

# Post-Unwinding Data Analysis and Strategy

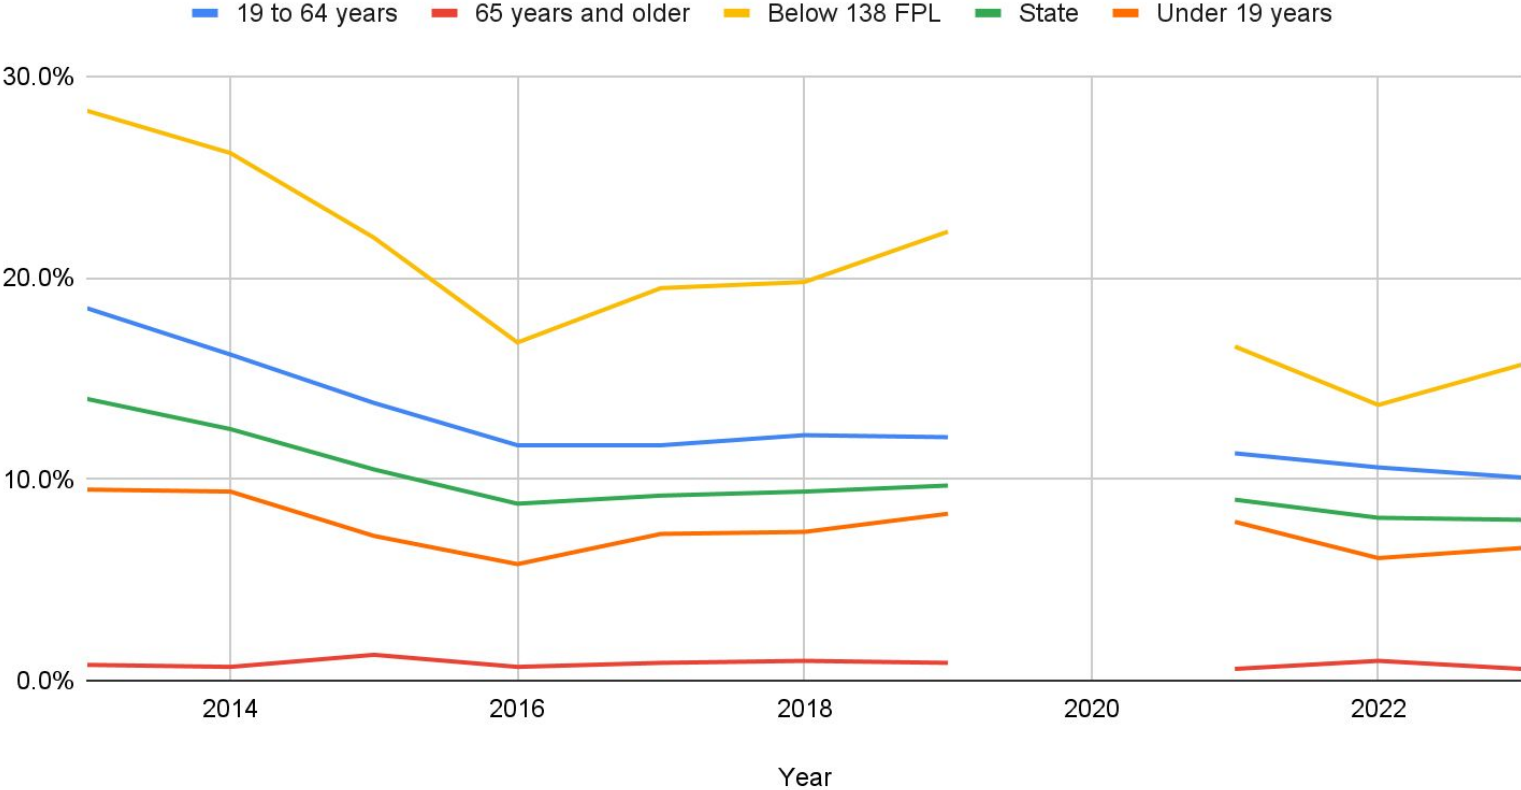

---

October 17, 2024

## Request

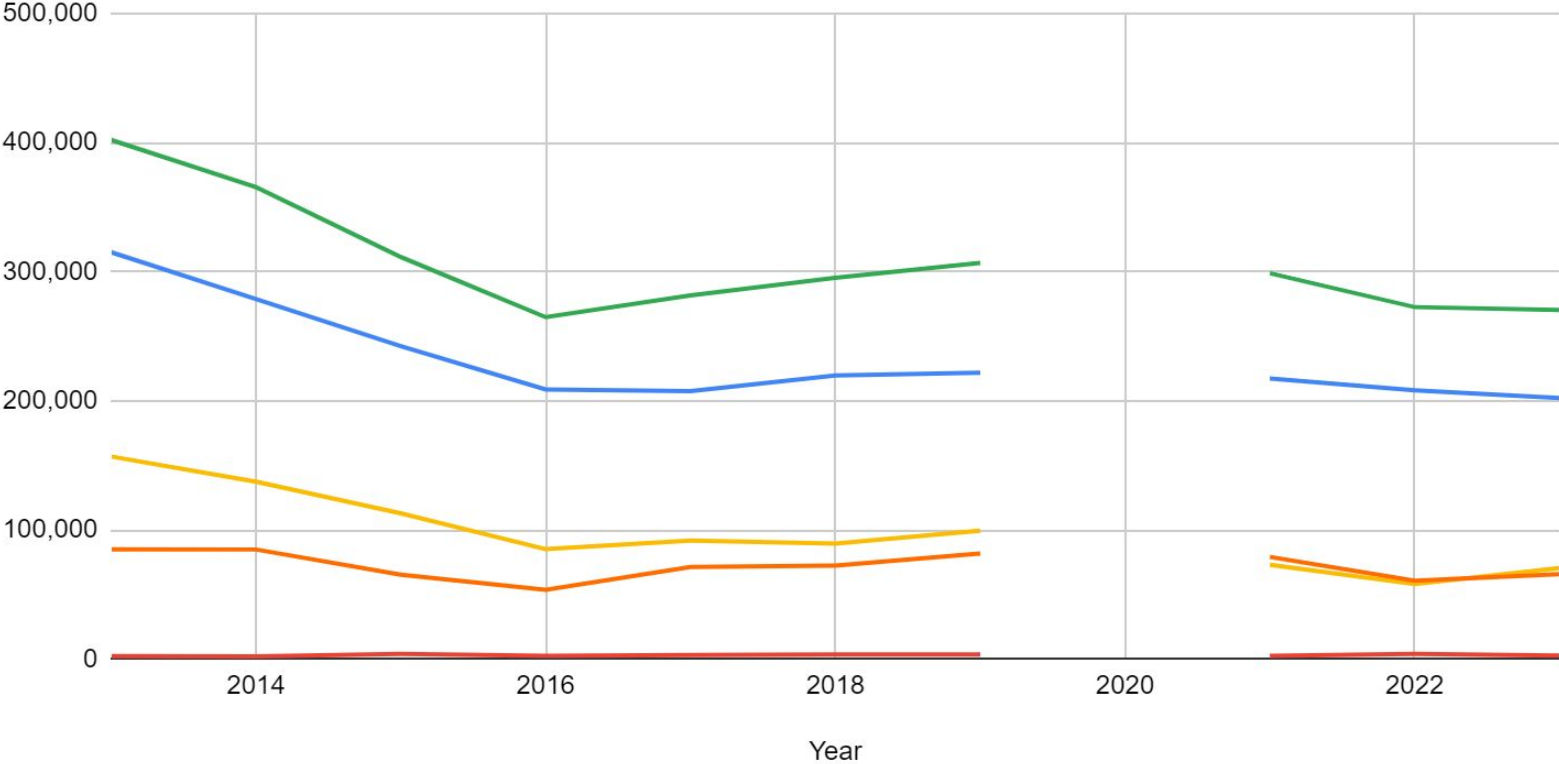

- Originated from September 19, 2024 MCAC meeting, during a discussion about the new [American Community Survey data](#).
- Question about Utah's higher rate of uninsured individuals below 138% FPL compared to the statewide population.
- How does this compare to other states?
- Strategy

