered;
3. documentation required in accordance with Rule R501-11-6 and R501-11-13. The written documentation required in Rule R501-11-6 (C) and Rule R501-11-13 (B) suffices for evaluation requirements in Chapter 1-6 and treatment plan requirements in Chapter 1-7 of this manual.
4. documentation of the specific services rendered in the program in accordance with the applicable ‘Record’ sections in Chapters 2-11 and 2-12 in this manual, and the ‘Record’ section in the *Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness*; and
5. signature, licensure, credentials, or job title of the individuals who rendered the service.

2 – 17 Mental Health Treatment in Licensed Mental Health Residential Treatment Programs

Mental health residential treatment means face-to-face services that are a combination of medically necessary services provided in accordance with Chapters 2-2 through 2-12 of this manual, and the *Utah Medicaid Provider Manual for Targeted Case Management Services for Individuals with Serious Mental Illness*.
**Illness**, as applicable. Services must be individualized and provided according to each patient’s assessment/reassessment and treatment plan in order to treat the patient’s documented mental health disorder.

**Programs with 17 or More Beds**

Medicaid’s 1115 Demonstration Waiver waives federal Institution for Mental Disease (IMD) exclusions for licensed mental health residential treatment programs with 17 or more beds that are accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) or the Commission on Accreditation of Rehabilitation Facilities (CARF).

This means that licensed and accredited residential treatment programs with 17 or more beds are eligible for Medicaid reimbursement for Medicaid members **age 21 through 64**. Reimbursement is made on a per diem bundled payment basis and is available for admissions on or after January 1, 2021.

In accordance with the 1115 Demonstration Waiver, these programs must have the capacity to address co-morbid physical health conditions during short-term stays in residential treatment settings (e.g., with on-site staff, telemedicine, and/or partnerships with the patient’s ACO or UMIC Plan, HOME, or a FFS provider if not enrolled in a plan).

These programs are also responsible to ensure appropriate transitions to other levels of outpatient mental health services either by directly providing the level of care needed or by coordinating the transition to the needed level of care with another FFS provider. For PMHP, UMIC Plan and HOME enrollees, the program must coordinate transitions to other levels of outpatient mental health services with the enrollee’s PMHP or UMIC Plan, or with HOME.

These programs must have a process to assess the housing situation of the patient transitioning to the community from the program and to connect the patient who may experience homelessness upon discharge or who would be discharged to unsuitable or unstable housing with community providers that coordinate housing services.

These programs must have protocols in place to ensure contact is made with each discharged patient within 72 hours of discharge and to help ensure the patient accesses follow-up care by contacting the community-based provider they were referred to.

Programs must report services using the per diem procedure code specified in the ‘Procedure Codes and Unit of Service’ section below.

**Programs with 16 or Fewer Beds**

Effective April 1, 2021, for Medicaid members 21 years of age or older, DMHF also reimburses licensed mental health residential treatment programs with 16 or fewer beds on a per diem bundled payment basis.

To allow for time to transition to the use of the per diem procedure code, for dates of service on or after January 1, 2022, these programs must begin using the per diem procedure code specified in the ‘Procedure Codes and Unit of Service’ section below.

For Medicaid members under 21 years of age, there are no changes. Providers must continue to report the individual services provided in accordance with Chapters 2-2 through 2-12 of this manual.

**Who:**
Programs licensed as a mental health residential treatment program in accordance with Section 62A-2-101 of the Utah Code.

The following individuals, in accordance with their licensure or credentials, may perform the services delivered in the licensed mental health residential treatment program:

1. licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B.2.a. - B.2.d.;

2. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

3. individual who has obtained a qualifying bachelor's degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

4. licensed registered nurse;

5. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5;

6. other trained individual under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2. b. of Chapter 1-5, a licensed social service worker, or a licensed registered nurse;

7. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision; or

8. certified peer support specialist who is under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2.b. of Chapter 1-5.

Limits:

1. For programs with 17 or more beds, residential treatment is limited to medically necessary services for documented mental health diagnoses for Medicaid members 21 years of age or older.

2. For programs with 17 or more beds, stays of up to 60 days may be reimbursed based on medical necessity. Medicaid will not reimburse any part of a stay that exceeds 60 days.

3. For Medicaid members enrolled in the PMHP, UMIC Plans, or HOME, mental health residential treatment must be provided through the member’s plan. DMHF does not reimburse programs on a FFS basis for PMHP, UMIC Plan, or HOME enrollees.

