Topic I. Program Characteristics and Enrollment

Number	Indicator	Response
BI.1	**Statewide Medicaid enrollment** Enter the average number of individuals enrolled in Medicaid per month during the reporting year (i.e., average member months). Include all FFS and managed care enrollees and count each person only once, regardless of the delivery system(s) in which they are enrolled.	377,710
BI.2	**Statewide Medicaid managed care enrollment** Enter the average number of individuals enrolled in any type of Medicaid managed care per month during the reporting year (i.e., average member months). Topic III. Encounter Data Report

Number	Indicator	Response
BIII.1	**Data validation entity** Select the state agency/division or contractor tasked with evaluating the validity of encounter data submitted by MCPs. Topic X: Program Integrity

Number	Indicator	Response
BX.1	**Payment risks between the state and plans** Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities. If no PI activities were performed, enter 'No PI activities were performed during the reporting period' as your response. 'N/A' is not an acceptable response.	The Utah Office of Inspector General (UOIG) focused on several activities to identify, address, and prevent fraud, waste, and abuse within Utah's managed care plans (MCPs). Using MCP encounter data to identify areas of concern, the UOIG reviewed inpatient data to determine if a member's hospital admission met billing criteria, outpatient data to determine if evaluation and management codes were billed appropriately, and site visits to review medical records of outlier encounters. The UOIG notified the MCPs' special investigation units to recover funds, as necessary.
BX.2	**Contract standard for overpayments** Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	State has established a hybrid system
BX.3	**Location of contract provision stating overpayment standard** Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).	Attachment B-Special Provisions, Articles 11.1.6 and 11.1.7.
BX.4	**Description of overpayment contract standard** Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.	The plans may retain their overpayment recoveries. If the OIG collects the overpayment it retains its recoveries. The OIG is only responsible to make collections after the plans have had 12 months to make collections.
BX.5	**State overpayment reporting monitoring**	Per ACO contracts, Attachment B-Special Provisions 6.1.3 and 11.1.5, plans must submit quarterly overpayment reports. The state

	Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting? The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment topics (whether annually or promptly). This indicator is asking the state how it monitors that reporting.	monitors these quarterly reports, including the timeliness of reporting.
BX.6	**Changes in beneficiary circumstances** Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).	Enrollments are determined daily with the receipt of the Eligibility File from DWS. The system automatically evaluates eligibility for new enrollments or changes in enrollment and takes the appropriate action in the system. An Benefit Enrollment and Maintenance (834) file is sent to each plan daily through the clearinghouse (UHIN) based on member enrollment activity. Any deviation in the expected file or file size would prompt an email from either the Plan or UHIN to the state to confirm. The state also monitors for the complete file transmission to UHIN. In addition, an Audit 834 file is also sent monthly to each plan with a retrospective point in time roster for reconciliation purposes.
BX.7a	**Changes in provider circumstances: Monitoring plans** Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.	Yes
BX.7b	**Changes in provider circumstances: Metrics** Does the state use a metric or indicator to assess plan reporting performance? Select one.	No
BX.8a	**Federal database checks: Excluded person or entities** During the state's federal database checks, did the state find any person or entity excluded? Select one. Consistent with the	No

	requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.	
BX.9a	**Website posting of 5 percent or more ownership control** Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).	Yes
BX.9b	**Website posting of 5 percent or more ownership control: Link** What is the link to the website? Refer to 42 CFR 602(g)(3).	https://medicaid.utah.gov/Documents/pdfs/Ownership%20MCE.pdf
BX.10	**Periodic audits** If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, provide the link(s) to the audit results. Refer to 42 CFR 438.602(e). If no audits were conducted, please enter 'No such audits were conducted during the reporting year' as your response. 'N/A' is not an acceptable response.	An audit is currently in process and should be completed in early 2025.

The most impactful change this year was the Medicaid unwinding completed in April 2024.

Topic III: Encounter Data Report

Number	Indicator	Response
C1III.1	**Uses of encounter data** For what purposes does the state use encounter data collected from managed care plans (MCPs)? Select one or more. Federal regulations require that states, through their contracts with MCPs, collect and maintain sufficient enrollee encounter data to identify the provider who delivers any item(s) or service(s) to enrollees (42 CFR 438.242(c)(1)).	Rate setting Quality/performance measurement Monitoring and reporting Contract oversight Program integrity Policy making and decision support
C1III.2	**Criteria/measures to evaluate MCP performance** What types of measures are used by the state to evaluate managed care plan performance in encounter data submission and correction? Select one or more. Federal regulations also require that states validate that submitted enrollee encounter data they receive is a complete and accurate representation of the services provided to enrollees under the contract between the state and the MCO, PIHP, or PAHP. 42 CFR 438.242(d).	Timeliness of initial data submissions Timeliness of data corrections Timeliness of data certifications Use of correct file formats Provider ID field complete Overall data accuracy (as determined through data validation)
C1III.3	**Encounter data performance criteria contract language** Provide reference(s) to the contract section(s) that describe the criteria by which managed care plan performance on encounter data submission and correction will be measured. Use contract section references, not page numbers.	Attachment B- Special Provisions- Article 12.3.1 Encounter Data, Generally

C1III.4	**Financial penalties contract language** Provide reference(s) to the contract section(s) that describes any financial penalties the state may impose on plans for the types of failures to meet encounter data submission and quality standards. Use contract section references, not page numbers.	Attachment B- Special Provisions- Article 12.3.1 Encounter Data, Generally, and ; Article 14.3.2 Liquidated Damages, per Day Amounts
C1III.5	**Incentives for encounter data quality** Describe the types of incentives that may be awarded to managed care plans for encounter data quality. Reply with “N/A” if the plan does not use incentives to award encounter data quality.	N/A
C1III.6	**Barriers to collecting/validating encounter data** Describe any barriers to collecting and/or validating managed care plan encounter data that the state has experienced during the reporting year. If there were no barriers, please enter 'The state did not experience any barriers to collecting or validating encounter data during the reporting year' as your response. 'N/A' is not an acceptable response.	Utah Medicaid implemented a new MMIS system called PRISM in April 2023. During the implementation, system issues and defects were identified that prohibitied the collection of encounter data timely. This was an issue with the State system, not the Managed Care Plan. Utah Medicaid has worked with the MMIS vendor to correct the issues, allowing the encounter submission process to begin and catch up on the prior periods.

