Section 7 – General Provisions

7.5. Medicaid Disaster Relief for the COVID-19 National Emergency

On March 13, 2020, the President of the United States issued a proclamation that the COVID-19 outbreak in the United States constitutes a national emergency by the authorities vested in him by the Constitution and the laws of the United States, including sections 201 and 301 of the National Emergencies Act (50 U.S.C. 1601 et seq.), and consistent with section 1135 of the Social Security Act (Act). On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of the United States Department of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. This authority took effect as of 6PM Eastern Standard Time on March 15, 2020, with a retroactive effective date of March 1, 2020. The emergency period will terminate, and waivers will no longer be available, upon termination of the public health emergency, including any extensions.

The State Medicaid agency (agency) seeks to implement the policies and procedures described below, which are different than the policies and procedures otherwise applied under the Medicaid state plan, during the period of the Presidential and Secretarial emergency declarations related to the COVID-19 outbreak (or any renewals thereof), or for any shorter period described below:

N/A

NOTE: States may not elect a period longer than the Presidential or Secretarial emergency declaration (or any renewal thereof). States may not propose changes on this template that restrict or limit payment, services, or eligibility, or otherwise burden beneficiaries and providers.

ARPA Spending Plan Supplemental Payments

1. Based on paid data from April 1, 2021 through March 31, 2023, the agency increases payment for the providers referenced in Utah’s American Rescue Plan Act Home and Community Based Services Enhanced Funding Spending Plan and that are listed in Appendix B., or could be listed in Appendix B., of the American Rescue Plan Act, State Medicaid Director Letter, SMD# 21-003 Implementation of American Rescue Plan Act of 2021 Section 9817: including:

   a. Home Health Services
   b. Private Duty Nursing – in home services only
   c. Hospice Services – in home services only
   d. Personal Care Services
   e. School Based Services
   f. Rehabilitative Services - Behavioral Health Services
   g. Early Periodic Screening Diagnosis and Treatment, Autism Spectrum Disorder Related Services

2. Temporary supplemental payments will be made based on the following criteria:

   a. Eligibility for quarterly supplemental payments require providers to attest to the following:

      i. An understanding these are time-limited payments which are anticipated to not extend beyond March 2024
      ii. An agreement that a portion of the funds will be used to address direct-care worker issues (i.e., salary/benefit increases, staff retention bonuses, employer paid training, provision of PPE, paid time to receive vaccinations, etc.)
      iii. An agreement that funds will be used to expand, enhance or strengthen their program

   b. Payments are increased through a supplemental payment:

      i. The State will make supplemental payments to qualified providers who have made an attestation per (2)(a).

      ii. The quarterly payments will equal 5 percent of the claims (fee for service based on paid date and managed care encounters based on state received date) from the previous quarter. For example, April, May and June paid claims will be used to inform the payment for that period. If $100 were paid in that period, the quarterly payment will be $5. The exact timing of payments may vary; however, the payments will be based on the example noted.

      iii. The payments are made to billing providers.
Section 7 – General Provisions

7.5. Medicaid Disaster Relief for the COVID-19 National Emergency

On March 13, 2020, the President of the United States issued a proclamation that the COVID-19 outbreak in the United States constitutes a national emergency by the authorities vested in him by the Constitution and the laws of the United States, including sections 201 and 301 of the National Emergencies Act (50 U.S.C. 1601 et seq.), and consistent with section 1135 of the Social Security Act (Act). On March 13, 2020, pursuant to section 1135(b) of the Act, the Secretary of the United States Department of Health and Human Services invoked his authority to waive or modify certain requirements of titles XVIII, XIX, and XXI of the Act as a result of the consequences COVID-19 pandemic, to the extent necessary, as determined by the Centers for Medicare & Medicaid Services (CMS), to ensure that sufficient health care items and services are available to meet the needs of individuals enrolled in the respective programs and to ensure that health care providers that furnish such items and services in good faith, but are unable to comply with one or more of such requirements as a result of the COVID-19 pandemic, may be reimbursed for such items and services and exempted from sanctions for such noncompliance, absent any determination of fraud or abuse. This authority took effect as of 6PM Eastern Standard Time on March 15, 2020, with a retroactive effective date of March 1, 2020. The emergency period will terminate, and waivers will no longer be available, upon termination of the public health emergency, including any extensions.