4. For Medicaid members not enrolled in the PMHP, UMIC Plans, or HOME, DMHF reimburses programs on a FFS basis.

5. For Medicaid members 21 years of age or older, programs are reimbursed on a per diem bundled payment basis using the applicable procedure code specified in the ‘Procedure Codes and Unit of Service’ section below. All services included in Chapters 2-2 through 2-12 of this manual, and case management services covered in the Utah Medicaid Provider Manual for Targeted Case
Management for Individuals with Serious Mental Illness, are included in the per diem bundled payment rate. Programs may not report these services under any other procedure codes.

6. Services not included in the per diem bundled payment rate are drug-administered codes (e.g., J codes).

7. Programs may only report the per diem bundled service codes for dates when at least one service is provided to the Medicaid member, either a rehabilitative service in accordance with Chapters 2-2 through 2-12 of this manual, or a case management service in accordance with the Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness. This includes hospital admission and discharge dates; however, per diem reimbursement is not available for any other dates of service while the Medicaid member is an inpatient of a hospital.

8. If due to COVID-19 the program quarantines the Medicaid member in a different location, the program may bill for these dates of service as long as the member continues to receive therapeutic services covered under the bundled procedure code (H0017 or H2013).

Prior Authorization (PA)

FFS Medicaid Members

1. Licensed mental health residential treatment programs with 17 or more beds must request PA from DMHF’s PA Unit in accordance with PA policy and procedures contained in the Utah Medicaid Provider Manual, Section I: General Information, Chapter 10-1, ‘Request Prior Authorization’, and Chapter 6 of this manual.

2. PA is not required for residential treatment programs with 16 or fewer beds.

Prepaid Mental Health Plan (PMHP), Utah Medicaid Integrated Care (UMIC) Plan, and HOME Enrollees

For programs with 17 or more beds, PMHPs, UMIC Plans, and HOME must implement utilization review, including prior authorization of services. For information on PMHPs’, UMIC Plans’, and HOME’s PA and utilization review requirements and processes, programs must contact these plans.

These managed care plans may also require PA for programs with 16 or fewer beds. Programs must contact the plans for information on PA requirements.

Procedure Codes and Unit of Service:

Programs with 17 or more beds: H0017 – Behavioral health; residential (hospital residential treatment program), without room and board – per diem, per Medicaid patient

Programs with 16 or fewer beds: H2013 – Psychiatric health facility service- per diem, per Medicaid patient 21 years of age or older

Record:

Licensed mental health residential treatment programs must maintain the following documentation:
1. In accordance with Chapters 1-6 and 1-7, an assessment, initial treatment plan, and treatment plan reviews that clearly document the medical necessity for mental health treatment in a residential treatment program.

2. Documentation of the specific services rendered in the program in accordance with the applicable ‘Record’ sections in Chapters 2-2 through 2-12 in this manual, and the ‘Record’ section in the Utah Medicaid Provider Manual for Targeted Case Management for Individuals with Serious Mental Illness, as applicable.

3. An estimated length of stay, and post-discharge plans that specify, at a minimum, aftercare treatment (when clinically indicated) and anticipated living arrangements. These must be updated as clinically indicated.

4. For mental health residential treatment programs with 17 or more beds, if PA requests beyond the admission (non-clinical) PA request (as referenced in Chapter 6) are needed, documentation that is completed no earlier than four calendar days of (and including) the first date of service indicated on the PA request form and that:
   a. supports medical necessity for continued stay, including:
      i. assessment of functioning in the last seven days;
      ii. symptom(s) in the last seven days;
      iii. planned interventions to address current treatment needs; and
      iv. in accordance with # 3 above, the estimated length of stay and post-discharge plans that specify, at a minimum, aftercare treatment (when clinically indicated) and anticipated living arrangements; and
   b. includes a treatment plan review that:
      i. includes modified goal(s) and objective(s) when clinically indicated, including the dates the goal(s) and objective(s) were added;
      ii. progress toward treatment goal(s) and objective(s), or if there was no reportable progress, documentation of reasons or barriers. When goals and/or objectives are achieved, retain them on the updated treatment plan with the date each goal and/or objective was achieved; and
   c. includes signature and credentials of the individual(s) in Chapter 1-5, A. who completed the documentation.

