Such supports include assistance with the following: general life skills, behavioral support, recreation and social interaction through active involvement in the community;
- Has medical, psychological and nutritional (dietary) supports available; and
- Supports individuals who are of school age to remain in the education system and supports older individuals to explore and participate in vocational opportunities through supported employment and vocational workshops.

## Who is eligible?

To be eligible, individuals must:

- Meet the level of care criteria as verified by dedicated nurses at the Utah Department of Health,
- Have a diagnosis of intellectual disability or other related condition and require at least weekly interventions by a health care professional, and
- Meet the financial eligibility requirements for Medicaid if funding for services is to be provided by Medicaid.

## Anything else should I know?