The State Medicaid agency (agency) seeks to implement the policies and procedures described below, which are different than the policies and procedures otherwise applied under the Medicaid state plan, during the period of the Presidential and Secretarial emergency declarations related to the COVID-19 outbreak (or any renewals thereof), or for any shorter period described below:

The amended changes to the school-based services payment methodology in this SPA are effective July 1, 2021, through September 30, 2021.

NOTE: States may not elect a period longer than the Presidential or Secretarial emergency declaration (or any renewal thereof). States may not propose changes on this template that restrict or limit payment, services, or eligibility, or otherwise burden beneficiaries and providers.

Request for Waivers under Section 1135

The agency seeks the following under section 1135(b)(1)(C) and/or section 1135(b)(5) of the Act:

a. ☑ SPA submission requirements – the agency requests modification of the requirement to submit the SPA by March 31, 2020, to obtain a SPA effective date during the first calendar quarter of 2020, pursuant to 42 CFR 430.20.

b. ☑ Public notice requirements – the agency requests waiver of public notice requirements that would otherwise be applicable to this SPA submission. These requirements may include those specified in 42 CFR 440.386 (Alternative Benefit Plans), 42 CFR 447.57(c) (premiums and cost sharing), and 42 CFR 447.205 (public notice of changes in statewide methods and standards for setting payment rates).
c. □ Tribal consultation requirements – the agency requests modification of tribal consultation timelines specified in Utah Medicaid state plan, as described below:

The Department presented this SPA to the Utah Indian Health Advisory Board on September 10, 2021, as an initial step in the consultation process. The Board had questions regarding FFS reimbursement for certain rehabilitative services such as physical therapy, occupational therapy, and speech therapy. The Department responded that by federal mandate, institutions of public education provide these services to students free of charge. The Board also asked whether Native American children would be covered under the program. The Department affirmed they can be covered as long as they are enrolled in Medicaid with a school district that participates.

- Audiology Services;
- Occupational Therapy (OT);
- Physical Therapy (PT);

All costs described within this methodology are for Medicaid services provided by qualified personnel or qualified health care professionals who have been approved under Attachments 3.1-A and 3.1-B of the Medicaid state plan.

B. Direct Medical Payment Methodology

LEAs will be paid on a cost basis. LEAs will be reimbursed interim rates for SDS direct medical services. On an annual basis, an LEA-specific cost reconciliation and cost settlement for all over and under payments will be processed.

1. Participating SDS LEAs are reimbursed interim payments based on a monthly calculated rate. Interim payments under the SDS Program are calculated prior to the school year beginning and are divided into twelve equal monthly installments, to be paid July 1 through June 30. Interim payments shall be ties to claim submissions by the LEA.

   a. For the 2021-22 school year, the interim rates were calculated based on the LEA’s reported costs from the 2019-20 school year.

   b. For the 2022-23 school year, the interim rates were calculated using the cost data for the direct service cost pools from the October-December 2021 quarterly financial submissions for the administrative claims.
c. For the 2023-24 and subsequent years, the interim rates shall be based on the LEA’s actual, certified costs identified in their most recently filed annual cost report from the prior fiscal year.

d. For a new participating LEA, the interim rate shall be calculated based on statewide historical data.

e. When an LEA’s Total Medicaid Allowable Cost amount has been calculated following the processes defined in the following sections, the amount is then divided by 12 to arrive at a monthly rate figure. These monthly rates will be implemented to support the interim payments for the following fiscal year. Each LEA will have their own monthly rate inclusive of their Medicaid Allowable Costs for both of the direct service cost pools.

f. The LEA is then given the option to request that the monthly amount be paid at either 80% or 90% of the total calculated amount. The percentage is applied in an effort to minimize LEA overpayments.

g. A cost reconciliation and cost settlement is completed annually as described in Sections G and H. If an LEA’s total monthly interim payments for the year exceed their costs to render services, the LEA will be invoiced the difference and the state will recoup the amount. If the total amount of monthly interim payments for the year is less than what the LEA’s costs were to render services, the LEA will be reimbursed the difference.