2 - 18 Behavioral Health Receiving Centers

Behavioral Health Receiving Centers (receiving centers) are centers that provide services to individuals experiencing a behavioral health crisis in the community. Receiving centers are staffed 24 hours a day, 365 days a year. Receiving centers must adhere to Rule R523-21 of the Utah Administrative Code.

Medicaid reimbursement is available to receiving centers effective October 1, 2020, and is made on a FFS basis.
Who:

1. Receiving centers must be licensed by Department of Human Services, Office of Licensing, or must be a facility that is licensed as an outpatient hospital and must meet staffing requirements specified in Rule R532-21.

Limits:

None.

Procedure Code and Unit of Service:

S9485 – Crisis intervention mental health services; per diem

Record:

Documentation must include:

1. the receiving center must maintain documentation, including the date of service at the receiving center, patient name, and Medicaid identification number;

2. a note by each provider delivering a service during the patient’s stay that includes:
   a. date and duration of the service;
   b. setting in which the service was rendered;
   c. summary of the service provided; and
   d. signature, licensure, or credentials of the individual preparing the note); and

3. a note summarizing the discharge disposition that must be written by a registered nurse or licensed mental health therapist. The note must include the signature, and licensure of the individual preparing the note.

3 PREPAID MENTAL HEALTH PLANS (PMHPs), UTAH MEDICAID INTEGRATED CARE (UMIC) PLANS and HOME

This Chapter applies only to PMHP contractors, UMIC Plans, and HOME.

The services contained in this Chapter are authorized under the PMHP Section 1915(b) Waiver, under Utah’s 1115 Demonstration Waiver for UMIC Plans, and under Section 1915(a) authority for HOME. The services are available only to Medicaid members enrolled in the PMHP, HOME, or UMIC Plans.

For PMHPs, these services are not a benefit for Medicaid members enrolled in the PMHP for only inpatient psychiatric care. This includes children in foster care, and children with adoption subsidy exempted from the PMHP for outpatient behavioral health services.

In accordance with Chapter 1-7, Treatment Plan, the services below must be included on the patient’s treatment plan that must meet requirements of Chapter 1-7.
3 - 1 Personal Services

**Personal Services** are recommended by a physician or other practitioner of the healing arts (see paragraph A of Chapter 1-5) and are furnished for the primary purpose of assisting in the rehabilitation of patients with serious mental illness (SMI) or serious emotional disorder (SED). These services include assistance with instrumental activities of daily living (IADLs) that are necessary for patients to live successfully and independently in the community and avoid hospitalization. Personal services include assisting the patient with varied activities based on the patient’s rehabilitative needs: picking up prescriptions, income management, maintaining the living environment including cleaning and shopping, and the transportation related to the performance of these activities, and representative payee activities when the PMHP, UMIC Plan, or HOME, or one of their providers has been legally designated as the patient’s representative payee. These services assist patients to achieve their goals for remedial and/or rehabilitative IADL adequacy necessary to restore them to their best possible functioning level.

**Who:**

1. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

2. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

3. licensed registered nurse;

4. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in Chapter 1-5, A.1;

5. other trained individual (but not including foster parents or other proctor parents) under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2.b of Chapter 1-5, a licensed social service worker, or a licensed registered nurse; or

6. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision.

7. The above are the core providers of this service. In addition, a licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B.2.a. - B.2.d. may perform this service.

8. When the service is provided to patients with an SUD:

   a. licensed ASUDC or licensed SUDC who are under the general supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

   b. licensed CASUDC or licensed CASUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC qualified to provide supervision; or

   c. licensed CSUDC or licensed CSUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC or a licensed SUDC who are qualified to provide supervision.
Procedure Code and Unit of Service:

H0046 – per 15 minutes

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;

8 minutes through 22 minutes of service equals 1 unit;

23 minutes through 37 minutes of service equals 2 units;

38 minutes through 52 minutes of service equals 3 units;

53 minutes through 67 minutes of service equals 4 units;

68 minutes through 82 minutes of service equals 5 units;

83 minutes through 97 minutes of service equals 6 units;

98 minutes through 112 minutes of service equals 7 units; and

113 minutes through 127 minutes of service equals 8 units, etc.

Record:

Documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered;

4. treatment goal(s) addressed in the service and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and

5. signature and licensure or credentials of the individual who rendered the service.