Topic IV. Appeals, State Fair Hearings & Grievances

Number	Indicator	Response
C1IV.1	**State's definition of "critical incident", as used for reporting purposes in its MLTSS program** If this report is being completed for a managed care program that covers LTSS, what is the definition that the state uses for "critical incidents" within the managed care program? Respond with "N/A" if the managed care program does not cover LTSS.	N/A
C1IV.2	**State definition of "timely" resolution for standard appeals** Provide the state's definition of timely resolution for standard appeals in the managed care program. Per 42 CFR §438.408(b)(2), states must establish a timeframe for timely resolution of standard appeals that is no longer than 30 calendar days from the day the MCO, PIHP or PAHP receives the appeal.	Attachment B 8.3.4- Timeframes for Standard Appeal Resolution and Notification- (A) The Contractor shall complete each standard Appeal and provide a Notice of Appeal Resolution to the affected parties as expeditiously as the Enrollee's health condition requires, but no later than 30 calendar days from the day the Contractor receives the Appeal request.
C1IV.3	**State definition of "timely" resolution for expedited appeals** Provide the state's definition of timely resolution for expedited appeals in the managed care program. Per 42 CFR §438.408(b)(1), states must establish a timeframe for timely resolution of grievances that is no longer than 90 calendar days from the day the MCO, PIHP or PAHP receives the grievance.	Attachment B.8.6.4- Timeframes for Grievance Resolution and Notification- (A) The Contractor shall dispose of each Grievance and provide notice to the affected parties as expeditiously as the Enrollee's health condition requires, but not to exceed 90 calendar days from the day the Contractor receives the Grievance."

Topic V. Availability, Accessibility and Network Adequacy

Network Adequacy

Number	Indicator	Response
C1V.1	**Gaps/challenges in network adequacy** What are the state's biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting access standards. If the state and MCPs did not encounter any challenges, please enter 'No challenges were encountered' as your response. 'N/A' is not an acceptable response.	A big challenge for the dental managed care networks in the rural and frontier counties is finding dental specialists, including endodontists, prosthodontists, and oral surgeons. Many of these specialists are not willing to provide services to Medicaid members.
C1V.2	**State response to gaps in network adequacy** How does the state work with MCPs to address gaps in network adequacy?	The dental plans address the specialist shortage by helping members find general dentists who can perform speciality care services within the scope of their licensure. Dental plans may have to execute a single case agreements with a non-network provider for speciality care services. They also may pay a higher fee schedule tto some of their in-network specialists. For example, dental plans may pay higher fee schedules to endodontists in rural and frontier counties because of a lack of endo providers in rural and frontier counties. The State supports the managed care plans' efforts to address their network adequacy challenges and woks with the plans to identify other corrective measures.

Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

Topic IX: Beneficiary Support System (BSS)

Number	Indicator	Response
C1IX.1	**BSS website** List the website(s) and/or email address(es) that beneficiaries use to seek assistance from the BSS through electronic means. Separate entries with commas.	https://medicaid.utah.gov/health-program-representatives/, https://medicaid.utah.gov/mybenefits-login/
C1IX.2	**BSS auxiliary aids and services** How do BSS entities offer services in a manner that is accessible to all beneficiaries who need their services, including beneficiaries with disabilities, as required by 42 CFR 438.71(b)(2))? CFR 438.71 requires that the beneficiary support system be accessible in multiple ways including phone, Internet, in-person, and via auxiliary aids and services when requested.	Beneficiaries are able to access support services through a variety of ways. The main access point for beneficiaries is to call our Health Program Representatives (HPRs) Monday - Friday, between 8:00 A.M. and 5:00 P.M. HPRs can receive calls in both English and Spanish. If there are other languages spoken by the beneficiaries, translators can be used in a 3 way call. Relay services can also be used for the hearing impaired. Beneficiaries are able to access their benefit information online by using the MyBenefits portal. In the MyBenefits portal, beneficiaries can see all of their coverage information, including Co-pay information, Medical plan, Dental Plan, Mental Health plan, etc. They can also request a Non-emergency transportation card through the portal. Beneficiaries can also email our HPR team at any time. The email questions and requests are answered daily by the HPR team.
C1IX.3	**BSS LTSS program data** How do BSS entities assist the state with identifying, remediating, and resolving systemic issues based on a review of LTSS program data such as grievances and appeals or critical incident data? Refer to 42 CFR 438.71(d)(4).	N/A. The managed care plans are not responsible for LTSS under the contract.
C1IX.4	**State evaluation of BSS entity performance** What are steps taken by the state to evaluate the quality, effectiveness, and efficiency of the BSS entities' performance?	The State maintains goals for the telephone system. The HPR team has a set goal that the average speed of calls answered will be under 1 minute, 30 seconds. The abandonment rate for calls is to be under 6%. Calls are also monitored and reviewed for accuracy by lead workers and Supervisors.