2. LEAs will continue to submit claims for Medicaid covered services rendered, but will not be paid for claim charges. All claims will be submitted to Medicaid with a $.00 charge. LEAs will only be paid through the monthly interim payment.

C. Data Capture for the Cost of Providing School-Based Skills Development Services

Data capture for the cost of providing SDS will be accomplished utilizing the following data sources:

1. Total direct and indirect costs, less any federal payments for these costs, will be captured utilizing the following data:
   a. SDS cost reports received from LEAs;
   b. Utah State Board of Education (USBE) Unrestricted Indirect Cost Rate (UICR);
      i. The unrestricted indirect cost rate is derived from costs having to do with administrative, overhead maintenance and other support services. Staff included on the LEA’s staff pool list are not paid from these areas.
      ii. LEAs are specifically instructed that costs from accounting codes that are used in the calculation of the unrestricted indirect cost rate are not to be included in the reported expenditures. This ensures that there is no duplication of costs for indirect rates.
      iii. Some LEAs do not have a calculated USBE Unrestricted Indirect Cost Rate (UICR). For those that do not have one calculated, a de minimis rate of 10% will
be charges to Medicaid. All LEAs with a calculated UICR will use their calculated rate.

c. Random Moment Time Study (RMTS) Activity Code 4B (Direct Medical Services) and Activity Code 10 (General Administration):

   i. Direct Medical IEP activity code is accounted for in the annual cost settlement report. It is distributed to the reimbursable codes based on the percentage of total time as dictated by the Random Moment Time Study.

   ii. General Administration code 10 is accounted for in both the quarterly Medicaid Administrative Claim as well as the annual Cost Reconciliation and Cost Settlement.

      a. General Administrative code 10 is a General Administrative Overhead Factor and is calculated to determine the amount of time that is eligible for reimbursement in the MAC Claim. General Administration is distributed to the reimbursable code based on the percentage of total time as dictated by the Random Moment Time Study.

      b. General administrative code 10 is also accounted for in the annual cost report. It is distributed to the reimbursable codes based on the percentage of total time as dictated by the Random Moment Time Study.

   iii. The resulting direct medical service percentages will be specific to each cost pool and reflected as a statewide average.

d. LEA specific Medicaid Enrollment Ratio (MER):

   i. For the purposes of the annual cost reconciliation and cost settlement process, the Medicaid Enrollment Ratio (MER) is referred to as the Medicaid IEP Ratio. This IEP Ratio is unique to each participating LEA and is used to apportion the Total Direct Medicaid Service costs between Medicaid and non-Medicaid. The ratio will be calculated based on a December 1 student count with the numerator reflecting the total number of students with a covered medical service in their IEP that are Medicaid enrolled and the denominator reflects the total number of all students with a covered medical service in their IEP.

D. Data Sources and Cost Finding Steps

The following provides a description of the data sources and steps to complete the cost finding and reconciliation:
1. Allowable Costs: Direct costs for direct medical services include unallocated payroll costs and other unallocated costs that can be directly charged to direct medical services. Direct payroll costs include total compensation (i.e., salaries and benefits and contract compensation) of direct services personnel listed in the descriptions of the covered Medicaid services delivered by LEAs in the Utah Administrative Code. These direct costs will be calculated on an LEA-specific level and will be reduced by any federal payments for these costs, resulting in adjusted direct costs.

Other direct costs include costs directly related to the approved direct services personnel for the delivery of medical services, such as medically related purchased services, supplies and materials. These direct costs are accumulated on the annual School-Based Skills Development Services Cost Report and are reduced by any federal payments for these costs, resulting in adjusted direct costs. The cost report contains the scope of cost and methods of cost allocation that have been approved by the Centers for Medicare & Medicaid Services (CMS).