3 - 2 Respite Care

Respite care is recommended by a physician or practitioner of the healing arts (see Chapter 1-5, A) and is furnished face-to-face to a child for the primary purpose of giving the parent(s)/guardian(s) temporary relief from the stresses of caring for a child with a serious emotional disorder (SED). Respite care can prevent parent/guardian burn-out, allow for time to be spent with other children in the family, preserve the family unit, and minimize the risk of out-of-home placement by reducing the stress families of children with SED typically encounter.

Who:

2. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;
2. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

3. licensed registered nurse;

4. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in Chapter 1-5, A. 1;

5. other trained individual (but not including foster parents or other proctor parents) under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2.(b) of Chapter 1-5, a licensed social service worker, or a licensed registered nurse; or

6. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision.

7. The above are the core providers of this service. In addition, a licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B.2.a. - B.2.d may perform this service.

Procedure Code and Unit of Service:

S5150 – per 15 minutes

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;

8 minutes through 22 minutes of service equals 1 unit;

23 minutes through 37 minutes of service equals 2 units;

38 minutes through 52 minutes of service equals 3 units;

53 minutes through 67 minutes of service equals 4 units;

68 minutes through 82 minutes of service equals 5 units;

83 minutes through 97 minutes of service equals 6 units;

98 minutes through 112 minutes of service equals 7 units; and

113 minutes through 127 minutes of service equals 8 units, etc.

Record:

Each provider delivering respite care must provide documentation as follows:

1. For each date of respite care:
   a. date, start and stop time, and duration of the service;
   b. setting in which the service was rendered; and
c. specific service rendered.

2. For each preceding two-week period during which the patient received respite services, at a minimum, one summary note that includes:
   a. the name of the service;
   b. treatment goal(s) addressed in the service and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and
   c. signature and licensure or credentials of the individual who rendered the service(s).

3 - 3 Psychoeducational Services

*Psychoeducational Services* are recommended by a physician or practitioner of the healing arts (see Chapter 1-5, A) and are provided face-to-face to an individual or group of patients and are furnished for the primary purpose of assisting in the rehabilitation of patients with serious mental illness (SMI) or serious emotional disorders (SED). This rehabilitative service includes interventions that help patients achieve goals of remedial and/or rehabilitative vocational adequacy necessary to restore them to their best possible functioning level.

**Who:**

1. licensed social service worker under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

2. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under the supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

3. licensed registered nurse;

4. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in Chapter 1-5, A. 1;

5. other trained individual (but not including foster parents or other proctor parents) under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2 (b.) of Chapter 1-5, a licensed social service worker, or a licensed registered nurse; or

6. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL- required supervision.

7. The above are the core providers of this service. In addition, a licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B.2.a. – B.2.d may perform this service.

8. When the service is provided to patients with an SUD:
   a. licensed ASUDC or licensed SUDC who are under the general supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;
b. licensed CASUDC or licensed CASUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC qualified to provide supervision; or

c. licensed CSUDC or licensed CSUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC or a licensed SUDC who are qualified to provide supervision.

Procedure Code and Unit of Service:

**H2027 – Psychoeducational Services - per 15 minutes per Medicaid patient**

The following time rules apply for converting the duration of the service to the specified number of units:

Less than 8 minutes equals 0 units;
8 minutes through 22 minutes of service equals 1 unit;
23 minutes through 37 minutes of service equals 2 units;
38 minutes through 52 minutes of service equals 3 units;
53 minutes through 67 minutes of service equals 4 units;
68 minutes through 82 minutes of service equals 5 units;
83 minutes through 97 minutes of service equals 6 units;
98 minutes through 112 minutes of service equals 7 units; and
113 minutes through 127 minutes of service equals 8 units, etc.

**Record:**

A. Psychoeducational Services Provided in Licensed Day Treatment Programs, Licensed Residential Treatment Programs, and Licensed or Unlicensed Day Treatment Programs in Schools

1. For each date of participation in psychoeducational services, documentation must include:
   a. name of the service;
   b. date, start and stop time, and duration of the service; and
   c. the setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth).

2. Because rehabilitation is a process over time requiring frequent repetition and practice to achieve goals, progress is often slow and intermittent. Consequently, there must be sufficient amounts of time for progress to be demonstrated.

Therefore, at a minimum, one summary note for each preceding two-week period during which the patient received psychoeducational services must be prepared at the close of the two-week period.

The summary note must include:
a. name of the service;

b. treatment goal(s) addressed in the service and progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and

c. signature and licensure or credentials of the individual who rendered the service.