# Utah Percent Uninsured - Subcategory

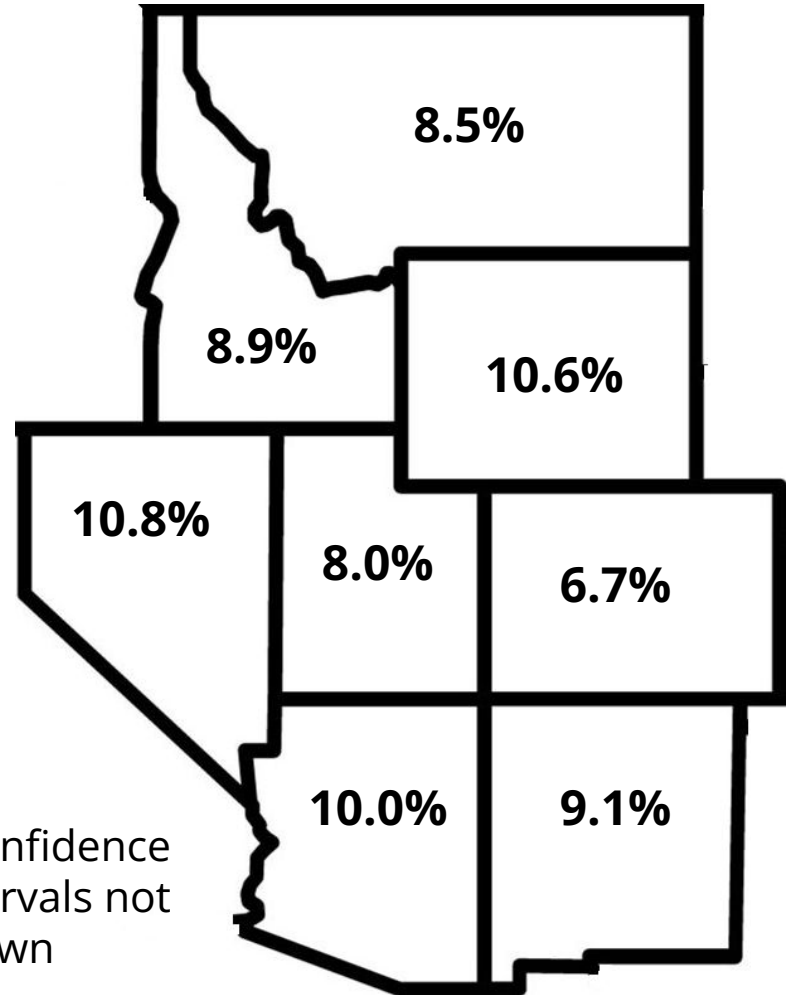

# Utah Number Uninsured - Subcategory

19 to 64 years    65 years and older    Below 138 FPL    State    Under 19 years

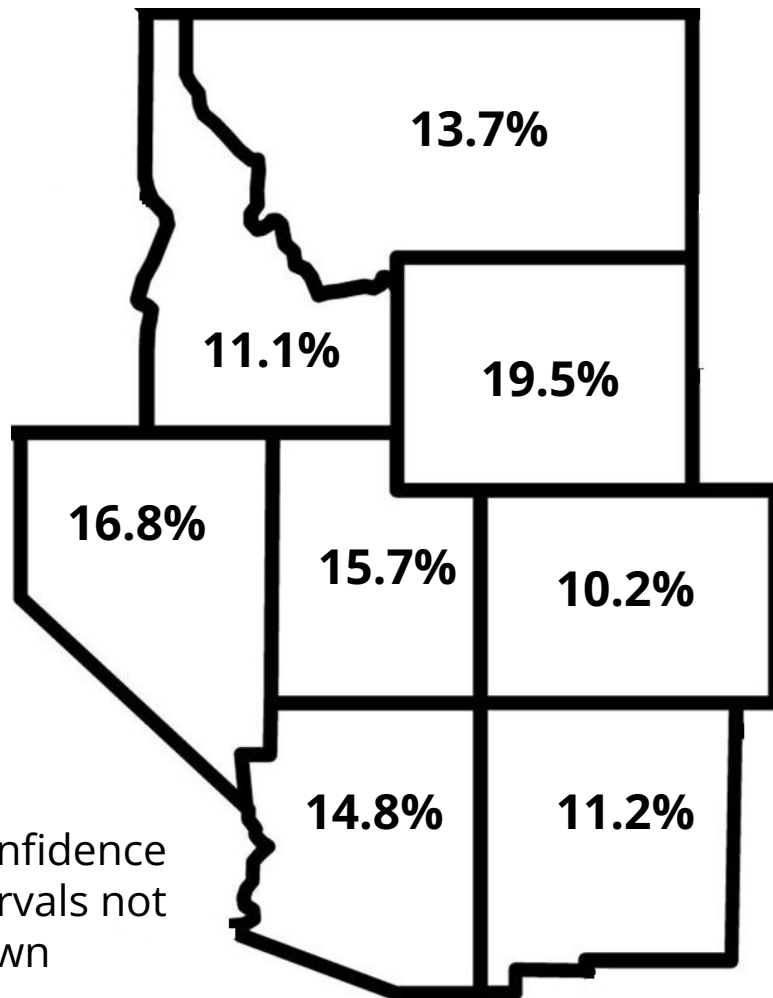

# Surrounding States Uninsured Rate\* Total (2023)

---

\*Confidence intervals not shown

