---

Unable to report **No**

---

1b. Total disability-related applications	<b>20</b>
---	-----------

---

Unable to report	<b>No</b>
------------------	-----------

---

**Metric 1 Notes**

1. The State of Utah has worked to clean up our pending applications data. We have removed duplicate cases, non-medical program applications, switching between program counted as applications, etc.

1a. When the State of Utah receives a medical application, they are all registered as a "generic medical" program until a worker can address the application and determine which coverage group the application belongs with (MAGI or Non-MAGI). All the generic medical programs are added to the this line.

1b. Line 1a includes potential pending disability applications that have not been identified yet. This number is specific to those we have identified as disability related applications.

2. Of those applications included in Monthly Metric 1, the total number of applications completed as of the last day of the reporting period	<b>131</b>

5b. Of the beneficiaries included in Metric 5, the number determined ineligible for Medicaid or CHIP (and transferred to Marketplace)	<b>2815</b>
---	-------------

---

Unable to report	<b>No</b>
------------------	-----------

---

**Metric 5b Notes**

Although 2,228 individuals were determined ineligible, only 1,730 individuals were sent to the Marketplace prior to June 1. We recognize this was a lower number than expected and continue to investigate the system issue to ensure all individuals determined ineligible are timely transferred to the Marketplace. A system fix was implemented mid month last month, which could account for the difference in numbers. Any beneficiaries identified with the system fix were sent to the marketplace.

This number includes individuals who have passed away, moved out of state, or requested closure; these closure reasons would not result in a transfer to the marketplace.