If the provider prefers, the provider may follow the documentation requirements listed under the next section, section B.

B. Psychoeducational Services Provided to a Group of Patients in Other Settings

When psychoeducational services are provided to groups of patients outside of an organized day treatment or residential treatment program, for each psychoeducational group session, documentation must include:

1. date, start and stop time, and duration of the psychoeducational group;

2. setting in which the group was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered;

4. treatment goal(s) addressed in the group and the patient’s progress toward treatment goal(s) or if there was no reportable progress, documentation of reasons or barriers; and

5. signature and licensure or credentials of the individual who rendered the service.

C. Psychoeducational Services Provided to an Individual

When provided to an individual patient, for each service documentation must include:

1. date, start and stop time, and duration of the service;

2. setting in which the service was rendered (when via telehealth, the provider setting and notation that the service was provided via telehealth);

3. specific service rendered;

4. treatment goal(s) addressed in the service and progress toward treatment goal(s) or if there was no reportable progress, documentation of barriers; and

5. signature and licensure or credentials of the individual who rendered the service.

If psychoeducational services goals are met as a result of participation in the service, then if applicable, new individualized goals must be added to the treatment plan.

Psychoeducational services provided in licensed day treatment or licensed residential treatment programs:

Because patients may leave and return later in the day (e.g., to attend other services, for employment, etc.), in accordance with Chapter 1-12, if attendance in each psychoeducational services group meets the minimum time requirement for reporting (i.e., at least eight minutes), then time spent throughout the day may be totaled to determine units of service provided for reporting purposes. If attendance in some groups does not meet the eight-minute minimum, then those groups may not be included in the daily total for determining the amount of time spent and the number of units to be reported.
3 - 4 Supportive Living

**Supportive Living** means costs incurred in licensed residential treatment programs or licensed residential support programs when Enrollees are placed in these programs.

Costs include those incurred for 24-hour staff, facility costs associated with providing individual covered services (e.g., individual psychotherapy, pharmacologic management, etc.) at the facility site, and apportioned administrative costs. Costs do not include the covered services costs or room and board costs.

This level of care is recommended by a physician or other practitioner of the healing arts (see Chapter 1-5, A), and helps to restore patients with serious mental illness (SMI) or SED to their best possible functioning level. PMHPs, UMIC Plans, and HOME provide this level of care when needed so that individuals may remain in a less restrictive community setting.

Supportive living may not be reported when a per diem bundled residential treatment code is reported in accordance with Chapter 2-13 or Chapter 2-17 (codes H0018, H2036, H0017, and H2013) as supportive living costs are included in the bundled payment rates.

**Who:**

1. licensed social service worker under the supervision;

2. individual who has obtained a qualifying bachelor’s degree and is actively engaged in meeting DOPL requirements to obtain licensure as a social service worker in accordance with state law, and is under supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

3. licensed registered nurse;

4. licensed practical nurse under the supervision of a licensed registered nurse, or a licensed mental health therapist identified in Chapter 1-5, A.1;

5. other trained individual (but not including foster parents or other proctor parents) under the supervision of a licensed mental health therapist identified in paragraph A.1 or A.2 (b.) of Chapter 1-5, a licensed social service worker, or a licensed registered nurse; or

6. registered nursing student who is exempted from licensure in accordance with state law, and under DOPL-required supervision.

7. The above are the core providers of this service. In addition, a licensed mental health therapist, an individual exempted from licensure as a mental health therapist (see Chapter 1-5, B.1.), or an individual identified in Chapter 1-5, B.2.a. - B.2.d. may perform this service.

8. When the service is provided to patients with an SUD:

   a. licensed ASUDC or licensed SUDC who are under the general supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision;

   b. licensed CASUDC or licensed CASUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC qualified to provide supervision; or
c. licensed CSUDC or licensed CSUDC-I who are under direct supervision of a licensed mental health therapist identified in paragraph A.1 of Chapter 1-5 who is qualified to provide supervision, or a licensed ASUDC or a licensed SUDC who are qualified to provide supervision;

**Limits:**

Supportive living may not be reported for licensed SUD residential treatment programs reported with bundled procedure codes H0018 or H2036, for licensed mental health residential treatment programs reported with bundled procedure codes H0017 or H2013, or for clinically managed residential withdrawal management (ASAM Level 3.2-WM) social detoxification programs reported with bundled procedure code H0012. See Chapters 2-13, 2-17 and 2-16.

