

MCAC - Medicaid Unwinding Report

December 21, 2023

Volume

Individuals Open for Medicaid

Monthly Updates

- December is our tenth month of unwinding the continuous enrollment requirement in Medicaid.
- Utah experienced approximately 29,000 closures on November 30th.
- Utah implemented automated ex parte on September 22. Implementation has been successful and we continue to monitor and work through any system issues.

This has allowed eligibility workers to focus on cases that need worker intervention.

- Utah's Unwinding Data Dashboard and CMS monthly metrics present our monthly metrics differently.

The Unwinding Data Dashboard presents the total unwinding workload with monthly updates on review outcomes, children moving from Medicaid to CHIP, new and returning members, other DWS workload, PE applications and call volumes.

The CMS monthly metrics are designed to support CMS in tracking the state's monthly progress. The CMS metrics are designed to *only* look at individuals due for review in the prior month, which can result in an incomplete picture. CMS reports are due on the 8th of each month.

- Portions of the Unwinding Data Dashboard refreshed on 12/8/2023.

- We completed our 9th CMS report (baseline data + 9 months) The CMS report limits their universe to those cases with a review due in the month. That report showed that 34,456 individuals were reviewed.
 - 12,707 stay with Medicaid/CHIP
 - 345 were no longer eligible and automatically referred to the Federal Marketplace.
 - 16,851 closed for paperwork - the number one closure reason was incomplete review.
- The Public Health Emergency (PHE) ended on May 11, 2023. Those receiving COVID-19 limited coverage were closed on that day. (15,737 served in April)
