### State-specific metrics

Note: Licensee and states must prominently display the following Measures IET-AD, FUA-AD, FUM-AD, and AAP [Metrics #1: Information Set (HEDIS®) measures that are owned and copy HEDIS measures and specifications are not clinical guidelines for all potential applications. The measures and specification, representations, warranties or endorsements about the quality otherwise identified as meeting the requirements of a HEDIS r, warranties, or endorsement about the quality of any organization has no liability to anyone who relies on HEDIS measures or specifications.

The measure specification methodology used by CMS is different from the measure specifications but has granted CMS permission to adjust the measure specifications that has not been certified via NCQA's Measure Certification. Until it is audited and designated as a "HEDIS rate" until it is audited and designated as a reportable metric, such measure rates shall be designated or referred to as

<sup>a</sup> Report metrics that are one annual value for a demonstration :

<sup>b</sup> Enter any state-specific subpopulations that will be reported :

<sup>c</sup> Rates for these metrics reflect Uncertified, Unaudited HEDIS

<sup>d</sup> Rates 1 and 2 reported for Metric #17(1) correspond to rates  
1115 Substance Use Disorder Demonstrations: Technical Spec

<sup>e</sup> Rates 1 and 2 reported for Metric #17(2) correspond to rates  
1115 Substance Use Disorder Demonstrations: Technical Spec

**Checks:**

Numerator in #4 should equal the denominator in #30

The denominator in #23 should equal the denominator in #24

Numerator in #27 should equal the numerator in #26

Numerator in #30 should equal the numerator in #28

Denominator in #31 should equal the numerator in #5

Numerator in #31 should equal the numerator in #29

Counts for a subpopulation (e.g. pregnant, not pregnant) shoul

Q2

10/01/2020 - 12/31/2020

### Metric description

**EXAMPLE:**

*Number of beneficiaries screened for SUD treatment needs using a standardized screening tool during the measurement*

Number of beneficiaries screened for SUD treatment needs using a standardized screening tool during the measurement period

Number of beneficiaries who receive MAT or a SUD-related treatment service with an associated SUD diagnosis during the measurement period but not in the three months before the measurement period

Number of beneficiaries who receive MAT or a SUD-related treatment service with an associated SUD diagnosis during the measurement period and/or in the 11 months before the measurement period

Number of beneficiaries who receive MAT or a SUD-related treatment service with an associated SUD diagnosis during the measurement period and/or in the 12 months before the measurement period

Number of beneficiaries with a claim for residential or inpatient treatment for SUD in IMDs during the measurement period.

Number of beneficiaries enrolled in the measurement period receiving any SUD treatment service, facility claim, or pharmacy claim during the measurement period

Number of beneficiaries who used early intervention services (such as procedure codes associated with SBIRT) during the measurement period

Number of beneficiaries who used outpatient services for SUD (such as outpatient recovery or motivational enhancement therapies, step down care, and monitoring for stable patients) during the measurement period

Number of beneficiaries who used intensive outpatient and/or partial hospitalization services for SUD (such as specialized outpatient SUD therapy or other clinical services) during the measurement period

Number of beneficiaries who use residential and/or inpatient services for SUD during the measurement period

Number of beneficiaries who use withdrawal management services (such as outpatient, inpatient, or residential) during the measurement period

Number of beneficiaries who have a claim for MAT for SUD during the measurement period

The number of providers who were enrolled in Medicaid and qualified to deliver SUD services during the measurement period

The number of providers who were enrolled in Medicaid and qualified to deliver SUD services during the measurement period and who meet the standards to provide buprenorphine or methadone as part of MAT

Percentage of beneficiaries age 18 and older with a new episode of alcohol or other drug (AOD) abuse or dependence who received the following:

- Initiation of AOD Treatment—percentage of beneficiaries who initiate treatment through an inpatient AOD admission, outpatient visit, intensive outpatient encounter or partial hospitalization, telehealth, or medication treatment within 14 days of the diagnosis
- Engagement of AOD Treatment—percentage of beneficiaries who initiated treatment and who were engaged in ongoing AOD treatment within 34 days of the initiation visit

The following diagnosis cohorts are reported for each rate: (1) Alcohol abuse or dependence, (2) Opioid abuse or dependence, (3) Other drug abuse or dependence, and (4) Total AOD abuse or dependence. A total of 8 separate rates are reported for this measure.

- Initiation of AOD Treatment - Alcohol abuse or dependence
- Initiation of AOD Treatment - Opioid abuse or dependence
- Initiation of AOD Treatment - Other drug abuse or dependence
  
- Initiation of AOD Treatment - Total AOD abuse of dependence
  
- Engagement of AOD Treatment - Alcohol abuse or dependence
  
- Engagement of AOD Treatment - Opioid abuse or dependence
  
- Engagement of AOD Treatment - Other drug abuse or dependence
  
- Engagement of AOD Treatment - Total AOD abuse of dependence

**SUB-3:** Patients who are identified with alcohol or drug use disorder who receive or refuse at discharge a prescription for FDA-approved medications for alcohol or drug use disorder, OR who receive or refuse a referral for addictions treatment.