**Procedure Code and Unit of Service:**

**H2016 – 1 unit per day**

**Record:**

Documentation must include:

1. setting in which the service was rendered (e.g., name of the program);
2. note each month documenting the dates supportive living was provided during the month; and
3. signature and licensure or credentials of the individual who prepared the documentation.

</tbody>
</table>

*Note: Use 90832 for crisis contacts 30 minutes or less
**CG modifier:**
This modifier indicates the service provided was pharmacologic management covered under Chapter 2-8, Pharmacologic Management (Evaluation and Management (E/M) Services).

**UC modifier:**
When evaluation or psychological testing is performed for physical health purposes, including prior to medical procedures, or for the purpose of diagnosing intellectual or development disabilities, or organic disorders, the services are carved out of managed care. To ensure correct adjudication of the claim, use the UC modifier with the procedure code.

5 PRIOR AUTHORIZATION POLICIES and PROCEDURES FOR LICENSED SUBSTANCE USE DISORDER RESIDENTIAL TREATMENT PROGRAMS

To prevent the delivery of unnecessary and inappropriate care to Medicaid members who have FFS Medicaid, and to provide for both necessity for care and appropriateness of care requests, a PA process has been implemented to review SUD treatment provided in licensed SUD residential treatment program, ASAM levels of care 3.1, 3.3, 3.5, and 3.7. (See Chapter 2-13, ‘Substance Use Disorder Treatment in Licensed Substance Use Disorder Residential Treatment Programs’, for policy, documentation requirements, and other requirements for licensed SUD residential treatment programs.)

The required PA request form is the SUD Residential Treatment Services Prior Authorization Request Form found at: https://medicaid.utah.gov/forms.

5-1. Request Prior Authorization (PA)

In addition to the Utah Medicaid Provider Manual, Section I: General Information, Chapter 10, ‘Prior Authorization’, see additional PA requirements below.

A. Admission (Non-Clinical) PA Request
   Providers must:

   1. complete the SUD Residential Treatment Services Prior Authorization Request Form found at: https://medicaid.utah.gov/forms, and

      a. request no more than 30 calendar days for adolescent Medicaid members age 12 through age 18; or

      b. request no more than 60 calendar days for adult Medicaid members 19 years of age or older; and

   2. submit the PA request form no later than two business days after the date of admission. No supporting documentation is required.

   Note: Members may receive only one non-clinical PA per treatment episode. If a PMHP, UMIC Plan or HOME has given a non-clinical PA and the member’s enrollment changes to FFS during the treatment episode, additional PA requests must be clinical PA requests.

B. Continued Stay (Clinical) PA Request

   When additional days beyond those approved through the non-clinical PA request are medically necessary, providers must:

   1. complete the SUD Residential Treatment Services Prior Authorization Request Form found at https://medicaid.utah.gov/forms, and

      a. request no more than 30 calendar days for adolescent Medicaid members age 12 through age 18; or
b. request no more than 60 calendar days for adult Medicaid members 19 years of age or older;

2. complete an ASAM reassessment and treatment plan review no earlier than seven calendar days of (and including) the first requested date of service indicated on the PA request form. Documentation must be completed in accordance with #3 and #4 of the ‘Record’ section of Chapter 2-13; and

3. submit the PA request form, ASAM reassessment and treatment plan review no later than the first date of service requested on the PA request form.

Note: Members may receive only one admission (non-clinical) PA per treatment episode. If a PMHP, UMIC Plan or HOME has given a non-clinical PA and the member’s enrollment changes to FFS during the treatment episode, additional PA requests must be continued stay (clinical) PA requests.

C. Transition Days

1. If the provider determines that medical necessity for continued stay is not met, the provider may request up to 14 calendar transition days to allow time to transition the member to the medically necessary ASAM level of care. Providers must:
   a. complete the PA request form and ensure that the ‘Additional Information’ section indicates that the request is for transition days; and
   b. submit the PA request form no later than the first date of service requested on the PA request form.

2. If the PA Unit determines that the clinical documentation submitted with a continued stay (clinical) PA request does not support continued stay, the PA Unit may authorize up to14 calendar days to allow time to transition the member to the medically necessary ASAM level of care.