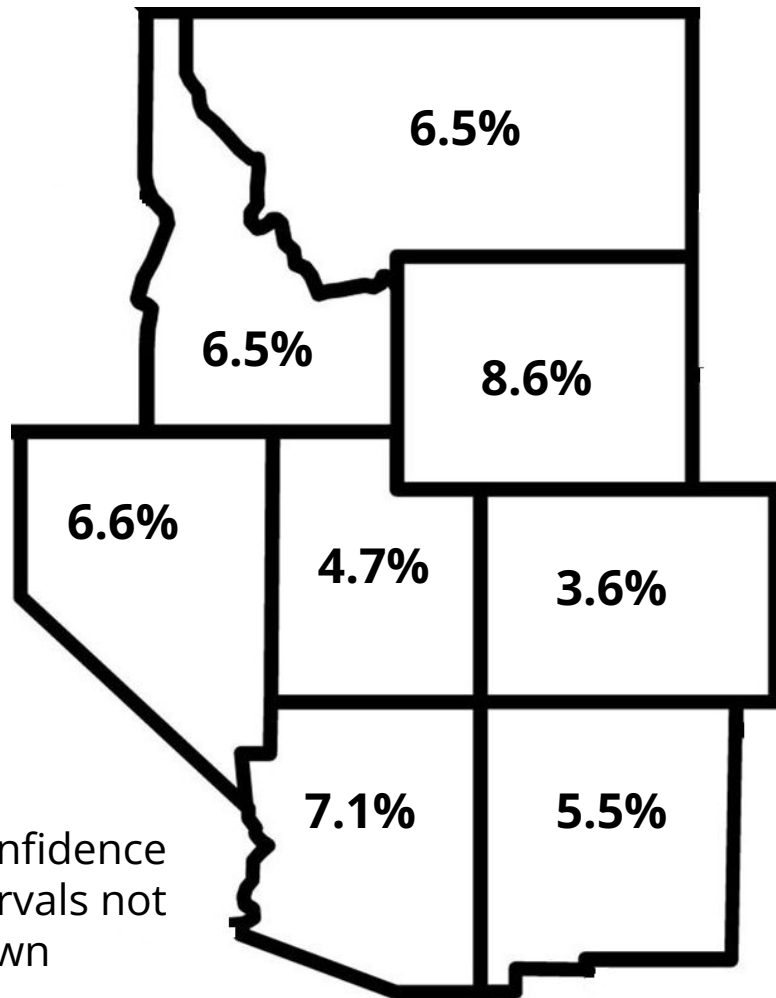

# Surrounding States Uninsured Rate\* <138% FPL (2023)

\*Confidence intervals not shown

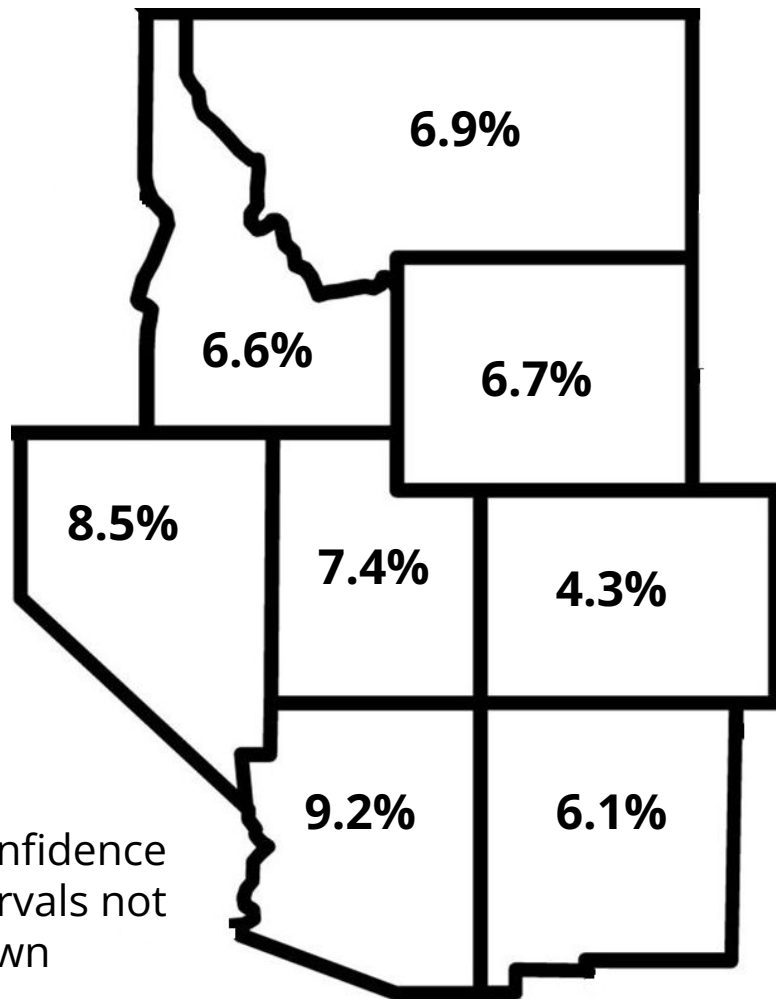

# Surrounding States Uninsured Rate\* Under 6 Years (2023)

---

\*Confidence intervals not shown

# Surrounding States Uninsured Rate\* 6-18 Years (2023)

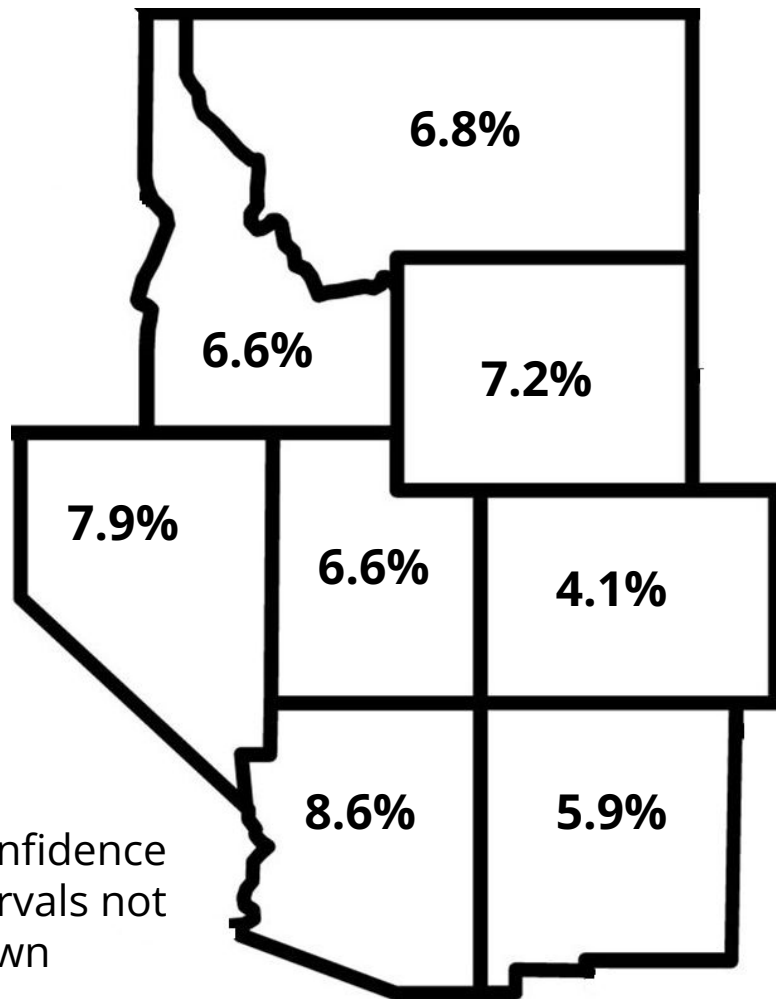