The source of this financial data will be audited Chart of Account records kept at the LEA level. The Chart of Accounts is uniform throughout the State of Utah. Costs will be reported on an accrual basis.

a. Medically related purchased services include contracted services. LEAs report the amounts they pay to contracted providers as salaries. Benefits are not reported by the LEA for contracted staff.

   i. The USBE’s Unrestricted Indirect Cost Rate is multiplied by the sum of the LEA’s total regular staff salaries and the total contracted salaries.

b. Medicaid Direct Medical Service costs are funded by the state and local dollars. Any expenditures that are fully paid for using federal funds will be removed from the cost report. Expenditures that are partially funded by federal funds will be reduced by the amount of federal funds. Only the portion of expenditures paid for with state or local funds is included in the calculation of the Medicaid Direct Medical Service costs. Providers of Medicaid Direct Medical Service costs make up this non-federally funded cost pool.

   Allowable costs for this provider pool consist of:
   i. salaries;
   ii. benefits;
   iii. medically-related purchased services; and
   iv. medically-related supplies and materials

2. Indirect Costs: Indirect costs are determined by applying the LEA’s specific Unrestricted Indirect Cost Rate (UICR) to its adjusted direct costs. Utah LEAs use predetermined fixed rates for indirect costs. Utah State Board of Education (USBE) has, in cooperation with the United States Department of Education (DOE), developed an indirect cost plan to be used by LEAs in Utah. Pursuant to the authorization in 34 CFR §75.561(b), USBE approves unrestricted indirect cost rates for LEAs for the DOE, which is the cognizant agency for LEAs. If an LEA does not have a calculated UICR a de minimis rate of 10% will be utilized. Providers
are permitted only to certify Medicaid-allowable costs and are not permitted to certify
Medicaid-allowable costs and are not permitted to certify any indirect costs that are outside
their unrestricted indirect cost rate.

Indirect Cost Rate
a. Apply the Utah State Board of Education Cognizant Agency UICR applicable for the
dates of service in the rate year.
b. The UICR is the unrestricted indirect cost rate calculated by the Utah State Board of
Education.

To ensure non-duplication of costs, LEAs are instructed that costs from accounting codes that are
used in the calculation of the unrestricted indirect cost rate are not to be included in the reported
expenditures on the annual cost report.

3. Time Study Percentages: A time study separately approved by HHS (outside the state plan
process) must be approved before claiming and drawing down FFP for eligible services. This is
captured by using a Random Moment Time Study (RMTS) methodology, and is used to
determine the percentage of time that medical service personnel spend on IEP, general and
administrative time and all other activities to account for 100 percent of time to assure that
there is no duplicate claiming. The RMTS methodology will utilize three cost pools in total.
Two cost pools are for direct medical services and one cost pool for administrative activities.

   a. The first cost pool is the Direct Service cost pool and includes all eligible staff and other
      medical services providers except staff that primarily provide personal care and behavior
      modification services. These individuals are eligible to bill direct medical services. Eligible
      positions included in this cost pool are:

         • Audiologist;
         • Audiologist Aide;
         • Certified Occupational Therapy Assistant (COTA);
         • Licensed Practical Nurse;
         • Occupational Therapist;
         • Occupational Therapy Aide;
         • Orientation and Mobility Specialist;
         • Physical Therapist;
         • Physical Therapy Assistant (PTA);
         • Psychologist;
         • Registered Nurse;
         • School Counselor;
         • School Social Worker;
         • School Psychologist;
         • School Hearing Specialist;
         • Speech Language Pathologist;
         • Speech Language Pathology Aide;
         • Vision and Hearing Aide.
b. The second cost pool is the Other Direct Service cost pool and includes staff that primarily provide personal care and behavior services. These individuals are also eligible to bill direct medical services. Eligible positions included in this cost pool are:

- Health Special Education Teachers (who supply Personal Care and Behavior Services);
- Para Educator.

c. The third cost pool is the Administrative Outreach Personnel cost pool and includes individuals whose primary duties are administrative in nature. These individuals are not eligible to bill direct medical services. Staff included in the cost pool are not included on the annual cost report and the time study results for this cost pool are not included as part of any calculations for the annual cost reconciliation and cost settlement process. Examples of staff that are eligible to be included in this cost pool are:

- Administrators;
- Diagnosticians;
- Interpreters and Interpreter Assistants;
- Program Specialists;
- Pupil Support Services Administrators;
- Pupil Support Services Technicians;
- Special Education Administrators;
- Special Education Teachers;
- Special Education Coordinators;
- School Bilingual Assistants.