D. Member Absence from the Program

**Absence of three calendar days or less:**

Providers must request a modification to the current PA request by completing and submitting a new SUD Residential Treatment Services Prior Authorization Request Form found at: https://medicaid.utah.gov/forms. Ensure the following are completed:

1. ‘Previous Authorization Information’ section; and

2. ‘Additional Information’ section, including the dates the member was absent.

**Absence of more than three calendar days:**

Providers must request a new non-clinical PA by following the instructions in the Non-Clinical Prior Authorization (PA) Request section above. Ensure the following are completed:

1. ‘Previous Authorization Information’ section; and
2. ‘Additional Information’ section, including the date the member left the program.
6 PRIOR AUTHORIZATION POLICIES and PROCEDURES FOR LICENSED MENTAL HEALTH RESIDENTIAL TREATMENT PROGRAMS WITH 17 OR MORE BEDS

To prevent the delivery of unnecessary and inappropriate care to Medicaid members who have FFS Medicaid, and to provide for both necessity for care and appropriateness of care requests, a PA process has been implemented to review mental health treatment provided in licensed and accredited mental health residential treatment programs with 17 or more beds. (See Chapter 2-17, ‘Mental Health Treatment in Licensed Mental Health Residential Treatment Programs’, for policy and other requirements for licensed mental health residential treatment programs.) This policy and prior authorization requirements in this chapter do not apply to psychiatric hospitals.

The required PA request form is the Mental Health Residential Treatment Services – Individuals Age 21-64 Prior Authorization Request Form found at: https://medicaid.utah.gov/forms

6-1. Request Prior Authorization (PA)

In addition to the Utah Medicaid Provider Manual, Section I: General Information, Chapter 10, ‘Prior Authorization’, see additional PA requirements below.

A. Admission (Non-Clinical) PA Request

Providers must:

1. submit complete the Mental Health Residential Treatment Services – Individuals Age 21-64 Prior Authorization Request Form found at: https://medicaid.utah.gov/forms, and

   1. request no more than seven calendar days; and

   2. submit the PA request form no later than two business days after the date of admission. No supporting documentation is required.

Note: Members may receive only one non-clinical PA per treatment episode. If a PMHP, UMIC Plan or HOME has given a non-clinical PA and the member’s enrollment changes to FFS during the treatment episode, additional PA requests must be clinical PA requests.

B. Continued Stay (Clinical) PA Request

When additional days beyond those approved through the non-clinical PA request are medically necessary, providers must:

1. submit complete the Mental Health Residential Treatment Services – Individuals Age 21-64 Prior Authorization Request Form found at: https://medicaid.utah.gov/forms, and

   1. request no more than seven calendar days. Subsequent days would require a new clinical PA request;

   2. ensure the anticipated discharge date is included in the ‘Additional Information’ section;
3. complete documentation, in accordance with #4 of the ‘Record’ section of Chapter 2-17, that supports medical necessity for continued stay no earlier than four calendar days of (and including) the first requested date of service indicated on the PA request form; and

4. submit the PA request form and the clinical documentation no later than the first requested date of service indicated on the PA request form.

Note: No more than 60 calendar days may be authorized per treatment episode.

C. Transition Days

1. If the provider determines that medical necessity for continued stay is not met, the provider may request up to 14 calendar transition days to allow time to transition the member to the medically necessary ASAM level of care. Providers must:

   a. complete the PA request form and ensure that the ‘Additional Information’ section indicates that the request is for transition days; and

   b. submit the PA request form no later than the first date of service requested on the PA request form.

2. If the PA Unit determines that the clinical documentation submitted with a continued stay (clinical) PA request does not support continued stay, the PA Unit may authorize up to 14 calendar days to allow time to transition the member to the medically necessary ASAM level of care.

D. Member Absence from the Program

Absence of three calendar days or less:

Providers must request a modification to the current PA request by completing and submitting a new Mental Health Residential Treatment Services – Individuals Age 21-64 Prior Authorization Request Form found at: [https://medicaid.utah.gov/forms](https://medicaid.utah.gov/forms). Ensure the following are completed:

1. ‘Previous Authorization Information’ section; and

2. ‘Additional Information’ section, including the dates the member was absent.

Absence of more than three calendar days:

Providers must request a new non-clinical prior authorization by following the instructions in the ‘Non-Clinical PA Request’ section above. Ensure the following are completed:

1. ‘Previous Authorization Information’ section; and

2. ‘Additional Information’ section, including the date the member left the program.