\*Confidence intervals not shown

# Surrounding States Uninsured Rate\* Under Age 19 (2023)

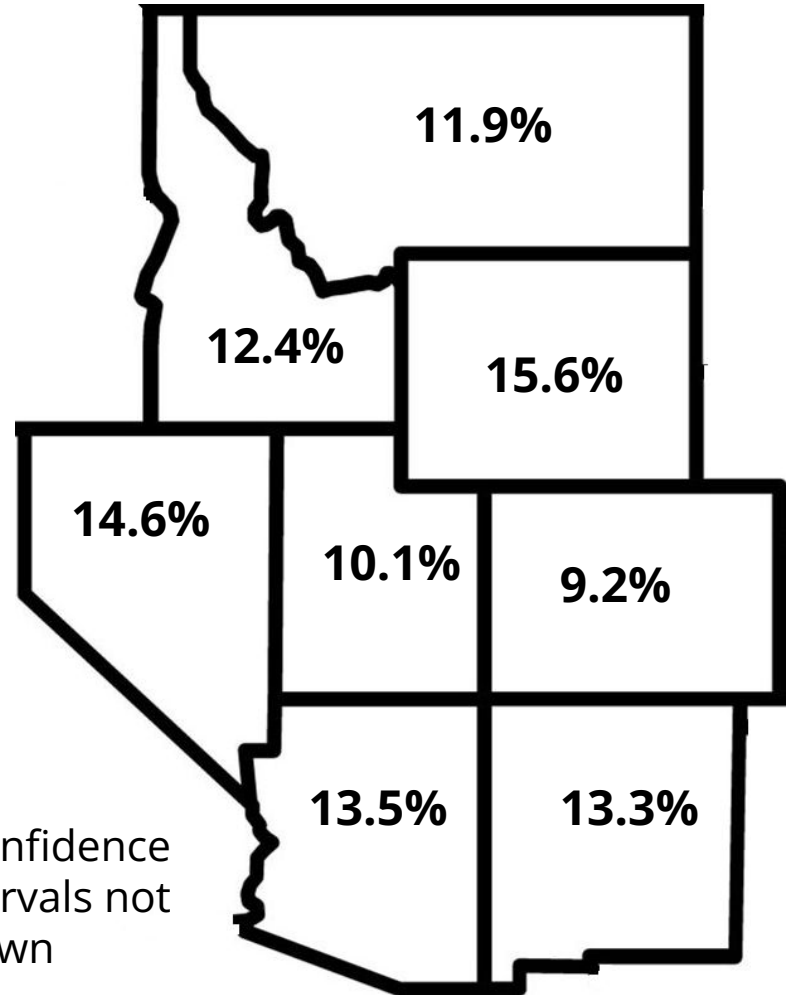

---

\*Confidence intervals not shown

# Surrounding States Uninsured Rate\* Age 19-64 (2023)

---

\*Confidence intervals not shown

# Strategy

- 2024 programs
  - 12-month continuous, postpartum, State CHIP
- Continued Implementation of 2024 Eligibility Final Rule
  - Reasonable compatibility for assets
  - Improved transitions between Medicaid and CHIP
- Continuation of approved e14 flexibilities
- Continuation of Ex Parte automation
- 1-pager for application and review process
- Use of SNAP/TANF income as a data source