d. Staff cannot be included in more than one cost pool. If an individual performs job duties that correspond to more than one cost pool, the individual must be added to the cost pool that corresponds with their primary job responsibilities.

e. Participants from all cost pools complete RMTS for all regular school days, with a precision level of +/- 2% and a 95% confidence level.

f. Summer Vacation periods (when most students are not attending according to the LEA calendar) will use the weighted average of the other periods to provide compensation to providers paid during this period.

g. LEAs ensure an 85% response rate to the time study moments.

h. The RMTS will generate two Direct Medical Services time study percentages; one for Direct Medical Service Cost Pool and one for the Other Direct Service Cost Pool. Each Direct Medical Services time study percentage will be statewide averages. The direct medical services costs and time study results must be aligned to ensure proper cost allocation. The CMS approval letter for the time study will be maintained by the State of Utah and CMS.
4. Medicaid Ratio Determination: A Medicaid ratio will be established for each participating LEA. When applied, these ratios will discount the associated Direct Medical Service cost pools by the percentage of Medicaid-enrolled students.

   a. Medicaid IEP Ratio: The Medicaid IEP Ratio will be used in the calculation of the Medicaid Direct Medical Service costs pursuant to an IEP. The names, gender, and birthdates of students with an IEP identifying a covered service will be identified from the December 1 Count Report and matched against the Medicaid enrollment file to determine the percentage of those that are enrolled for Medicaid. The numerator of the rate will be the number of Medicaid enrolled students with an IEP identifying a covered service and the denominator will be the total number of students with an IEP identifying a covered service. The IEP ratio will be calculated for each LEA participating in the SDS program on an annual basis.

5. Contracted costs: LEAs can include contracted service costs for and contracted clinicians that were included on the Staff Pool List for the RMTS process. The contracted service costs represent the amounts charged to the LEA by the contractor or contracting agency and may include the costs associated with the clinician and any overhead incurred by the contractor that is charged back to the LEA. This cost does not include any overhead or other indirect costs incurred by the LEA to support the contracted clinician.

   a. Contracted service costs for direct medical services will be a separate line item in the cost report with the application of the LEA’s Unrestricted Indirect Cost Rate, and the LEA’s allocation using the Medicaid IEP Ratio.

   b. Contracted service costs for direct medical services and administrative services are part of the RMTS and the allocation to direct medical and administrative percentages, the LEA’s Unrestricted Indirect Cost Rate, and the LEA’s allocation using the Medicaid IEP Ratio.

   c. The LEA’s Unrestricted Indirect Cost Rate is applied to contracted service costs to reflect the overhead and administrative costs incurred by the LEA to support the contracted service clinician and are non-duplicative of any agency indirect costs charged to the LEA by the contractor.

6. Total Medicaid Reimbursable Cost: The result of the previous steps will be a total Medicaid reimbursable cost for each LEA for Direct Medical Services.

   Step 1. The Direct Service Personnel Costs (Salaries + Fringe Benefits + Contract Costs) will be added to the Direct Service Non-Personnel Costs (Materials and Supplies + Depreciation) to determine the Total Direct Services Costs
Step 2. The Total Direct Services Costs will then be multiplied by the Direct Medical Services Percentage (as determined by the RMTS and applied to the 2 Direct Medical cost pools on a statewide basis) to determine the Total Direct Medicaid Services Costs.

Step 3. The Total Direct Medical Services Costs will be multiplied by the Unrestricted Indirect Cost Rate to determine the total Indirect Costs.

Step 4. The Direct Medical Services Costs will be added to the Indirect Costs to determine the Total Allowable Costs.

Step 5. The Total allowable Costs will be multiplied by the Medicaid Enrollment IEP Ratio (calculated by each LEA) to determine the Total Medicaid Reimbursable Costs.

Step 6. Reconciliation process: The Total Medicaid Interim Payments will be subtracted from the Medicaid Reimbursable Costs to equal the Total Cost Settlement.

E. Certification of Funds Process

Each LEA certifies on an annual basis an amount of the interim payments received during the previous federal fiscal year. In addition, each LEA certifies on an annual basis through its cost report its total actual, incurred allowable costs/expenditures, including the federal share and the non-federal share.