**SUB-3a:** Patients who are identified with alcohol or drug disorder who receive a prescription for FDA-approved medications for alcohol or drug use disorder OR a referral for addictions treatment.

Percentage of ED visits for beneficiaries age 18 and older with a principal diagnosis of AOD abuse or dependence who had a follow-up visit for AOD abuse or dependence. Two rates are reported:

- Percentage of ED visits for which the beneficiary received follow-up within 30 days of the ED visit (31 total days).

- Percentage of ED visits for which the beneficiary received follow-up within 7 days of the ED visit (8 total days).

Percentage of ED visits for beneficiaries age 18 and older with a principal diagnosis of mental illness or intentional self-harm and who had a follow-up visit for mental illness. Two rates are reported:

- Percentage of ED visits for mental illness for which the beneficiary received follow-up within 30 days of the ED visit (31 total days)

- Percentage of ED visits for mental illness for which the beneficiary received follow-up within 7 days of the ED visit (8 total days).

Percentage of beneficiaries age 18 and older who received prescriptions for opioids with an average daily dosage greater than or equal to 90 morphine milligram equivalents (MME) over a period of 90 days or more. Beneficiaries with a cancer diagnosis, sickle cell disease diagnosis, or in hospice are excluded.

The percentage of individuals  $\geq 18$  years of age who received prescriptions for opioids from  $\geq 4$  prescribers AND  $\geq 4$  pharmacies within  $\leq 180$  days.

The percentage of individuals  $\geq 18$  years of age who received prescriptions for opioids with an average daily dosage of  $\geq 90$  morphine milligram equivalents (MME) AND who received prescriptions for opioids from  $\geq 4$  prescribers AND  $\geq 4$  pharmacies. Percentage of beneficiaries age 18 and older with concurrent use of prescription opioids and benzodiazepines. Beneficiaries with a cancer diagnosis, sickle cell disease diagnosis, or in hospice are excluded.

Percentage of adults 18 years of age and older with pharmacotherapy for OUD who have at least 180 days of continuous treatment

Total number of ED visits for SUD per 1,000 beneficiaries in the measurement period

Total number of inpatient stays per 1,000 beneficiaries in the measurement period

The rate of all-cause readmissions during the measurement period among beneficiaries with SUD.

Number of overdose deaths during the measurement period among Medicaid beneficiaries living in a geographic area covered by the demonstration. The state is encouraged to report the cause of overdose death as specifically as possible (for example, prescription vs. illicit opioid).

Rate of overdose deaths during the measurement period among adult Medicaid beneficiaries living in a geographic area covered by the demonstration. The state is encouraged to report the cause of overdose death as specifically as possible (for example, prescription vs. illicit opioid).

Total Medicaid SUD spending during the measurement period.

Total Medicaid SUD spending on inpatient/residential treatment within IMDs during the measurement period.

Per capita SUD spending during the measurement period

Per capita SUD spending within IMDs during the measurement period

The percentage of Medicaid beneficiaries with SUD who had an ambulatory or preventive care visit during the measurement period.

Number of grievances filed during the measurement period that are related to SUD treatment services

Number of appeals filed during the measurement period that are related to SUD treatment services

Number of critical incidents filed during the measurement period that are related to SUD treatment services

The average length of stay for beneficiaries discharged from IMD inpatient/residential treatment for SUD.

*Utah will work with the University of Utah's Project ECHO program on Opioid, Addiction & Pain sessions. Utah will contact all Medicaid Prepaid Mental Health Plans (PMHP) will be required to implement online provider directories, updating annually to ensure that contact Utah will track MAT continuity with and without behavioral counseling therapy. Utah will identify high and low performing*

ing notice on any display of Measure rates:

*5, 17(1), 17(2), and 32] are Healthcare Effectiveness Data and righted by the National Committee for Quality Assurance (NCQA). s, do not establish a standard of medical care and have not been tested s are provided "as is" without warranty of any kind. NCQA makes no of any product, test or protocol identified as numerator compliant or measure or specification. NCQA makes no representations, ion or clinician who uses or reports performance measures and NCQA pecifications or data reflective of performance under such measures*

*ent from NCQA's methodology. NCQA has not validated the adjusted just. A calculated measure result (a "rate") from a HEDIS measure Program, and is based on adjusted HEDIS specifications, may not be rtable by an NCQA-Certified HEDIS Compliance Auditor. Until such "Adjusted, Uncertified, Unaudited HEDIS rates."*