LEAs are permitted only to certify Medicaid-allowable costs and are not permitted to certify any indirect costs that are outside their unrestricted indirect cost rate.

F. Annual Cost Report Process

Each LEA will complete an annual cost report for all SDS delivered during the previous state fiscal year covering July 1 through June 30. The cost report is due no later than one year after the close of the quarter ending June 30.

a. The primary purpose of the cost report is to
   i. document the LEA’s total Medicaid allowable scope of costs for delivering SDS, including direct costs and indirect costs, based on cost allocation methodology procedures

b. Cost reports will be subjected to a comprehensive review process prior to their use in the calculation of the interim rates.

   i. The review will be used to ensure the accuracy and appropriateness of the costs and allocation factors.

   ii. Awareness of Federal Audit and Documentation Regulations: The State Medicaid agency and any contractors used to help administer any part of the SDS program are...
aware of federal regulations listed below for audits and documentation, and will provide
documentation for MERs and any other documentation needed to support SDS claims

a. 42 CFR 431.107 Required provider agreement
b. 45 CFR 447.202 Audits
c. 45 CFR 75.302 Financial management and standards for financial
management systems

c. Cost reports will be used to reconcile its interim payments to its total Medicaid-allowable
scope of costs based on cost allocation methodology procedures.

i. The reconciliation will be used to ensure the accuracy and appropriateness of the costs
and allocation factors.

ii. The annual SDS Cost Report includes a certification of funds statement to be
completed, certifying the LEA's actual, incurred costs/expenditures. All filed annual SDS
Cost Reports are subject to a desk review by the Division of Integrated Healthcare (DIH)
or its designee.

G. The Cost Reconciliation Process

The cost reconciliation process must be completed within 24 months of the end of the reporting
period covered by the annual SDS Cost Report. The total CMS-reviewed, Medicaid-allowable
scope of costs based on CMS-reviewed cost allocation methodology procedures are compared to
the LEA's Medicaid interim payments for school health services delivered during the reporting
period as documented in the Medicaid Management Information System (MMIS), resulting in a
cost reconciliation.

For the purposes of cost reconciliation, the state may not modify the CMS-reviewed scope of
costs, the CMS-reviewed cost allocation methodology procedures, or its CMS-reviewed time study
for cost-reporting purposes. Any modification to the scope of cost, cost allocation methodology
procedures, or time study for cost-reporting purposes requires review from CMS prior to
implementation; however, such review does not necessarily require the submission of a new state
plan amendment.

H. The Cost Settlement Process

1. For services delivered for a period covering July 1 through June 30, the annual SDS Cost Report
is due no later than one year after the close of the quarter ending June 30, with the cost
reconciliation and settlement processes completed no later than two years after the fiscal year
end.

a. Actual costs will be used to determine whether or not the LEA has an under or overpayment.
Actual costs will be calculated for the school year and will then be compared to the interim
payments made during that same school year.
2. If an LEA’s interim payments exceed the actual, certified costs of the provider for SDS to Medicaid members, the provider will return the federal share of an amount equal to the overpayment.

3. If the actual, certified costs of an LEA for SDS exceed the interim Medicaid payments, DIH will pay the federal share of the difference to the LEA in accordance with the final actual certification agreement and submit claims to CMS for reimbursement of that payment in the federal fiscal quarter following payment to the provider.

   a. DIH will issue a notice of settlement within 60 days following the completion of the settlement determination that denotes the amount due to or from the provider.

Section F – Post-Eligibility Treatment of Income

1. _____ The state elects to modify the basic personal needs allowance for institutionalized individuals. The basic personal needs allowance is equal to one of the following amounts:
   a. _____ The individual’s total income
   b. _____ 300 percent of the SSI federal benefit rate
   c. _____ Other reasonable amount: _________________

2. _____ The state elects a new variance to the basic personal needs allowance. (Note: Election of this option is not dependent on a state electing the option described the option in F.1. above.)

   The state protects amounts exceeding the basic personal needs allowance for individuals who have the following greater personal needs:

   Please describe the group or groups of individuals with greater needs and the amount(s) protected for each group or groups.
